Safety Warning: The Health and Safety Act and related regulations in each State and Territory impose obligations in respect to safety for workers arising out of the design, manufacture and supply of plant and equipment for use in the workplace.

Elders, as agents for the vendors, warn buyers that no plant or equipment offered for sale is fit for use in a workplace and it is the buyers or users' responsibility to ensure that the plant and equipment is brought to a standard necessary to comply with the Act, and to carry out testing and examination to ensure it is safe and fit for the workplace.

Where available, manufacturers manuals will be provided with the plant and equipment sold, but the buyer or user must ensure that the correct manuals are sourced from the manufacturer, or elsewhere.

Buyers are warned that breaches of the State Health and Safety Act and related regulations carry very large penalties. In the interest of health and safety for all workers, safety inspections of all plant and equipment purchased at auction must be performed.

The vendor and Elders shall not be liable for any defect, misdescription or fault of any lot sold or unsold.
