"YOU CAN ONLY WIN IN THE FUTURE IF YOU INVEST IN IT!"

“Your Brand of Distinction”

“The modern Angus cow is the greatest asset a cattleman can base his livelihood on.

Combined with management and stockmanship, “blue-chip” shares are over rated.”

Roland Lucas philosophy 1995

“Our clients are the heart of what we do”

Dear friends and breeders,

Welcome to the annual spring sale that will offer bulls especially retained for this speciality sale.

There is a higher percentage of sires offered that possess some of the highest carcase merit that the breed can offer to commercial producers.

The favourable season has allowed the rising 2 year old bulls to express their growth potential and we are very pleased to offer the first impressive line of sons by the Rock Momentum Q8 who lies in the top 1% for IMF at +6.2. Combining this, with his proven docility and top 10% eye muscle area at +10.6, his future offspring will align themselves to commercial programs readily as we deliberately mate him to the higher growth maternal bloodlines across Reiland Angus.

There is a clear vision at Reiland Angus to re-focus on both feed efficiency and on farm profitability. Future bloodline selection will revolve around individuals that have proven superior weight gain relative to intake of daily requirements. We will have calves being born in spring 2023 that emanate from a sire who excelled in a Victorian feed test trial. We await his progeny assessment

As time progresses, we will update this exciting development in this sire. Up to 20% difference in intake can occur with this now developing efficacy trait.

We see it as our responsibility to tackle the “hard to measure”, high profit traits in an ever increasing carbon accountability world.

If you have queries or require any further data on bulls being offered, please do not hesitate to contact anyone in the Reiland team.

Kindest regards

Mark Lucas

Co-principal - Reiland Angus

SALE INFORMATION

INSPECTIONS

Cattle will be yarded in pens at Killimicat Station and will be available for inspection from 10.30 am on sale day. Inspections can be arranged at any time prior to the sale by appointment with agents or any of the Reiland team.

AGENTS AND BUYER'S SALE REBATES

A rebate of 2.5% will be paid to all agents who introduce their clients or attend the sale with or on behalf of their client and settle within the trading terms of the settling agent. To qualify for this rebate agents must introduce the client in writing to the vendor prior to the sale.

A rebate of 1% will be paid to all agents who settle within the trading terms of settling agent but do not introduce their client or attend the sale.

BULL GUARANTEE

Reiland Angus principals guarantee structural soundness and fertility of all bulls. All bulls have been examined by veterinarians and are fertile and structurally sound to the best of our knowledge. If an animal becomes infertile or breaks down due to reason other than injury or misadventure at anytime in the first 24 months from purchase we will:

1. Provide you with a satisfactory replacement if available or
2. Issue you with a credit equal to the purchase price less the salvage value that may be used to purchase an animal in future Reiland Sales.

Any claims are to be accompanied by a certificate from a registered vet. All vet costs are the responsibility of the purchaser.

In the event of a bull proving to be infertile for natural service in the first 6 months from sale date, the vendor will offer to supply a suitable replacement (if available), or credit the purchase price (less any salvage value of the bull) to be used at the next sale. This is provided problem is not caused by injury or disease since sale day. Any claim must be accompanied by a relevant Veterinary certificate.

BIDDING / BUYER NUMBER SYSTEM

The bidding / buyer number system will be used.

AUCTIONS PLUS

The bull sale is interlinked with Auctions plus. Usual protocol to register for bidding is required through this channel.

PHONE BIDDING

Please contact agents prior to sale to arrange phone bidding.

CATERING

Complimentary Morning tea, coffee, tea, cool drinks and steak sandwich will be available on sale day

BULL REGISTRATION & TRANSFERS

All bulls in the sale are HBR or APR registered through Angus Australia unless stated otherwise. The Settling Agent of the sale will conduct individual NLIS transfers to purchasers nominated PIC on registration form. Reiland Angus will transfer eligible bulls to into new purchases name through Angus Australia, if possible please advise Angus Australia herd prefix.

CARTAGE / FREIGHT

Reiland Angus will organise transport and arrange delivery at buyer's convenience throughout NSW. We will co-ordinate freight assistance on distant deliveries. Please confirm on sale day at time of settlement.

INSURANCE

Reiland Angus recommends you take out insurance to cover your new purchase. At the fall of the hammer the bull you have purchased is your responsibility. If they are injured in the yards or on the truck being delivered it is no longer the responsibility of the vendor.

ANIMAL HEALTH

All bulls have received the following assessments/treatments:

- All bulls have been ear notched or bloodtested a Bovine Viral Diarrhea (BVD) negative
- Received 2 VIBRIOVAX shots
- Fully vaccinated with 7 in 1 and drenched to control any internal/external parasites
- Reiland Angus is recorded at JBAS 6. All cattle are free to travel to all areas of NSW, VIC, TAS, SA & QLD.

RECESSIVE GENETIC CONDITION

All lots are clearly marked with their genetic status.

DISCLAIMER

- Reiland Angus, the selling agents, officers, agents and employees while exercising due care provide all information without responsibility and do not warrant its accuracy. They also accept no responsibility for accidents that occur on or about the venue. You attend the venue and the sale at your own risk.
- People entering upon this property for any purpose whatsoever, including attendance of cattle auctions, do so at their own risk. We are not liable to you for personal injury or death suffered by you and/or for the theft, loss of or damage to any personal property caused or contributed to by us or by any person whether caused or contributed to by our or their negligence, deliberate act or unlawful conduct. "We", "Us" or "Our" refer to the owners, their employees, contractors and agents and each of them. Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may have occurred.

OH&S

For the safety of all clients, Reiland Angus requests that no children are allowed within the individual yard area. Signs will on display to define these areas. All children need to be supervised at Killimicat Station at all times.

denotes elite animals that Reiland reserves the semen/marketing rights or right to access semen at buyers convenience.

STRUCTURAL ASSESSMENT & SELECTION INDEXES

Structural problems in cattle have a substantial effect on both the reproductive and growth performance of a beef herd. It is widely recognized that structural problems in sires have detrimental effects on conception rates, calving patterns and thus profitability. Similarly, females with inadequate structural characteristics are more prone to weaning lighter calves or conceiving later in the breeding season than their more functional counterparts.

These structural problems are filtered through the supply chain resulting in reduced income for the producer, feedlot and thus reducing the overall productivity of the Australian Beef Industry.

Over the past decade, use of the Beef Class Structural Assessment System in the seedstock industry has produced

a marked improvement in herds which have shown commitment to using the information appropriately. Through these dedicated breeders, there has been a flow on affect of structural improvement throughout all sectors of the beef cattle industry.

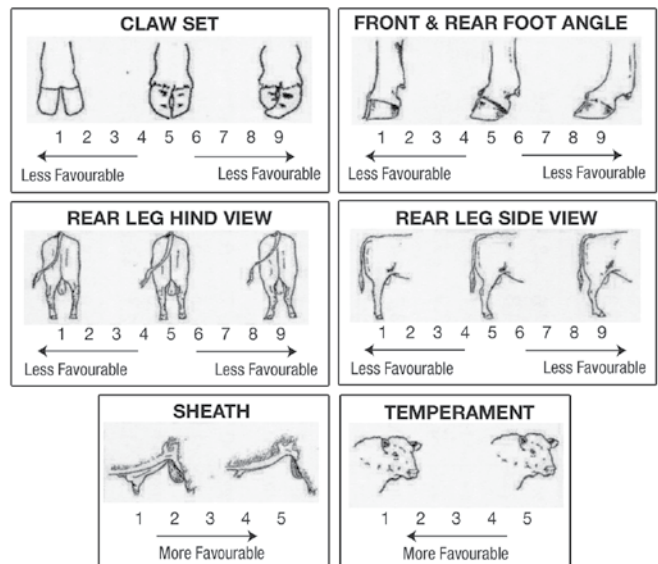

Jim Green and Liam Cardile of BEEFXCEL now service many seedstock operations in Australia, in their selection and grading of stock using the Beef Class Structural Assessment System. BEEFXCEL is not involved in any genetic marketing or specific breeding advice and therefore has no conflict of interests to influence their stock appraisal. The integrity of the structural data provided by BEEFXCEL is recognised throughout the industry as Jim and Liam are full INDEPENDENT assessors.

HOW TO USE THE BEEF CLASS STRUCTURAL ASSESSMENT SYSTEM

STRUCTURAL SCORES

The Beef Class Structural Assessment System (1-9 scoring system for feet and leg structure)

- A score of 5 is ideal;
- A score of 4 or 6 shows slight variation from ideal, but this includes most sound animals.
- An animal scoring 4 or 6 would be acceptable in any breeding program;
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs. However, seedstock producers should be vigilant and understand that this score indicates greater variation from ideal;
- A score of 2 or 8 are low scoring animals and should be looked at cautiously and inspected very closely before purchasing;
- A score of 1 or 9 should not be catalogued and are considered immediate culls.

UNDERSTANDING ESTIMATED BREEDING VALUES (EBVs) SELECTION INDEXES

Selection Indexes	SA	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls. This selection index is not specific to a particular market end-point, but identifies animals that will improve overall net profitability in the majority of commercial, self replacing, grass and grain finishing beef production systems.	Higher selection indexes indicate greater profitability.
		SA-L	\$	<p>Genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls. This selection index is not specific to a particular market end-point, but identifies animals that will improve overall net profitability in the majority of commercial, self replacing, grass and grain finishing beef production systems.</p> <p>The SA-L index is similar to the SA index but is modelled on a production system where feed is surplus to requirements for the majority of the year, or the cost of supplying additional feed when animal feed requirements increase is low.</p> <p>While the SA aims to maintain mature cow weight, the SA-L does not aim to limit the increase in mature cow weight as there is minimal cost incurred if the feed maintenance requirements of the female breeding herd increase as a result of selection decisions.</p>

IN MEMORY OF LIAM HARDWICK

1 in 4 young people feel isolated, disconnected and lonely all, or most, of the time

\$88 Enrols one young person in the 6 workshop program

\$220 Enables 15 young people to attend a workshop

\$440 Funds a 90 minute workshop for 30 youth

In May 2023, Reiland Angus were heartbroken to learn of the tragic death of Liam Hardwick after a diagnosis of depression.

Liam is the son of Joe Hardwick & Hannah Speers - Hannah being a former Reiland & PAS employee, niece, cousin, Elders' office stalwart & dear friend of the wider Reiland family.

Liam's passing at the tender age of 14 is a tragedy no family should have to face, but Hannah, Joe and their daughter Lulu are helping to bring hope to the youth of our area through LifeChanger Foundation.

LifeChanger Foundation support youth through fun, active, engaging & thought-provoking programs, helping to build social, emotional & resilience skills. The programs provide a framework of facilitators and mentors in addition to teachers and family where kids can feel safe, seen, encouraged & supported.

Reiland Angus encourages you to support LifeChanger programs.

Structural Assessment								
Claw Set	Front Angle	Rear Angle	Rear Legs	Rear Legs	Sheath	Muscle	Temp	
F 6	H 5	6	6	5	5	5	C	2

The two bulls by the Quincey sire have both exceedingly short gestation (top 5% at -9.4, -8.9). Exceptional option for calving ease in both heifer/cow joining's whilst retaining growth and carcase merit. Top 5% eye muscle at +11.9 and RBY at +1.6 ensures high carcase yield throughout retained heifers.

Be advised this is a twin bull so take that into account when assessing. A major young genetic sire with top 6% for 400D growth at +111 combines well with top 8% IMF at +4.8. Carcase weight at +101 lies in the top 1% of the Angus breed. He is the half-brother to Reiland Speculator S257 whose figures boost to 1% \$A and \$A-L indexes and who will have calves on the ground in Spring 2023. Reiland Angus reserves the right to collect semen in this genetically superior sire at the purchasers convenience.

Structural Assessment																
Claw Set	Front Angle	Rear Angle	Rear Legs	Rear Legs	Sheath	Muscle	Temp									
F	H							6	6	6	6	5	6	5	C	1

An interesting study on this bull given his exceptional 600D growth expectation at +161 despite his moderate frame score. Furthermore, he is a top 1% Net feed efficiency at -0.55. Top 2% carcass weight at +94 makes him an unique high carcass value bull for any discriminating herd. Enhance sons have always bred well above themselves, hence the reason to continue using the sire.

LAWSONS MOMENTOUS M518 X CARABAR DOCKLANDS D62

- One of the most talked about sires in the breed over the past two seasons - watch out in 2023 as his sons are poised to top bull sales across the country.
- Combines the paperwork from his sire with the superb maternal qualities from his cow family. Now with over 2400 registered progeny in Australia his unique data set makes him one of the breeds most complete all-rounders.

STERLING PACIFIC 904

Reg: USA19444025

HOOVER NO DOUBT X GAR PROPHET

- One of the highest selling USA sires over the past two seasons, Pacific's progeny are set to make their mark - thick and deep with great temperament and excellent foot structure. His first sons offered in the USA topped sales, a feat which is sure to be repeated here in Australia from early reports.
- With his balance of phenotype and EBV data set; he is staking a claim as one of the best of many Baldridge Isabel Y69 influenced sons on the market.

- **TO REILAND ANGUS** Signage both from Gundagai and Tumut will be apparent on sale day. Map plus directions outlined below will assist you. Frequent road-works are ongoing on these roads due to flood damage so allow some possible delay time to your journey.

TO KILLIMICAT STATION from Hume Hwy Gundagai

- Turn off Hume Hwy at Shell Service Station Exit—South Gundagai
- Turn left into Mount Street and follow for 1.5kms until arrive at bridge crossing river heading back into Gundagai township
- Turn Right onto Brungle Rd, Brungle . Proceed northeast for 13kms
- At T intersection cross the Tumut river turn right onto Brungle Rd Brungle (4km to Brungle village)
- Continue straight through village on Brungle Rd and follow signs to Tumut
- After 5kms - Reiland Angus, Killimicat Station will be on your left hand side.

TO KILLIMICAT STATION from Snowy Mountains Highway Tumut

- Coming from Adelong to Tumut on Snowy Mountains Highway, continue through town until you reach River Glade Caravan Park
- Just past park entrance, turn left, cross Tumut River onto Pioneer Bridge
- Follow for 4.9km until left hand turn onto Brungle Rd
- Follow for 7.7km until you reach Reiland Angus, Killimicat Station on your right hand side.

REILAND ANGUS TEAM PROFILE

Brian Leslie

Dairy Livestock Services, a Nutrien Ag Solutions partner.

Address where you live?

- Kialla near Shepparton, Vic

Brief History and career pathway?

- Commenced in the Stock Agent industry at 15 years of age in late 1979
- Auctioned sales all over Australia and NZ. Founded Brown & Leslie Dairy in 1986, sold to Elders in 1988 to become Elders Dairy Division.
- Commenced Dairy Livestock Services agency 2008.

Where you grew up and pastimes/ interests?

- Grew up in West Gippsland on Dairy farm, moved to Arcadia, Goulburn Valley, Northern Vic in 1988, partnership with Family, Leslie Farms, Pooley Bridge Holsteins, ceased dairying in 2018.
- Enjoyed showing cows having great success at International Dairy Week & Melbourne Royal.
- Have judged major dairy shows all over Australia and

many countries all over the world.

Type of cattle you like?

- Simple, good cattle of any Breed.
- But really, correct conformation, practical performance cattle with constitution are my kind.

Future industry forecast?

- Interesting, but I think if farmers can be somewhat self sufficient with feed costs there is a wonderful outlook for food producing farmers.

Name a memorable highlight of your career?

- Founding and continuing International Dairy Week for 32 years and seeing it grow to one of the World's leading dairy exhibitions.
- Selling great sales of all Dairy Breeds and several Beef has been a wonderful journey.

- Recently being honoured with OAM, Kings Birthday 2023

Where do you see yourself in 10 years time?

- Still doing what I do today hopefully.

DISCLAIMER AND PRIVACY INFORMATION

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

- PV : both parents have been verified by DNA.
- SV : the sire has been verified by DNA.
- DV : the dam has been verified by DNA.
- # : DNA verification has not been conducted.
- E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

.....

BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents.....
.....

from member.....(name) do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Name: Signature:

Date:

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350.

If you have any questions or queries regarding any of the above, please contact Angus Australia on (02) 6773 4600 or email office@angusaustralia.com.au
