

TRENT BRIDGE WAGYU

A lot of 6 embryos out of WKSFM0139 Haruki 2 and TBRFJ0016. This lot of embryos have high marbling and robust growth. Haruki 2 is one of the grand sires of the wagyu breed within Australia. J16, with bloodlines back to TF148 and Goshu Kitada brings very high marbling and is one of our top donor cows.
