

STONEY POINT
PERFORMANCE ANGUS

Stoney Point Autumn Female Herd Sale

Wednesday 11th January

3:00 pm

At our Naracoorte Sale Complex

Welcome to the Stoney Point Autumn Female Herd Sale

To simplify the expanded Stoney Point Performance Angus operation and focus on delivering to our clients not only the best bulls but the best service, we have decided to have only one calving each year (Spring). Hence the sale of our autumn female herd.

This represents a significant opportunity to purchase some of the elite genetics of the Australian Angus breed. A variety of buying options are presented to suit our clients needs.

The bulk of the females in the sale are from the original Stoney Point autumn herd and were bred over 18 years with great passion and enthusiasm by John Gommers with a strong emphasis on structure.

There are some great young females in this sale, in particular the mated L heifers and “classed in” unmated M heifers which have their breeding life ahead of them.

Mating Sires used include the best available e.g. Millah Murrah Kingdom K35, Koupals B&B Identity, K Bar D Joe Canada, Matauri Reality and Stoney Point Fever Pitch.

The sale also includes some exceptional embryos including Papa Equator 2928 x LaGrand Lady 5408 embryos. Papa Equator semen sells for over \$3,000 per straw (if you can get it) and brothers to this flush have sold for upto \$11,000.

Some semen packages are included from our 2 new imported bulls Koupals B&B Identity and K Bar D Joe Canada.

Sale Time

The sale is scheduled to commence at 3:00 pm SA time on Wednesday January 11, 2017. Inspections are welcome from 11 am on sale day or between 3:00 pm and 5:00 pm on the day prior to the sale, or any other time by appointment. We encourage buyers to inspect the females prior to sale. This gives us the opportunity to assist in the selection of genetics to best fit your herd.

Selling System.

Sale will be conducted under auction conditions as posted by the Agents on the day. Selling price will not include GST.

Accommodation

Naracoorte Hotel/Motel (08) 8762 2400—Country Roads Motor Inn (08) 8762 3900—Naracoorte Cottages 0408 810 645. For any other accommodation or travel assistance please contact Peter Colliver on 0428 723 640.

Rebates

A 10% rebate for Junior Angus Society members for their first animal purchased plus 5 straws of Stoney Point Lovis SYAL178. A rebate of 3% is allowed to agents nominating and accompanying buyers to the sale. Agents not meeting the above terms will receive 1% if settling for a client.

Registration Transfers

Ownership transfer of eligible animals will be registered by the vendor unless other instructions are received from the successful purchaser. Please provide transferee details when giving written delivery advice to the selling agents. All animals selling are either Herd Book Registered (HBR) or Angus Performance Registered (APR) and can be transferred at no cost. Purchasers are requested to provide Herd ID and property PIC.

Embryos and semen

Embryos are offered in lots of 4 and semen in lots of 10 straws. The auctioneer's call will reflect this details. Embryo and semen lots are deemed to have been delivered once they are dispatch from TLG, and buyers are advised to arrange insurance cover for these lots as it has been known for tanks to tip over during transit.

Breeding warranties

As this is a dispersal sale, we are not in a position to offer guarantee on the animal lots. However, we have always prided ourselves on our attention to detail and every lot in the sale has been rigorously checked. Equally purchasers are advised that pregnancies after 90 days are far more stable than prior to 90 days, and should be aware that some pregnancies may be aborted post pregnancy testing. Every care will be taken to make sure that all details are accurate and available, however we accept no liability for any errors.

Phone Bidding

Phone bidding can be arranged prior to the sale by speaking to the selling agents.

Herd Health

Animals offered were given the following treatments:

Cows

Oct 2016—due Oct 2017

7 in 1 (+ booster)

Pestigard (+ booster)

Vibrovax (+ booster)

Heifers

Oct 2016—due Oct 2017

7 in 1 (+ booster)

Pestigard (+ booster)

Oct and Nov 2016—due Oct and Nov 2017

Vibrovax (+ booster)

Catering

Refreshments will be available throughout the sale, and we would also like to invite all cattle producers for a barbecue and get together after the sale.

After Sales Service

We offer ongoing support to our clients. All at Stoney Point Performance Angus are available to discuss any aspect of your herd and can be contacted on the numbers listed in this catalogue.

AM—NH—CA—DD

All animals selling are either less than 5% probability of these defects, or have been tested free.

Delivery

Delivery is at the buyers expense.

Buyers Instructions

No buyers instruction form is included in the catalogue. Sale Agents prefer their own “Buyers Instructions” cards. All purchasers must complete one of these cards prior to leaving the sale. No verbal instructions will be accepted.

183 LOTS FOR SALE

21 Autumn 3 in 1 Cows
7 Donor Cows
107 PTIC Autumn Cows
20 PTIC Autumn Heifers
18 "Classed in" Weaner Heifers
5 Lots of 4 Frozen Embryos
5 Lots of 10 Semen Straws

MILLAH MURRAH KINGDOM K35(AI)(ET)

Thirteen of the Stoney Point Autumn females presented in this sale have been inseminated to famous Kingdom K35 which is the \$150,000 Australian record priced Angus bull that headlined the astounding Millah Murrah bull sale in September 2015.

Kingdom K35 exhibit a tremendous three dimensional phenotype, he is as long as a train, deep sided and thick through the loin.

We are confident of the potency of Kingdoms pedigree and the input that he will provide to your herd.

INTRODUCING OUR TWO NEW IMPORTED BULLS

John Gommers spent several weeks in the US in 2014 searching for the ultimate bull. He found it in Koupals B & B Identity on his last visit of the trip at the Krebs Ranch in Nebraska.

It turns out many Australia studs had ought to obtain Identity semen. John got the first lot and a number of cows offered in this sale have been AI'd to him. He is a top selling bull that is extremely complete and is considered the best Upward son around. His own son KR Status 4267 looks like being a stunner as well.

While at Krebs a meat machine bull K Bar D Joe Canada, caught John's eye and he obtained semen from him as well. Note Joe Canada is an almost total outcross and his current EPD's will not be uploaded until June 2017. Current Angus Society figures are therefore meaningless as he has no linkages.

If you would like to talk to John about these bulls his number is 0418 813 191. He would welcome your call.

 RITO 2311 OF 2536 BRND 036
DAM: SGMK23 STONEY POINT 2311 UMBRO C23 (AI)
 ROSELEIGH UMBRELLA U57
 Notes: K72 is a Timeless daughter who stems from one of the only Rito 2311 females still in production, and a female that has left plenty of good ones. Big, long sided, and with some real presence. K72 sells with a Landfall Aberdeen H78 heifer calf at foot SYAM49, and mated to the record priced Kingdom bull. Aid to Millah Murrah Kingdom on 22/06/2016 and depastured with Landfall Upward H219 from 4/07/2016 to 5/08/2016 and Te Mania Emission E525 from 5/08/2016.

THE SCIENCE OF SELECTION

The advanced genomic selection tool available for Australian Angus breeders

i50K for Angus is a DNA test that predicts genetic potential for a range of economically important traits. The genomic predictions have been developed using BREEDPLAN EBVs provided by Angus Australia.

An i50K for Angus test enables:

- Evaluation of 22 key performance traits important to the future productivity of your business;
- Identification of elite, unproven bulls and young bulls with a unique combination of traits;
- Selection of superior heifers to become herd replacements and elite females for submission to AI or ET programs;
- Highly accurate pedigree records through DNA trace-back technology that matches calves with sires in a multiple-sire system.

To take your breeding decisions to the next level call:

DAM: SGMX65 STONEY POINT YANKEE QUEEN X65 (AI) (ET)
 EASTFORK QUEEN 834 (ET)

Notes: G257 is the best young daughter of herd matriarch Yankee Queen X65 in production. To look at phenotypically G257 is hard to fault, being above average for frame, thickness, rib shape, and doing ability. She manages to balance this with a nice dose of femininity. Used as a donor, G257 has been a great egg producer, giving 32 transferable embryos in one flush and 20 in another.  EASTFORK QUEEN 834 (ET)
 ST. PAULS RENOWN R21 (AI) (ET)
DAM: SCRUG65 ROSELEIGH UNDERSTUDY U65
 ROSELEIGH KYLIE K017+90

Notes: C71 is a long bodied, feminine X66 daughter who has already produced 4 sale bulls in her time in production. X66 daughters are known for their ability to produce great calves, and for their ability to breed back and stay in the herd. Much of this comes from the dam of X66, who was raising calves and flushing embryos at 18 years of age! Aid to Koupals B&B Identity on 22/06/2016 and depastured with Landfall Upward H219 from 4/07/2016 to 5/08/2016 and Te Mania Emission E525 from 5/08/2016

TC STOCKMAN
SIRE: USA2164 TC STOCKMAN 2164
 TC RUBY 5087

R/M ULTRA CASH FLOW 102
DAM: SGMA136 STONEY POINT ARVINA A136 (AI)
 STONEY POINT ARVINA X61

Notes: When the opportunity came up to go back and use some more 2164 semen a few years ago it was a no brainer! The 2164 daughters and grand daughters have been super solid producers, and F248 is no exception. Clean fronted and long bodied, F248 is more refined the most 2164 daughters, courtesy of her Cash Flow dam, who is built exactly the same way. Expect this cow to stay in your herd for quite some time, something the 2164 daughters do very well. Aid to K Bar D Joe Canada on 29/05/2016 and depastured with Stoney Point Heineken from 9/06/2016

TE MANIA XAMINED X60 (AI) (ET)
SIRE: VTMA149 TE MANIA ADA A149 (AI)
 TE MANIA JAPARA U338 (AI) (ET)
 KIAH GLEN ULTIMATE U1 (AI)
DAM: SGMX61 STONEY POINT ARVINA X61
 NORANDA ARVINA K36+90 (AI)

Notes: This moderate easy keeping Ada daughter is already starting to put together a handy resume, with a really smart Wisdom son selling for \$5000 in the "ready to work" bull sale in May. The Arvina cow line is an old family originally from the now dispersed Noranda herd, and has rapidly grown in numbers since the first Arvins arrived, due to their maternal ability and functionality. Aid to K Bar D Joe Canada on 29/05/2016 and depastured with Stoney Point Heineken from 9/06/2016

SIRE: SGMH22 STONEY POINT HEINEKEN H22 (AI)
STONEY POINT YANKEE QUEEN D16 (AI) (ET)

TE MANIA ADA A149 (AI)

DAM: SGMF254 STONEY POINT WALNUT F254 (AI)
ROSELEIGH WALNUT W46

Notes: K319 is extremely long bodied, wedgy front, and super thick from behind. A maternal brother to this bull made \$6500 in the February sale in 2013, to great clients Doug & Di Ashby, Tintinara. We purposefully mated some of the bigger more powerful Heineken daughters to Reality, to bring some extra softness back into the mix, and to maintain structural soundness, and moderate somewhat. Aid to Matauri Reality on 30/05/2016 and depastured with Stoney Point Kilkenny K195 from 9/06/2016

 WERNER WESTWARD 357
DAM: SGMJ57 STONEY POINT BAND LASS J57 (AI)
 STONEY POINT BAND LASS D89

Notes: L63 is super soggy made, with plenty of capacity and soundness. The longevity and soundness traits are well and truly bred into this female through sire B301 and her dam J57s sire Werner Westward. With the mating to Reserve, expect her to produce a moderate framed, easy keeping tank of a calf! Aid to VAR Reserve on 30/05/2016 and depastured with Stoney Point Kilkenny K195 from 9/06/2016

DAM: SGMC97 STONEY POINT YANKEE QUEEN C97 (AI) (ET)
 SGM Y26 STONEY POINT YANKEE QUEEN Y26 (AI) (ET)

Verified to Sire **DOB: 3/05/2007** AMFU NHF CAFU DDFU

Notes: This is a blending of the legendary New Zealand bred bull Matauri Reality, with one of W109's most powerful daughters, Yankee Queen C97. C97 is a direct daughter of Yankee Queen Y26, the powerful and productive full sister to the \$20,000 SP Equator Y28. This cross should result in calves with plenty of performance, frame, and length of body, in a soft, structurally correct package. The Yankee Queen cow line is the most prolific in the Stoney Point herd.

 SGMX65 STONEY POINT YANKEE QUEEN X65 (AI) (ET)

Verified to Sire **DOB: 31/08/2011** AMFU NHFU CAFU DDFU

Notes: G257 is one of the most phenotypically outstanding daughters of the great Yankee Queen X65. X65 has had more influence on the Stoney Point herd than any other cow in its history. This is an exciting cross, with Koupals B&B Identity being exclusive to Stoney Point, and being widely proven and extremely popular in the US, with sons selling to US\$145,000 during 2015. These may be some of the only Identity embryos ever offered.

Embryo Purchaser:..... \$.....

Lot 177 **CCVB298 X USA16710463** 4x EMBRYOS

 SGMX65 STONEY POINT YANKEE QUEEN X65 (AI) (ET)

Verified to Sire **DOB: 31/08/2011** AMFU NHFU CAFU DDFU

Notes: Generation 2100 has created quite a stir both in the US and Australia in the last 12 months, with daughters selling to US\$60,000 during the Fall sale season. He is extremely well balanced on data, and couples this with being very sound in the flesh. The mating with G257 should result in progeny that excel phenotypically, but also command breedplan figures that will stand them apart. As Generation 2100 semen is sold in exclusive packs, this is an opportunity for breeders to tap into these genetics without having to buy a whole package of semen.
