Irongate Nominees Kalgan, WA	Semen	50 Straws	Landmark Breeding Services Bunbury WA		Click here for Breeding Details	Mitch Braithwaite Primaries of WA, Mount Barker 0427 702 311	 IRONGATE WAGYU NOMB Y ICHURYUNO C016 is suited to producing large frame replacement females. A trait leader in top 1% for 600 day & Mature cow weight , Top 5% for 200 and 400 day growth and carcass weight. This is the bull you want producing replacement females in your herd today to be later crossed with a high marbling sire. We have found his feeder progeny are fast growing and need to enter the feedlot at a higher induction weight (same age as cohort) , as they still need normal time on feed to mature and build their frame. From this feeding you will see some high MS and 500KG+ carcass results. This EBV trait leader should be used within the Takeda Breeding Rotation as a Group C male mated to a Group B female. Freight and Insurance is at the purchasers cost and the delivery point is Landmark Bunbury WA. All Semen purchased must be paid for in full before delivery.
