

Pride & Passion - 'Finale'

Complete Herd Dispersal

BST PASTORAL CO

Red Angus & Simmental Dispersal Sale

On-farm sale via video link

Saturday 18th April 2015 - 10am

Visit www.bstcattle.com.au for a video link of animals for sale

Offering:

Registered Red Angus:

22 Autumn Calvers - 89 Females and Calves
46 Unjoined Heifers - 17 Show Prospect K Calves
62 Semen & Embryo Lots
31 Bulls including 2 Herd Sires

Registered Simmentals:

35 Females - 17 Show Prospect K Calves
18 Semen & Embryo Lots
5 Bulls including 2 Herd Sires

Client Success with our genetics in 2014:

Raedean Just Cameron (exhibited by A Walker & N Gnaden, Buln Buln, Vic.)
**ADELAIDE ROYAL 2014 - SUPREME RED ANGUS EXHIBIT
 JUNIOR & GRAND CHAMPION BULL**
 Sire: Tronar Cameron
 Dam: BST Tullatoola Teresa C81 (purchased at Pride & Passion I)

BST Tullatoola Redman H11 (exhibited by the Johnston Family, Cargo NSW)
SYDNEY ROYAL 2014 - SENIOR CHAMPION RED ANGUS BULL
 Sire: Red RMJ Redman 1T
 Dam: BST Tullatoola Jewel E1011 (purchased at Pride & Passion II)

BST Tullatoola Fully Loaded E16 (owned by the Jordan Family, Tamworth NSW)
 Sire: Red Ter-Ron Fully Loaded 540R
 Dam: BST Tullatoola Alicia A113
 Sold as a yearling at the inaugural *Pride & Passion Sale* for \$8,000
SIRE: GOONOO RED HOLLY (pic right)- 2014 SYDNEY ROYAL CHAMPION FEMALE
SIRE: GONOO RED HOWE (pic middle)- RESERVE JUNIOR CHAMPION BULL 2014 NAT. SALE

Black Diamond Miss Jen J500 (exhibited by Black Diamond Red Angus, Cowra, NSW.)
 Sire: BST Tullatoola Mr Beef A25
 Dam: BST Tullatoola Robins Doll C104
ADELAIDE ROYAL 2014 - JUNIOR CHAMPION BULL

Heartland Fat Una (exhibited by P & T Redgwell, Tamworth NSW.)
 Sire: Red Northline Fat Tony 605U
 Dam: BST Tullatoola Una C244 (purchased privately)
NATIONAL SALE 2014 - JUNIOR & GRAND CHAMPION FEMALE

GK Red Hero 26 H4 (exhibited by G & K Iseppi, Dalby Qld.)
 Sire: Red Fine Line Mulberry 26P
 Dam: BST Tullatoola Annie D9 (Sold *Pride & Passion I*)
SYDNEY ROYAL 2014 - RESERVE SENIOR CHAMPION BULL

Airports:
 From Sydney commercial flights are operated by Qantaslink and Regional Express (REX) to Dubbo (70 minutes drive). Rex also operate to Orange (35 minutes drive) and Parkes (40 minutes drive) from Molong.

Molong and surrounding areas have mining activity and flights and accommodation can be at a premium, please book early to ensure your arrangements.

Inspections and the sale will be conducted on the "Tullatoola" property located 7.5kms from Molong on the Manildra Road (Packham's Drive). Tullatoola is on the right hand side of the road when travelling from Molong and will be signposted.

pride n 1. a feeling of pleasure or satisfaction in one's actions or qualities or possessions etc 2. a person or thing that is a source of pride 3. a proper sense of what is fitting for one's position or character self respect

passion n 1. strong emotion 2. great enthusiasm for something

Marie & Bruno Schmid (dec)

BST Tullatoola, our story...

In 1970 Bruno and Marie Schmid purchased the property "Tullatoola" located a few kilometres outside Molong. Shortly after "Avondale" a rundown sheep farm outside Manildra situated about half an hour's drive from Tullatoola was added. The combined properties total 1500ha.

Over the years we improved the two farms quite considerably by building dams, soil conservation, fencing, establishing laneways, pasture improvement, regular fertilizing etc. This is an ongoing program. Beside cattle we run a 1000 head Merino flock and if the seasons are favourable we grow some cash crops. During the hay season we are not just making our own but also have a small hay and silage contract business.

We purchased our first Simmental bull in 1975 for cross breeding in our vealer production. The Simmental Stud was established shortly after and now has 40 stud cows.

BST Tullatoola Red Angus was established in 1993 with the purchase of a bull from the Rosedurnate Stud of Warwick and Mary Tom. Our first cows were bought from Judy Frankenberg as heifers. Slowly the stud grew over the years with further purchase of selected females at various Stud sales. In 2003 we were able to acquire the complete herd of Geoff and Helene Mayor's Jolley Farm.

An extensive AI program coupled with heavy culling has seen the development of what we consider to be a very sound breeding herd. We always strive to breed structurally correct cattle putting a large focus on feet, udders and pelvic area in our Females and excellent muscling and thickness in our Bulls.

We have used outside genetics from America, Canada, Europe and South Africa for our extensive AI and ET programs in both Studs, which ensure the production of functional cattle that can contribute to our client's productivity. To achieve this objective we endeavour to run our cowherd under similar conditions to our clients.

Our show record over the years has seen many broad ribbons won at Royal and Local shows as well as the Red Angus National Show and Sale. A highlight of this was winning Supreme Exhibit at the Adelaide Feature Show 2009. At the same show we were part of the Interbreed Senior Pair as well as the Junior Pair and also won Reserve Champion Junior Heifer.

The strength of the BST herd has been highlighted by being able to win breeders group interbreed champion ribbons at Bendigo, Bathurst Royal, Dubbo Beef Spectacular and Dubbo Show.

Having over 200 cows in the stud and continual contact with our clients has enabled us to improve and back our cattle 100%. We have been a member of BREEDPLAN since 1996, birth weights 200, 400 & 600 days weights and scrotal size are recorded along with scanning for fat, EMA & marbling. This coupled with a visual appraisal enables us to monitor where our breeding program is each year.

The last couple of years have been notably positive for the Tullatoola Simmentals – receiving most successful exhibitor award two years in a row at Sydney and in 2014 exhibited the Grand Champion and Supreme exhibit with a 10 month old bull - Tullatoola Eastlake J16.

The previous "Pride & Passion" sales of 2010, 2012 and 2014 have given us great pleasure watching the genetics breed on and perform for their new owners.

In 2014 at Sydney Royal Easter show and the Red Angus national in Dubbo, fifty percent of the cattle shown carried BST Tullatoola genetics and five out of six champions had BST genetics in their bloodlines at both shows.

At the Adelaide Royal last year BST Tullatoola genetics were well represented with the junior heifer and the junior champion bull and supreme exhibit having BST genetics in their immediate pedigree. The past two years have seen the addition of new genetic lines to the sire power residing at Tullatoola with many new sires represented in this sale.

We look forward to seeing you at our "finale" sale and passing on the collection of animals that Bruno as stud founder dearly loved with both pride and passion.

Marie & Sebastian Schmid *Principals*

Sale Information

Genetic Conditions:

BST Tullatoola has undertaken testing of pedigrees with known carriers in the pedigree. The supplementary sheet will indicate any results received after the catalogue has been printed. Please contact us if you have any queries on any pedigree in the catalogue.

Inspection:

The sale offering will be penned for inspection from 8am on Friday 17th April and from 7.30am on sale day, Saturday 18th April. Prior inspection is welcome by contacting the selling agent Ben Redfern 0457 770 062.

Health:

BST Tullatoola is located in a Johnes Beef Protected region of New South Wales. Cattle are TB and CAB free.

Bidding:

The cattle will be sold via a video link. All cattle will be on display for potential purchasers but no cattle will be run through the sale ring on the day of the sale. A buying number system will be used on sale day. Prospective purchasers must register their name and address and obtain their individual buying number before commencement of sale. This will be done at the agent's office.

Registration - Red Angus:

All cattle are sold as herd book registered, unless they are recipient cows that have herd book registered calves at foot. This is done Red Angus Society of Australia Inc. and are eligible for transfer at vendor's expense. Please advise transfer details on your registration on of buyer's number.

Registration - Simmental:

All cattle are sold as herd book registered, unless they are recipient cows that have herd book registered calves at foot. This is done with the Australian Simmental Breeders Association on Ltd and are eligible for transfer at vendor's expense. Please advise transfer details on your registration on of buyer's number.

Buying Orders & Phone Linkup:

A person nominated by you to act on your behalf will diligently execute buying orders. Bidding by mobile phone will be available. Contact Ben Redfern 0457 770 062.

GST:

All bids are made on the understanding they are exclusive of GST, that is GST is to be added to all prices gained on the day.

Insurance:

Possession of the animal is from the fall of the hammer. We strongly recommend insurance of your purchase. Agent representatives will be in attendance on sale day.

Delivery:

Delivery will commence after the conclusion of the sale. Lockie 0429 826 343 and Peter 0427 826 343 from Falls Livestock Transport will be in attendance on sale day to coordinate delivery of your purchases. All delivery instruction must be given in writing on the sale day prior to stock travel.

Rebate:

A 1% rebate will be offered to outside agents on the condition that a written introduction is received 48 hours prior to the sale or the agent accompanies the purchaser to the sale and settles on their behalf within 7 days. (This clause will be strictly adhered to.)

Terms & Conditions:

Terms of the sale are as per Conditions of sale NSW Stud stock.

Warranties & Refunds:

All purchases come with the BST breeding guarantee that these animals have been proven performers for us - owing to the nature of this being a dispersal sale no further claims or warranties exist.

Disclaimer:

People entering upon this property for any purpose whatsoever including attendance at cattle auctions do so at their own risk. We are not liable to you for any personal injury or death suffered by you and for theft, loss or damage to any property caused or contributed to by us or by any other person whether caused to, contributed to by us or by negligence deliberate act or unlawful conduct. "We" or "us" or "our" refer to the owners and their employees, contractors and agents and each of them. Whilst every care has been taken in compiling this catalogue to ensure accuracy of information supplied no responsibility is accepted for any errors which may have occurred.

Catering:

Caterers will be on site on Saturday from 11am offering light meals and refreshments.

Auctionsplus:

The sale will be interfaced with Auctionsplus. Intending purchasers must register prior to the start of the sale www.auctionsplus.com.au If you need assistance with auctionsplus please consult with the selling agents.

auctionsplus
agricultural auctions at a click.

Understanding BREEDPLAN

Red Angus GROUP BREEDPLAN EBVs cannot be validly compared to the GROUP BREEDPLAN EBVs for other breeds (including Angus).

Estimated Breeding Values (EBVs): An Estimated Breeding Value EBV is an estimate of the genetic value of that particular animal for each trait measured.

Accuracy: Accuracy is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or it's relatives. Accuracy below 75% should be considered low.

Birth: BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

Fertility: SS: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate larger scrotal size. SS is also positively associated with female fertility.

Growth: Milk: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability For sires, this EBV is indicative of their daughter's milking ability as it affects the 200 and 400 day weight of their calves.

200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MWT: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Moderate EBVs are generally more favourable.

Carcase: CWT: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

EMA: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area at the 12/13th-rib site of a 300kg-dressed carcase. More positive EBVs indicate larger eye muscle area and therefore higher retail beef yields.

RIB: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the 12/13th rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RUMP: Rump Fat EBV (mm) estimates the genetic differences in fat depth at the P8 site of a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBV%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase weight.

IMF%: Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13th-rib site in a 300kg carcase. For some markets, larger more positive values are more favorable.

Table 1. Average EBVs for the 2012 born animals analysed in the 2015 March Red Angus GROUP BREEDPLAN

The Agricultural Business Research Institute (ABRI) from data supplied by the breeders compiled the Red Angus GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue. Neither Red Angus Society of Australia nor the ABRI oversee or audit the collection of this data.

Selecting Animals Using Selection Indexes

The Selection Index value for an animal is effectively an EBV of the animal's profitability in a defined commercial production system and market. Ranking seedstock animals on their Selection Index value sorts them based on their progeny's expected profitability for the targeted production system.

Red Angus Selection Index Descriptions

- **Supermarket (SUP)** - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting the domestic supermarket trade. Steers are either finished on grass or grain (e.g. 70 days). Steers are marketed at 450 kg live weight (250 kg HSCW and 12 mm P8 fat depth) at 15 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.
- **Vealer (VLR)** - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting vealer production. Vealers are finished on grass and are marketed at 320 kg live weight (180 kg HSCW and 4 mm P8 fat depth) at 9 months of age. Daughters are retained for breeding. No marbling is required
- **Northern Steer (NTH)** - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd in Northern Australia with Bos indicus cows targeting grass finished steers for export. Steers are marketed at 600 kg live weight (330 kg HSCW and 10 mm P8 fat depth) at 27 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.

PLEASE NOTE: BREEDPLAN AND INDEX DATA IN THIS CATALOGUE IS FROM THE MARCH 2015 RED ANGUS GROUP BREEDPLAN RUN

 RED QUANTOCK 108U
 RED QUANTOCK 1000 MISS 25N

The Night has proven himself in our breeding program over and over again to be an impact sire. With over **244 progeny analysed in BREEDPLAN** not only have his progeny excelled but he would rank as one of the most proven Australian performance recorded sires in recent history. Sons with muscle, daughters with milk, this sire does it all. **The Night** progeny have been the backbone of BST Tullatoola's National teams with progeny grossing over \$104,000 at this event. Sons have sold to \$14,000 with **The Night** sons maintaining a solid average. Daughters have sold to \$6,500. Demand has been from both the commercial and registered sectors of the industry recognising the doing ability of his progeny. His dam, the result of an imported Canadian embryo is a tremendous female that has bred many champions and progeny that have been keenly sought at sales.

Super sire "Sakic"

RED SIX MILE SAKIC 832S (MAF) (OSF) CANM1332064

BORN: 26/02/2006 TATTOO: CANM1332064

Sakic 832S was the standout calf at Six Mile Red Angus since his birth. He was born unassisted with a moderate birth weight of 36kg and just boomed from there. His dam is a beautiful two year old, Red Six Mile Sierra 257P. Shown with Sakic at foot they won the two year old class at the 2006 Canadian Western Agribition. Sakic is a very impressive individual to view, with a lot of balance and muscle shape. He stands on a square set of legs with a good solid foot under him. His scrotal measured 36.6 cm as a yearling. Sakic is a moderate framed sire who showed a lot of early maturity. A half interest in Sakic at the 2007 Six Mile Bull Sale for \$CAN36,000 to Genex Inc. and he has since become one of their most inquired about Red Angus Sires His first son to sell, Red Six Mile Utah 455U, sold at \$CAN37,500.

Sakic has fast proven his consistency here at BST. His females are beautifully made with plenty of volume and soft easy doing cattle with abundant growth. His dam is a superior cow with a beautiful udder. His progeny here in Australia have sold to a top of \$14,000 at auction and his daughters to \$12,000. BST Tullatoola Victoria D83 topped the first Pride & Passion sale back in 2010. Sakic has 219 calves registered here in Australia and they have made their mark on the Australian Red Angus herd.

RED RMJ REDMAN 1T (MAF) (OSF) CANM1415715

BORN: 30/01/2007 TATTOO: CANM1415715

Semen in **Redman 1T** was brought into Australia, originally to be used on heifers in the BST and Round-em-up herds. His calving ease, structure and fleshing has now been proven with his Australian progeny. They are everything we had hoped for, low birth, thick and classy calves with plenty of length. Berry Reynolds in his IBR dispersal catalogue quoted "I'd blanket use this bull over every female I had if possible. His progeny are such easy doing, structurally sound calves that have the constitution to survive any conditions." There is plenty of potential for future show calves in both the heifers and bulls in these calves. The Johnston Family purchased Lot 4B in Pride & Passion II and the Redman calf at foot went on to be Senior Champion Bull Sydney Royal 2014.

BST Tullatoola Redman H11 sired by Red RMJ Redman 1T sold as a calf at foot in Pride & Passion II Senior champion bull, Sydney Royal 2014 Exhibited by the Johnston Family, Annandale stud.

Roundemup Red Rocket, sire of Crooble Elmer E18

This young sire was a stand out in our eyes on a visit to long term clients, the Uebergang Family at Crooble. We appreciated the opportunity to purchase back these outstanding genetics. Elmer is sired by powerhouse sire Roundemup Red Rocket and from a dam line that has performed so well at Jillangolo. We feel the calves at foot in this sale indicate the potential of this young sire.

WILLANDRA GENERAL PCSG31

BORN: 09/04/2011 TATTOO: PCSG31

General was purchased as the top price bull from the Willandra Annual sale in 2013. His sire has bred exceptionally well for the Willandra stud and we are happy to invest in a sire from this well regarded breeding program. We paid \$6,750 for this Trendsetter son and are blown away by his progeny. That's our opinion, we invite you to inspect the calves at foot in the sale and make your own judgement. General will see heavy use in our herd with progeny like these calves on offer today.

BST and Round-Em-Up purchased this young powerful bull from Lindsay and Judy Murphy. **Equator** is a beautifully balanced bull, that is dark red very slick skinned and packed full of red meat. His calves are moderate birth weight, fine coated and are impressive with their uniformity. The outcross bloodlines on his dam's side with his Canadian import sire being only used exclusively in Australia made him very useable in the Tullatoola herd. He is a very free moving, correct foot bull that has been admired by anyone who has seen him.

COMPLETE is about the only word to use to describe him. Fully Loaded was Bull Calf Champion and Reserve Grand Champion Bull at both Farmfair and Agribition in the fall of 2005. Six Mile invested \$CAN50,000 for a half interest in this sire. He is an awesome pure beef bull who has been admired by many cattlemen both within our breed and from other breeds as well. His dam is a member of the famed "Goldie" cow family. She is a well made and prolific female. The best part about "Fully Loaded" was soon to come; his first Canadian calf crop was born in 2006. Calves sired by "Fully Loaded" have had major success in Canada. They are big-hipped, deep-bodied, long-spined, with lots of style. Fully Loaded calves here in Australia are impressive just like their sire. His Australian calves are proving to be equally as desirable. Bull calves at BST are outstanding with plenty of muscle but retaining a beautiful soft coat and soft easy fleshing style cattle. His daughters are just as good. They have beautiful neck extension and at a early age have lovely soft udder attachment.

Indeed is the true foundation sire of the current Six Mile Red Angus herd. This easy doing, maternal sire has proven himself in every area. Prolific at siring both bulls and females, Indeed truly has earned the **ELITE SIRE** status he is recognized with. Indeed daughters are known the world over for their flawless udder structure and abundant milk production. Some noted daughters are the \$CAN70,000 valued, Lassie 377P, that topped the 2008 Red Roundup sale and the \$CAN32,000 Bayberry 256T who is the reigning National Champion Red Angus Female and the World Angus Forum Grand Champion Female in both the Open and the Futurity show.

Indeed sons have topped sales everywhere. Six Mile bred sons Timberlake 180T was valued at \$CAN72,000 and TidalWave 254T at \$CAN32,000. Don't miss the opportunity to access these genetics, Six Mile sold 20 straws of semen which sold for \$CAN700 a straw. BST Tullatoola and Round-em-up Studs are very honoured to have been allowed 100 straws in Indeed be imported into Australia. Indeed females are superior females with beautiful udders and teat placement. In Australia the first eight sons to sell grossed \$45,000. The consistency of this sire is outstanding. Now the true test of this superior sire is being seen in Australia with his first daughters now in production and oh what cows they are. Check out this offering of Indeed genetics and appreciate the quality and depth in them.

Simmental

RHIANNAN ROTH

BST Tullatoola Eastlake J16, Supreme Simmental Exhibit Sydney Royal 2014.

Judge: Corey Ireland, Bruno Schmid, Rob Sinnamon, Jason Sutherland and kneeling Stuart Hobbs

BST Tullatoola Simmentals purchased our first Simmental bull in 1975 for cross breeding in our vealer production herd. The stud was established in 1978 with the purchased of females from the Ranel Stud. In 1992 we were running 300 Simmental cows.

Since then we have culled heavily and selected strongly for functional traits to establish our elite herd of 40 stud cows.

In the last 4 years we have started breeding pure red Simmentals. Genetics have been sourced from both Canada and USA for inclusion in our breeding program.

Our participation in local and royal shows has seen many broad ribbons won. A highlight of our showing was winning Supreme Simmental Exhibit at Sydney Royal in 2011. Eclipsing this and memorable for everyone at BST was when our 9 month old Traditional bull won Supreme Simmental Exhibit at Sydney Royal last year. Bruno loved his traditional Simmentals and to win supreme with one this year really meant a lot to him.

2011 Supreme Exhibit Sydney Royal, Tullatoola Wendy

WAYNE GORINGS

2014 Supreme Exhibit Sydney Royal, Tullatoola Eastlake J16,

Stud sire, Barana Eastlake

Tullatoola Wendy pictured after calving.

SIMMENTAL BREEDPLAN

For a description of the BREEDPLAN traits please refer to page 8-9. Breeders should note that the EBV's for Simmentals and Red Angus cannot be compared.

Australian Simmental Selection Indexes

There are four different selection indexes calculated for Australian Simmental animals.

These are:

-) Domestic Maternal Index
-) Export Maternal Index
-) Northern Terminal Index
-) Vealer Terminal Index

Each selection index describes a different production/market scenario and relates to a typical commercial herd using Simmental bulls and targeting the following specifications.

Domestic Maternal Index - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd in Southern Australia (e.g. Angus cows) targeting the domestic supermarket trade. Steers are either finished on grass or grain (e.g. 60-70 days). Steers are marketed at 430 kg live weight (240 kg HSCW and 6 mm P8 fat depth) at 14 months of age. Daughters are retained for breeding.

Export Maternal Index - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd in Southern Australia (e.g. Angus cows) targeting the export trade. Steers are finished on grain (e.g. 120 days) and marketed at 700 kg live weight (380 kg HSCW and 8 mm P8 fat depth) at 28 months of age. Daughters are retained for breeding.

Northern Terminal Index - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd in Northern Australia (e.g. Brahman cows) targeting the export trade. Steers are finished on grass and marketed at 630 kg live weight (345 kg HSCW and 12 mm P8 fat depth) at 28 months of age. This is a terminal production system therefore no daughters are retained for breeding.

Vealer Terminal Index - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd in Southern Australia (e.g. Angus cows) targeting the vealer trade. Vealers are weaned and sold at 8 months of age weighing 350 kg (195 kg HSCW and 6 mm P8 fat depth). This is a terminal production system therefore heifers are not retained for breeding purposes.

All selection indexes are reported as an EBV, in units of relative earning capacity (\$) for a given production/market scenario. They reflect both the short term profit generated by a sire through the sale of his progeny, and the longer term profit generated by his daughters in a self replacing cow herd (where applicable).

Average EBV's for the March 2015 SIMMENTAL TRANS TASMAN GROUP BREEDPLAN

| INDEX \$ Values | | | | EBV | | | | | | | |
|-----------------|------|------|------|------|------|------|-----|-----|-----|------|--|
| DMI | EMI | NTI | VTI | CED | GL | BW | 200 | 400 | 600 | MILK | |
| \$32 | \$37 | \$15 | \$29 | +0.1 | -1.3 | +0.9 | +18 | +31 | +28 | +8 | |

The Agricultural Business Research Institute (ABRI) from data supplied by the breeders compiled the Simmental GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue. Neither Australian Simmental Breeders Association Ltd nor the ABRI oversee or audit the collection of this data.

Notes: Here's a cow that will take your herd to the next level. She's the Dam of Lot 287 and produced the Supreme Simmental Exhibit at the Sydney Royal in 2014 and sold for \$8,000. The Wendy Family is extremely consistent with her maternal sister who is Lot 279 also being Supreme Simmental Exhibit at Sydney Royal in 2011. Her bull calf BSTPK001 sells as Lot 304. Rejoined to Barana Eastlake from 11/7/14 and sells PTIC. Due to calve 20/4/15.

Notes: We purchased Eastlake in 2011 for \$10,500 and what an asset he has been to the BST program. He is a heavily muscled, polled sire that added plenty of weight and punch into his calves. Eastlake is an extremely long bull that moves brilliantly around the paddock, especially considering his size and weight. He is an easydoing sire and we are sure he will continue to bred on for whoever does buy him.
