AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

WELCOME

We would like to take this opportunity to invite you to our 3rd on-property Autumn Bull Sale.

We are proud to offer a commercially focussed lineup of Angus and Limousin bulls.

We strive to produce bulls that will make our clients money from their calf crop. Our focus is on breeding cattle with structural integrity, high performance, muscle shape with finishing ability. Feed efficiency is another economically important trait with a number of this year's sale draft ranking at the top of the breed.

We place a lot of emphasis on raw data, as this shows how an animal performs in our environment and where an animal ranks within its contemporary group. With cattle producers being paid on weight we think it is important to take note of raw data and actual performance of cattle rather than basing selection totally on EBV criteria that isn't 100% accurate. Our last run of scan data had some of our Angus females scoring the highest possible score for IMF off grass as yearlings.

Our bulls are bred from a strong maternal cow base that have are selected on fertility, udder quality, structural soundness and their ability to raise a good calf. The Limousin herd was established in 1994 and the cow base has been selected for generations with the Flemington herd being one of the longest running Limousin herds in Australia. A lot of the Angus bulls presented in this sale are backed up by 36 years of breeding from the DSK herd. They also offer outcross genetics as some of the dams are fully imported genetics from Canada.

All sale bulls will have weight, carcass and scrotal measurements available prior to the sale.

Please keep in mind, the young age of our bulls. Most of the bulls are around 18 months old at sale time and not 2 until the spring. The younger "U" drop bulls offer the opportunity to secure a young bull and acclimatise to your environment prior to a small Autumn joining or a bigger Spring joining later in the year.

Angus Lots

Flemington has been producing Angus bulls since 2013 with most bulls previously sold by private treaty from the paddock. We think that this year's sale draft is one of the best line of Angus bulls that we have offered so far.

The Angus offering will feature some of the first progeny in Australia by Ellingson Three Rivers. Some other sire lines include Sterling Pacific, Millbrae Benchmark, Woodhill Patent and Dunoon Prime Minister.

All Angus sale lots have been genomic tested and sire verified and/or parent verified.

Limousin Lots

We are excited to offer a line of ALL POLLED Limousin bulls that feature some of the first of Flemington Ready to Roll R20. Ready to Roll R20 was purchased by Red Oak genetics in 2021 with semen exported to Canada. He is a maternal brother to our home bred sire Flemington Next Level N40.

A Next Level son sired the \$20/kg top priced steer at the 2024 Glen Innes Potential Show Steer Sale and returned \$6580 as a weaner.

Other sire lines include Flemington Ready or Not R21, who sold for top price \$34,000 to Provenance Limousins at our 2022 Autumn Bull Sale.

All Limousin sale lots have been genomic tested and sire verified and/or parent verified.

Limousin & Angus Females

This year we have decided to only offer bulls in our Autumn sale; however we do have stud females available for private treaty sale. Please give us a call.

Show Steer Prospects

Last year we offered a small line of show steer prospects. The steers that sold in our sale all went on to major steer shows in eastern Australia. The top priced calf went on to be Grand Champion Steer at the 2023 Melbourne Royal Show. Some of the other steers won carcass classes at Brisbane Royal and the Upper Hunter Beef Bonanza.

There are no show steer prospects in the sale this year but there are plenty of steers to pick from in the paddock. Come and take a look if interested.

If you would like to inspect the cattle, please contact us as we are more than happy to show you around and assist you with your selection process.

All sale lots will have video footage available prior to the sale, check them out on Auctionsplus or breed society web page. We look forward to seeing you at the sale.

Kind regards,

Ian & Donna Robson

- 1: 2023 Melbourne Royal Limousin Feature Show Best Breeder's Group.
- 2: **DSK HOT STUFF S116** Reserve Junior Champion 2023 Sydney Royal Easter Show. Sired by Texas Earnan L612. Maternal brother by pedigree sell as Lot 22. Paternal brother sells as Lot 12.
- 3: **FLEMINGTON DREAM T56** Intermediate Champion Heifer 2024 National Angus Youth Roundup. Sired by Chiltern Park Quadrant. Paternal brother sells as Lot 20.
- 4: **FLEMINGTON DANDALOO T49** Supreme Exhibit 2024 National Angus Youth Roundup. Sired by JSRL Pokerface P21. Paternal brother sells as Lot 13.
- 5: **FLEMINGTON BLACK LYNX S31** Supreme Exhibit 2023 Melbourne Royal Limousin Feature Show.
- 6: **FLEMINGTON FLEUR S69** Supreme Beef Interbreed Heifer 2023 Sydney Royal Easter Show. Paternal brothers sell as Lot 33 and 34. Maternal brother sells as Lot 41.
- 7: **FLEMINGTON T71** Grand Champion Steer 2023 Melbourne Royal Show. Sired by Flemington Ready to Roll R20. Purchased by Jacon Kerrisk at 2023 Autumn Sale.
- 8: **JSRL PACIFIC ANITA T80** Champion owned and bred heifer 2024 National Angus Youth Roundup Sired by Sterling Pacific. Paternal brothers sell as Lot 1 and 2.
- 9: **FLEMINGTON DANDALOO T49** Junior Champion Angus Female 2023 Melbourne Royal Show.
- 10: **FLEMINGTON SERENE T12** Reserve Senior Champion 2024 Angus Youth Roundup. Sired by Texas Earnan L612. Maternal brother sells as Lot 25.
- 11: **FLEMINGTON SECRET POWER S57** Grand Champion Limousin Bull 2023 Canberra Royal Limousin Feature Show.
- 12: **FLEMINGTON GAZELLE R18** Reserve Senior Champion Female 2023 Sydney Royal Easter Show.
- 13: **FLEMINGTON T115** Class Winner Upper Hunter Beef Bonanza. Sired by Calderwood Energiser Q717.
- 14: **FLEMINGTON TEMPTATION T9** Reserve Junior Champion Female 2023 Melbourne Royal Limousin Feature Show. Sired by Flemington Quiet Achiever Q63.
- 15: **2023 CANBERRA ROYAL SHOW** Interbreed Champion Breeders Group.

SALE INFORMATION

Friday, 12th April 2024 at 1pm (AEDST)

'Flemington Park',
531 Westwood Rd, Adelong NSW 2729.

Inspections

The cattle will be available for inspection from 10am on sale day. Prior inspections can be made before the sale or open day by contacting Donna Robson 0428 599 544. All sale lots will have photos and video footage available.

Sale Format

The sale will be run as an **OPEN CRY AUCTION** and will be **INTERFACED** with Auctions Plus.

Phone Bidding

Mobile phone service will be available sale day if you require an agent or representative to bid on your behalf.

Sale Rebate

A rebate of 3% will be paid to all outside agents who attend the sale with or on behalf of their client(s) or introduce buyers in writing 24 hours before the sale and settle within seven (7) days.

Buyer's Instruction

Written instructions for delivery must be provided upon completion of the auction. No verbal instructions will be accepted. Buyer's that require transfer of registration for animals purchased should leave Herd Ident details on the Buyer's Instruction Slip.

Delivery & Transport

FREE DELIVERY within 250km of Flemington.

Delivery to other areas or major centres can be made by negotiation with Ian Robson 0427 695 852.

Please note:

Flemington does not have facilities for loading trailers.

Interstate Purchases

We will hold stock for interstate purchaser's until necessary tests and health documentation has been completed.

Insurance

Representatives will be available on sale day to take care of your livestock insurance needs. While all care will be taken by the vendor and the agents the purchases become the responsibility of the buyer at the fall of the hammer.

Animal Health

All Flemington and JSRL sale lots will be vet inspected for reproductive soundness and semen tested by Holbrook Vet Centre.

Flemington is classified as J-Bas score 6.

All cattle have been tested negative to Pestivirus (BVDV). Bulls have been vaccinated with 7 in 1, Vibrio and Pestigard.

Catering

Complimentary morning tea, lunch and refreshments will be available on the day.

Sale Day Safety

Sale pens allow for cattle inspections without having to enter the pens. Persons enter the sale pens at their own risk and no prams or children under 15 are to enter the sale pens.

Disclaimer

People entering upon this property for any purpose whatsoever including attendance at cattle auctions and open days do so at their own risk.

We are not liable to you for any personal injury or death suffered by you and/or for the theft, loss of or damage to any property caused or contributed to by us or by any other person whether caused or contributed to by our or their negligence, deliberate act or unlawful conduct.

"We" or "us" or "our" refer to the owners, their employees, contractors and agents and each of them.

While all care has been taken to ensure that information in this catalogue is accurate, both the vendors, Elders and Cattlelogue Queen takes no responsibility for any mistakes and further actions taken by any party resulting from any mistake.

UNDERSTANDING ANGUS ESTIMATED BREEDING VALUES (EBVs)

Calving Ease	CEDir	%	Genetic differences in the ability of a sire's calves to be born unassisted from 2 year old heifers.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
	CETrs	%	Genetic differences in the ability of a sire's daughters to calve unassisted at 2 years of age.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
	GL	days	Genetic differences between animals in the length of time from the date of conception to the birth of the calf.	Lower EBVs indicate shorter gestation length.
	BW	kg	Genetic differences between animals in calf weight at birth.	Lower EBVs indicate lighter birth weight.
Growth	200 Day	kg	Genetic differences between animals in live weight at 200 days of age due to genetics for growth.	Higher EBVs indicate heavier live weight.
	400 Day	kg	Genetic differences between animals in live weight at 400 days of age.	Higher EBVs indicate heavier live weight.
	600 Day	kg	Genetic differences between animals in live weight at 600 days of age.	Higher EBVs indicate heavier live weight.
	MCW	kg	Genetic differences between animals in live weight of cows at 5 years of age.	Higher EBVs indicate heavier mature weight.
	Milk	kg	Genetic differences between animals in live weight at 200 days of age due to the maternal contribution of its dam.	Higher EBVs indicate heavier live weight.
Fertility	DtC	days	Genetic differences between animals in the time from the start of the joining period (i.e. when the female is introduced to a bull) until subsequent calving.	Lower EBVs indicate shorter time to calving.
	SS	cm	Genetic differences between animals in scrotal circumference at 400 days of age.	Higher EBVs indicate larger scrotal circumference.
Carcase	CWT	kg	Genetic differences between animals in hot standard carcase weight at 750 days of age.	Higher EBVs indicate heavier carcase weight.
	EMA	cm ²	Genetic differences between animals in eye muscle area at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate larger eye muscle area.
	Rib Fat	mm	Genetic differences between animals in fat depth at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate more fat.
	P8 Fat	mm	Genetic differences between animals in fat depth at the P8 rump site in a 400 kg carcase.	Higher EBVs indicate more fat.
	RBV	%	Genetic differences between animals in boned out saleable meat from a 400 kg carcase.	Higher EBVs indicate higher yield.
	IMF	%	Genetic differences between animals in intramuscular fat (marbling) at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate more intramuscular fat.
Feed/ Temp.	NFI-F	kg/day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase.	Lower EBVs indicate more feed efficiency.
	Doc	%	Genetic differences between animals in temperament.	Higher EBVs indicate better temperament.
Structure	Foot Angle	score	Genetic differences in foot angle (strength of pastern, depth of heel).	Lower EBVs indicate more desirable foot angle.
	Claw Set	score	Genetic differences in claw set structure (shape and evenness of claws).	Lower EBVs indicate more desirable claw structure.
Selection Index	\$A	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls. This selection index is not specific to a particular market end-point, but identifies animals that will improve overall net profitability in the majority of commercial, self replacing, grass and grain finishing beef production systems.	Higher selection indexes indicate greater profitability.
	\$A-L	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls. This selection index is not specific to a particular market end-point, but identifies animals that will improve overall net profitability in the majority of commercial, self replacing, grass and grain finishing beef production systems. The \$A-L index is similar to the \$A index but is modelled on a production system where feed is surplus to requirements for the majority of the year, or the cost of supplying additional feed when animal feed requirements increase is low. While the \$A aims to maintain mature cow weight, the \$A-L does not aim to limit the increase in mature cow weight as there is minimal cost incurred if the feed maintenance requirements of the female breeding herd increase as a result of selection decisions.	Higher selection indexes indicate greater profitability.

HIGHEST INDEXES.

An outstanding Sterling Pacific son that combines a great spread of figures for low birthweight and big growth while having good carcass data in the top 10% for EMA. A super stylish bull with great neck extension and a presence that commands your attention.

His dam, from the DSK herd, has been a really consistent producer at Flemington, with 3 solid sale bulls making the top of the sale draft every year. The highest indexing bull in the entire sale draft with data within the Top 10% for all growth traits, docility and carcass weight.

HIGHEST IMF BULL IN SALE.

This bull has been a standout from an early age. T85 has a sirey outlook and is faultless in his make up, super sound footed and free moving, smooth shouldered, he has length with depth, width and capacity. This bull offers so much versatility, low birth to allow for use on heifers or cows, strong maternal with a great milk figure.

His docility figure is genuine, his placid nature has been noticed since he was a calf, always cruisy and easy to handle. T85 is one of the highest ranking HBR sons of Pacific for IMF in Australia. He also ranks in the Top 4% for MSA Marbling Eating Quality Index and Top 7% for the ImmuneDEX Animal Resilience index. His dam was purchased from the Anvil dispersal as an ET heifer calf out of the \$35,000 2nd top priced cow at the dispersal.

THREE DIMENSIONAL THICKNESS.

If you are looking for a bull to inject some power and muscle shape to your program without sacrificing IMF, check out T74. Three-D by name and phenotype. By Three Rivers who is really injecting some power and performance into his progeny. T74 expresses a stack of sire appeal with a heap of muscle shape and thickness that he carries so well while being free moving on great feet and legs.

Within the top 10% for all growth traits, carcass weight, EMA, scrotal, feed efficiency and structural traits. Maternal brother used spring 2022 in the Flemington herd.

BIG PERFORMER WITH FEED EFFICIENCY.

This bull will change things up and definitely put some weight and performance in his calves. The oldest bull in the catalogue, T28 is a larger framed bull with extra length, width and capacity. A maternal brother was sold to Sutton-O'Brien Partnership and some of these calves topped the local weaner sales at Tumut and Gundagai. This bull has outcross pedigree, and paternal sister to Dandaloo T49 who was Supreme Exhibit at the 2024 Angus roundup. Be ready to reap the rewards with the extra weight and performance in his calves. Just remember the premium you get for your calf drop is from the extra weight. Out of one of our best cows H94, his dam is one of our donor cows and a terrific breeder.

HIGH IMF SCAN DATA.

Second highest IMF in his contemporary group when scanned as yearlings. There is a lot to like about this bull, great skin and hair type, good sirey head with extra length and a great hindquarter.

This bull is out of a great TeMania Epistle cow who is consistently producing good progeny that always rise to the top of the pack for IMF scan data.

Maternal brother sold for \$11,000 at 2023 Autumn Bull Sale to WT Jones & Partners.

ANGUS BULLS

ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits:

Calving Ease Direct estimates the differences in the ability of a sire's calves to be born unassisted from a 2-year-old heifer.

Gestation Length ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

Birth Weight indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 Day Weight give us an estimation of the animal's genetic potential for growth.

Mature Cow Weight estimates differences between animals in live weights of cows at 5 years of age.

Milk a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

Scrotal Size indicates whether the bull will produce sons with above average or below average scrotal sizes.

Carcase Weight ranks animals for carcass weight.

Eye Muscle Area ranks animals for eye muscle area measured at the 12th rib on a 300kg carcass.

Rib Fat ranks animals for rib fat depth at the 12th rib on a 300kg carcass.

Rump Fat ranks animals for fat depth at the p8 site on the rump on a 300kg carcass.

Intra Muscular Fat ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcass.

Docility is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

Accuracies Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

BREED AVERAGE EBVS FOR 2022 BORN CALVES

CED	DTRS	GL	BW	200	400	600	MCWT	MILK	SS	CWT	EMA	RIB	RUMP	RBY	IMF	DOC

WE THINK THIS BULL IS PRETTY SPECIAL!

T36 has everything you would look for in a top sire prospect and a bull that ticks a lot of boxes. T36 combines great phenotype with an impressive EBV dataset. An impressive sire that has to be admired for his performance, exceptional length, width and dimension. When you analyse his EBV's, moderate birth with growth traits in the top 10% of the breed. Top 1% of the breed for EMA with positive fats in the top 5% of the breed make the dataset for T36 quite unique for a Limousin bull. His sire, Ready to Roll has left us some great females that we are excited to see in production this year.

A bull worthy of inspection for stud duties. *Semen retained for our own in herd use.*

A STYLISH SON OF READY TO ROLL.

Very similar in type and make-up to the previous lot. A bull that display alot of thickness but retains that softness and doing ability. A unique EBV dataset with growth in the Top 5% with huge EMA and being positive for fat.

This guy originates from the same Fleur cow line that produced the 2023 Sydney Royal Beef Junior Interbreed Champion heifer.

A TOP HOMOZYGOUS POLLED APRICOT BULL THAT HAS TO BE APPRECIATED FOR HIS OVERALL THICKNESS AND THE CARCASE HE CARRIES.

Out of one of our donor cows that is now owned by Lindesay View Limousins. A tremendous dataset for economically important traits such as growth and carcass. T53 ranks in the top 10% or better for 8 traits and within the top 3% for all indexes.

A full ET brother sold at our 2022 sale for \$17,000 to Luke Borg of LAS Limousins.

T53 was awarded Reserve Junior Champion bull at the 2023 Melbourne Royal Limousin Feature Show.

AN EYE-APPEALING SIRE PROSPECT WITH A STRONG SIREY HEAD, GREAT MUSCLE EXPRESSION, DEPTH AND CAPACITY.

A son of Kept Secret, who was the Grand Champion Bull at the 2017 Sydney Royal Limousin Feature Show, whose semen is no longer available. S118 has a pedigree packed with performance and growth with figures in the top 5% for all growth traits.

A bull with great maternal strength, top 1% for Milk. S118 was used over stud and commercial cows in Spring 2023.

Maternal brother to Lots 33 and 34.

A GREAT NATURED, HOMOZYGOUS POLLED, HOMOZYGOUS BLACK CALVING EASE SIRE THAT SHOULD BE SUITABLE FOR HEIFERS.

His homozygous black sire was selected from the Calderwood herd as an outcross to our herd and for being a son of one of the herd's best donor cows. His sire has produced some eye appealing show steers and carcass winners at the Upper Hunter Beef Bonanza.
