## Suffolk Stud

### Stud History

NobleLee Suffolks was established in 1993 with the purchase of ewes from Ian Scott of the Nahweenah Suffolk Stud and ewes and a ram lamb from Dianne Huett of the Cotehele Suffolk Stud.

Over the last 27 years other genetics have been added to the stud including the use of A.I programs using some of the top Sires from Australia and New Zealand producing great results.

The studs aim is to breed Suffolks showing true Suffolk type concentrating on quality with firm fleshing, length , good hindquarters and soundness.

NobleLee commenced using Lamb Plan as of 2021 and continues to use Stock Scan.
