Welcome

After nearly 32 years in the stud cattle game we have decided to call it a day. Cattle have seen us meet many wonderful people all over Australia and around the world.

In the beginning we were involved in the importation of live cattle and new genetics. We have shown cattle throughout the eastern states winning many broad ribbons and numerous interbreed championships. The highlight being winning Beef 2006 with “Double J Zulu”, a Gelbvieh bull we owned and bred.

Our Charolais stud was initially based on Rosedale and Palgrove bloodlines. We have always focused on breeding polled, soft fleshing, easy doing cattle with great growth.

This sale will provide an opportunity for large and small studs to purchase some cattle with sound genetics, structural correctness and longevity. This year’s calves by the red factor bull, Forged From Steel, are an outstanding line-up of polled calves.

We will also be offering the last of our Gelbvieh cattle after the original stud was sold to the Turra Family in 2007.

*Michael, Wendy & Matthew Jackson
Jackson Pastoral Co.*

AuctionsPlus

- Our sale will be interfaced live on AuctionsPlus.
- Bidders can bid online at their location and the bid is transferred to the auction straight away. Bidding is available only if registered with AuctionsPlus 48 hours prior to the auction. To register go online to www.aucitonsplus.com.au
- For first time users of AuctionsPlus it is recommended that you register as early as possible to become familiar with how the bidding system works. The AuctionsPlus staff are very helpful and happy to help. Phone (02) 9262 4222.

Exceeding breeding expectations in many traits.

Low birthweight calves with plenty of growth, thickness, softness and style. First progeny are due to be ultra sound scanned for carcass traits, April and May. We expect the result to be positive for EMA and Fat Cover based on first data already recorded.

The "doability" of his calves are excellent and this is the number 1 trait selected for in the whole BETTER VALUE CHAROLAIS GROUP program....the greatest EBV's are of no value if sires and their progeny are not capable of performing in less than ideal seasonal conditions.

Approximately 50% of progeny are red factor and 90% are polled.

A great selection of progeny in this sale.

Semen now available from UCBS, Allora QLD or contact Roderick Binny direct.

Fast becoming one of the great breeding bulls of the breed in Australia. Selected by Glenlea to add softness and polling to horned females and has exceeded all expectations. Progeny in over 20 studs. Amazing EBVs with very high accuracy puts him at the very top of the breed in Australia in many traits and overall. Proven by progeny Homozygous Polled. Low birthweight. Growth in top 1% of breed, EMA top 10%, Fat cover top 1%, IMF top 1%. Fine hair coat, tight sheath in all progeny, length and eye appeal. Loveevity - still a working natural sire in the Glenlea Herd. Sire and dam are breed legends in their own right. Used extensively over horned females with French sires at Glenlea and has added softness, 100% smooth polling (no scurs), lowered BW and increased calving ease. At the same time maintained growth, volume and substance that so many pure North American bloodlines don't. 2015 draft of bulls by D15E will be the feature of our bull sales this year, and are the best progeny draft from one sire we have ever produced.

Semen available from UCBS , Allora QLD or contact Roderick Binny direct.

Trait leading sire in the Australian Charolais breed for 200, 400, 600 day weight. Top 1% of the breed for retail beef yield and carcass weight. Both these traits are often overlooked but measure overall thickness and muscling much better than EMA alone. All this performance in a Polled, Red Factor sire! Daughters are now weaning there second calves with great milk, perfect udders and good doers. 75% of progeny red factor.

Semen available.

Senior Champion Bull at Sydney Royal 2010. He has become our most reliable easy care heifer bull, being in the top 2% of the breed for low birth weight. His progeny being thick and square with plenty of natural muscling and fat cover have great commercial appeal. With many daughters now into production, their doability and genetically added value milking ability are going to make them great breeders.

Top Priced bull at National Show and Sale 2006 at \$20,000. His progeny have been so popular with both commercial and stud breeders. They have been used in cross breeding programs from Tasmania to Emerald in QLD. Tremendously thick progeny with high yielding carcasses and a very docile temperament. His influence will live on in his daughters in the Better Value Charolais Group Stud Herds.

Semen available.

Photo taken only 2 weeks out from a mob of females. An outcross bloodline to the Glenlea Herd, our pick of three E.T. brothers born in 2013. Tested Homozygous Polled, big testicles, explosive early growth, with moderate mature frame, top 1 % breed for milk. Excellent EBV's combine with an early maturing phenotype to make this young sire standout to us. We have used extensively over heifers and selected mature females. Semen available in limited release. Joining sire to GLE C11E and GLE B47F.

Pictured a week out from cows, his "doability" easy to see. This sire was recently purchased from the Challambi Stud VIC of Nigel Spink, after being sold as a frozen embryo to Nigel 3 years ago. A Polled son of "Pinay" from GLE Janet U6E our Homozygous Polled Donor dam. His low birthweight, balanced growth, heaps of EMA and extra Milk EBV's while still being a soft easy finishing bull fit well into our breeding objectives. Combined with good hair, great volume and that all important "Doability" it's easy to see why he has joined our sire team. Semen available in limited release. Joining sire to 2 Jackson Show females MEJ H13E and MEJ H11E.

Comments: DARK RED, Double Bred Red Factor, DNA tested HOMOZYGOUS POLLED sire. E.T. son of 2011 interbreed champion at Brisbane Royal. Dam has 4 sons doing stud duties and daughters at the top of another 3 studs performance records. Excellent balanced EBV's with good bone, thickness and length of body. Ideal sire to put lots of red polled calves on pured white cows or black charolais composites on black cows.
