

BAHUT

SIRE: URAGUAY

DAM: NORVEGIENN

Bahut is an extremely wide, heavily muscled bull with great legs, locomotion and breed character. He was bred in the famous herd of GAEC Robert in France and subsequently purchased by a syndicate of UK breeders including Jim Bloom's famous Scorbore herd, Tom Cheshire (Parkhouse herd) and Elite Beef Semen - UK.

Bahut was 2010 Espoir Champion at the French National Show & Muscle Champion at Brive Show.

Feedback from France, the UK and Ireland continues to be extremely positive with good calving ease and strong maternal ability combined with the obvious muscle and growth.

Feedback on temperament is excellent and Bahut is currently the No. 1 AI sire in Ireland for docility. This ranking confirms the feedback from France and the UK as well as the performance of his first progeny in Australia.

Dear Limousin Enthusiasts,

It is with great pleasure that we present to you our seventh Muscle Sale and we continue to be excited by the ongoing opportunity to present a line of cattle and quality genetics that continue to represent the leading "Muscle" bloodlines in the breed. Represented in the sale are a range of bulls, females and genetics that we believe will continue to move the breed forward and build on the "carcase, yield and efficiency" characteristics that true Muscle Limousins derive.

With the record breaking beef market and positive long term future for beef and particularly high yield beef animals, we believe Muscle Sale VII presents breeders with the opportunity to access leading "Muscle" genetics and bloodlines that will place their program at the top end of the buoyant beef market.

Muscle Sale VII will again be held on Auctions Plus. This format continues to provide a range of low stress advantages for both vendors, purchasers and animals. If you haven't used Auctions Plus before or would like some tips please feel free to contact us or our sale Agents.

Regards
Tim Keys
Keystone Genetics

WILODGE GOLDCARD

SIRE: WILODGE CERBERUS

DAM: SARKELY BELLOLA (Cloughhead Lord)

Calving Value	200D Growth	400D Growth	Muscle	UK Beef Value
111	114	118	127	125

Wilodge Goldcard is a son of breed leading Wilodge Cerberus (50,000gns) and out of Sarkely Bellola a Cloughhead Lord who was purchased by Wilodge for 24,000gns as a heifer. Bellola has developed into one of the elite donor females at Wilodge and has produced outstanding progeny from a range of sires who along with Goldcard have sold to a top of 30,000gns. Wilodge Goldcard provides Australian breeders with access to the Cerberus line with improved birth weight and calving ease, whilst retaining high growth, muscle and docility (index 122).

Boomer Birch, beef specialist with Cogent who acquired the bull for the Cogent stud, says he was attracted by Goldcard's "great breed character and unbelievable conformation," which is evidently being passed on to the next generation. "With a succession of high performing and high priced ancestors in his pedigree, Goldcard can be confidently expected to continue the family tradition, by raising quality and revenue in any beef herd," he says.

NETHERHALL GALLANT

Calving Value	200D Growth	400D Growth	Muscle	UK Beef Value
97	123	132	119	139

SIRE: HALTCLIFFE DJ

DAM: MONTGOMERY VIXON (LASSO)

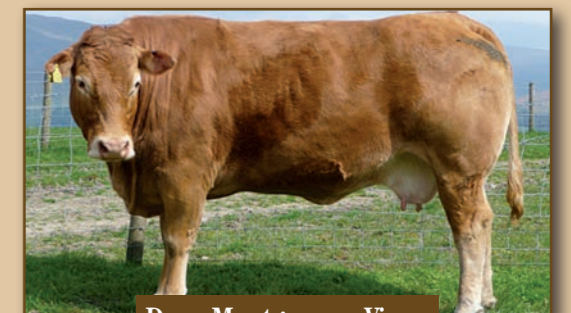

Netherhall Gallant is an outcross son of the 72,000gns Haltcliffe DJ who in turn is a son of the 42,000gns Cloughhead Umpire (Haltcliffes follow on sire to Sympa) and Radio, one of Haltcliffes elite donor females. His dam is a highly proven female who has also bred well with another son (Netherhall Epic) being used very widely in Ireland as an AI sire.

Gallant is a very square sire with exceptional width at the plates. His progeny will have a lot of growth and power, yet still be above average for calving ease. Gallant's performance figures are unparalleled with a superb calving to growth spread with strong muscle and breed leading Beef Value, combined with his exceptional phenotype and pedigree background, this bull is a standout sire of the future.

"Gallant offers the works. Exceptional pedigree with outstanding figures. His father is the famous Haltcliffe DJ who was a much admired bull when he sold for 72,000gns. Gallant has a beef value in the top 1% of the breed with an exceptional calving value of +2, which really complements his outstanding growth. Gallant is exceptionally thick and he carries this throughout his body, having an unbelievable width to his loin and squareness to his plates. He will be no doubt a bull to produce quality". Boomer Birch, COGENT BEEF SPECIALIST.

Sire: Haltcliffe DJ

Dam: Montgomery Vixon

Muscle Sale VII

Auctions Plus (Online Only) www.auctionsplus.com.au

Friday 4th March 2016. Commencing at 12 noon

AGENTS: SEJ Paul Phillips 0418 553 123, Neil Park 0408 515 117

Outside agent commission 2%

(Note: buyers must be introduced in writing at least 24hrs prior to the sale)

TRANSPORT/DELIVERY: Transportation following the sale is by arrangement with the Vendor. Vendors agree to hold cattle for a reasonable period whilst suitable arrangements are made. A network of Transport companies is available to facilitate delivery, please contact Vendors, Sale agents or Sale organizers for details.

Catalogue photos have been taken in December 2015, please be aware that sale animals will be approx. 2 months older by sale date than shown in the photo.

TYPE DESCRIPTION:

The origin of the Limousin breed in France uses 3 key type descriptions to define their cattle. These descriptions are linked to the maturity pattern of the animal and have been included in the catalogue to assist prospective purchasers:

Early (Boucherie) – an early maturing heavily muscle type, particularly suited to vealer production. Cattle grow fast up to 450kg at 10-12 months and then taper off to a mature weight of around 1000kg for bulls and 650kg for females. A to A+ muscle scoring.

Mixed (Mix) – the middle / general purpose type cattle are described as mixed, they are early maturing, which continue to grow on. Mature finished weight will be around 1200kg for bulls and 800kg for females.

Late (Elevage) – The later maturing / elevage limousin type is primarily used to put size into females. These cattle are not primarily used for direct beef production but selectively used to maintain size in the herd. Mature finished weight will exceed 1200kg for bulls and 800kg for females. A to B muscle scoring.

F94L “Muscle Gene” VERIFICATION:

Full French – Verification based up the assumption that Full French cattle carry 2 copies of the F94L “Muscle” gene. This assumption is derived from sample testing of the Australian French Pure population which has shown the F94L gene to have an occurrence of 98.8% in this population. This assumption has been applied in verification of Full French lots as well as lots verified by pedigree.

DNA Test – Animals with a DNA Test verification have had a direct analysis of their DNA to confirm that they carry 2 copies of the F94L gene.

Pedigree – Animals verified by Pedigree are derived from French Pure and/or DNA tested pedigrees.

EBV's:

EBV's have not been included in the catalogue as ABRI indicates that they are not reliable below 90% accuracy and this accuracy is not achieved until an animal has had several progeny recorded. For prospective purchasers wishing to refer to EBV data, they will be provided in the supplementary sheet or upon request.

This is an Auction Plus Sale Only, there is no physical sale, so you can bid through your own computer. To bid you must be registered with Auctions Plus, preferably 48hrs prior to the sale. Bidding is done on a conventional Auctions Plus format (helmsman style).

DAM: KLG Dona A29		Dona

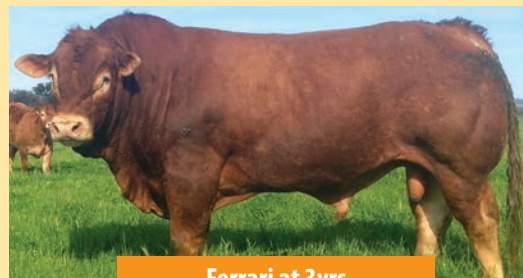

Date of Birth: 08/10/2010
Herdbook ID: KLGFF10
Grade: Full French (100%)
F94L Status: DNA
Lot Type: Bull
Type: Early - Mixed

Comments:

FULL FRENCH POLLED - PROVEN SIRE - STANDING POSSESSION. Ferrari has impressed in every stage of his development and is the most powerful polled bull we have seen with exceptional width, volume and thickness. Despite his obvious phenotypic strength, his most impressive attribute has proven to be the power and consistency of type that he has produced in his progeny. Sons are proving to be very popular with both stud and commercial breeders with sons working in several stud herds. His oldest daughters are weaning their first calves and are equally impressive, producing heavy consistent calves with a lot of shape and quality. This is a rare opportunity to access a proven herd sire with the capacity to advance your herd for several years to come. We have successfully marketed semen from Polled Ferrari and are retaining the right to market semen (domestically and internationally).

Ferrari Mature

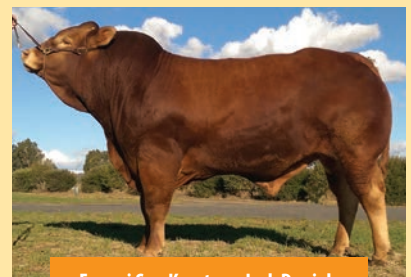

Ferrari at 3yrs

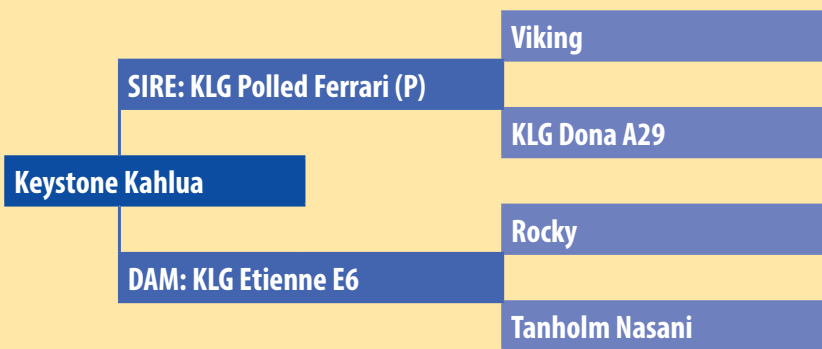

Ferrari at 13mths

Ferrari Daughter Keystone Damsella

Ferrari Son Keystone Jack Daniels

Date of Birth: 05/10/2014
Herdbook ID: KLGFK60
Grade: Full French (100%)
F94L Status: Full French
Lot Type: Bull
Type: Early

Comments:

Classic muscle sire, this bull is one of the thickest bulls we have produced with exceptional width right through the loin and a perfect square-deep rump profile. From one of our favourite females his maternal brothers are doing stud duties at Jedex and Chefs Plate studs and by the very complete and consistent breeding bull Polled Ferrari. If your looking to add muscle and shape to your herd this is the bull for you!!

Dam of Kahlua

Hulk Maternal Brother of Kahlua

Parkview Carver

Vendor: Parkview Limousins

Lot Type: Bull
Type: Early - Mixed

Comments:
 25 STRAW SEMEN PACKAGE. Carver is a classic limousin sire that has proven his genetic value both in EBVs (trait leader in all growth, scrotal, EMA and Yield traits) and more importantly in consistent progeny performance. With Sympa and Dauphin semen both sold out and extremely hard to find, this package represents a unique opportunity to access this elite proven muscle bloodline.

Date of Birth: 18/02/2007
Herdbook ID: PKVPC717
Grade: Pure (98.44%)
F94L Status: DNA

MERESIDE JESTER

SIRE: ARMSTRONG

DAM: MERESIDE DAWNMARIE (ALASKA)

Jester is the complete package, combining excellent figures with a great pedigree and an exceptional female line.

Jester will be an easy choice for many herds due to his top end gestation figures and calving ease inside the top 25% of the Limousin breed.

These, along with his excellent muscle and growth data, make him a true curve bender.

We expect his combination of easy calving and low birth weights with growth and muscle figures to result in easily born, quick growing calves.

Dam of Jester Mereside Dawnmarie

Date of Birth: 02/02/2009
Herdbook ID: CPWFE14
Grade: Full French (100%)
F94L Status: Full French

Lot Type: Flush
Type: Mixed

Comments:

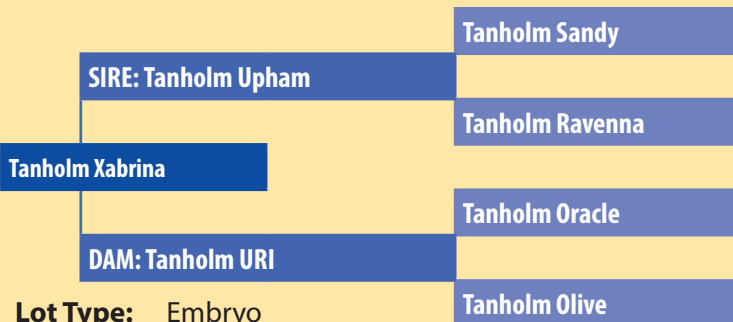

EMBRYO FLUSH - Offering a flush from one of our Elite donors - Enid E14. An amazing Nenuphar daughter this cow was the cornerstone of our good mate Col Wilmotts Tarraleaha stud and has joined our herd. She has it all, length, depth, shape and style a once in a lifetime opportunity to add this female line to your herd. Enid has calved and will be ready to flush immediately following the sale. Flushing to be at purchasers expense with all semen, drug and vet expenses to be paid by purchaser, guaranteeing a minimum of 6 embryos.

24**Dolcorllwyn Fabio x Divine Gracious**Vendor: **Divine Limousins**

Date of Birth: 26/09/2011
Herdbook ID: DIVFG70
Grade: Full French (100%)
F94L Status: Full French

**Lot Type:** Embryo**Type:** Mixed**Comments:**

Offering 2 embryos by world record breaking sire Dolcorllwyn Fabio out of the tremendous donor cow Divine Gracious. A rare opportunity to secure some of the finest genetics Divine has to offer. Gracious has had progeny to a number of bulls including Fabio, Nenuphar, Harvest Olympus, Chaumeil and Divine Justice with excellent results. We have seen one calf from this joining so far and he is a ripper! An opportunity to secure an amazing combination of genetics not usually offered.

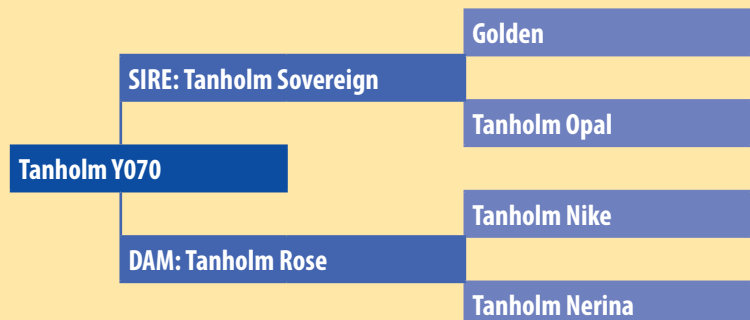

25**Tango (Champeval) x Tanholm Xabrina**Vendor: **Divine Limousins****Lot Type:** Embryo**Type:** Early - Late**Comments:**

2 Frozen Embryos. Muscle upon muscle! Tango being one of the most extreme muscle sires to come out of France has produced some outstanding progeny with Tanholm Xabrina. Divine purchased Xabrina from Tanholm Limousin pushing the 2013 muscle sale to a top of \$20,000. Xabrina has produced a number of stud sires and key breeding matrons including Tanholm Hazel, Tanholm Diamond, who we purchased after seeing consistency like no other. Divine Keystone by Tanholm Eclipse who joined the sire Battery at Keystone early last year, and this year will wean a bull calf by Sympa who will be retained in herd as a future stud sire. This joining offers loads of milk, muscle and maternal ability all crammed into one pedigree.

Date of Birth: 03/05/2002
Herdbook ID: THMFX30

F94L Status: Full French
Lot Type: Female
Type: Early - Mixed

Comments:
 FULL FRENCH POLLED - The first daughter of Frontier to be offered at auction. Long, deep and thick, with tonnes of volume. Elite donors on either side of her pedigree. Will be the first female to calve to Keystone Jigantic (P) with the possibility of being Homozygous polled. (Calf will be DNA tested before sale) Joined back to Divine Justice for another possible homo-poll calf.

35

Divine J16

Vendor: Divine Limousins

Date of Birth: 08/10/2013
Herdbook ID: DIVPJ16
Grade: Pure (99.91%)
F94L Status:
Lot Type: Female
Type: Early - Mixed

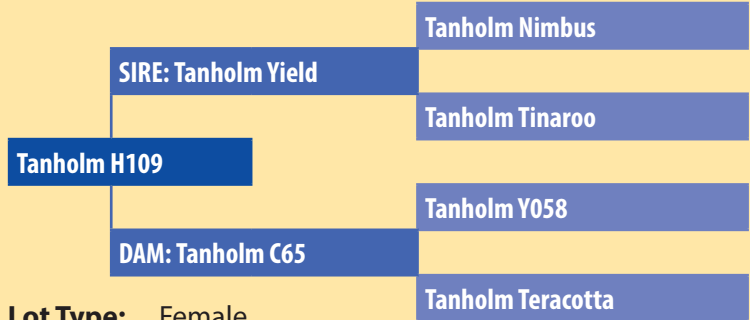

Comments:
 Another top quality Diamond daughter. Excellent power and shape, with the attitude to match. Dam was recently purchased by Bella Valley Limousins adding another great female to their herd. J16 will be AI'ed before the sale and backed up by Keystone Jigantic.

36 Tanholm H109

Vendor: Divine Limousins

Date of Birth: 01/10/2012
Herdbook ID: THMFH109
Grade: Full French (100%)
F94L Status: Full French

Lot Type: Female
Type: Early - Late

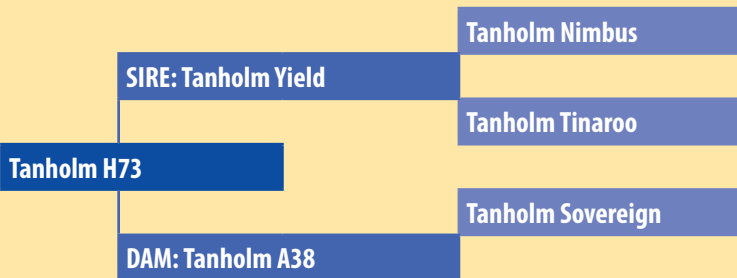

Comments:

Typical Yield Female. Long, deep, thick and very square on the plates. H109 is a future donor with a performance packed pedigree. Her dam C65 is an impeccable cow who always produced top class! Great little heifer at foot by Chaumeil. Al'ed to Imperial and backed by Divine Kracker Jack K17.

37 Tanholm H73

Vendor: Divine Limousins

Date of Birth: 05/09/2012
Herdbook ID: THMFH73
Grade: Full French (100%)
F94L Status: Full French

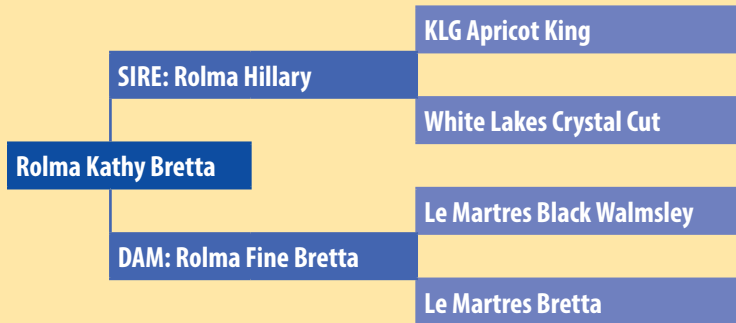

Lot Type: Female
Type: Early - Mixed

Comments:

Another typical Yield heifer. Wide, meaty, and docile with plenty of milk. H73 is an outstanding young matron in the early stages of production, her first calf was an embryo calf that will be retained in herd. Al'ed to rare muscle sire Rocky and backed by Divine Kracker Jack K17.

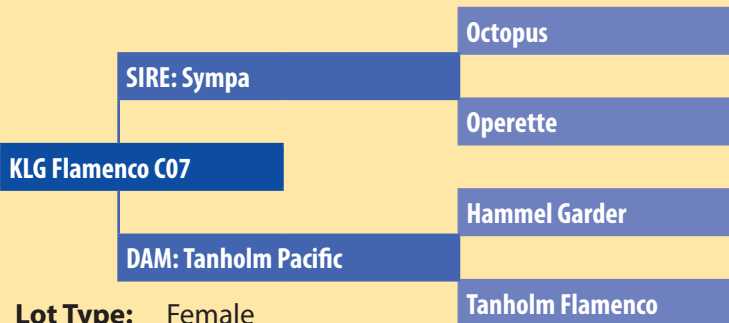

Yield Sire of H73

Comments:

Bahut daughter from our Dona line and a maternal sister to leading sire Polled Ferrari. Thick made heifer with a lot of maternal capacity in the pedigree, will develop into a top cow with all the renowned Full French traits of this cow family.

Dam of Lot 49

KAPRICO ERAVELLE (PC)

SIRE: WILODGE TONKA

DAM: KAPRICO RAVELLE (GREENSONS GIGOLO)

Kaprico Eravelle is the senior herd sire at Tomschoice Limousin in UK. He has one of the best ever Indexes in the UK for calving and gestation length. Eravelle progeny are medium sized, heavy with superb confirmation throughout and high docility.

His UK statistics are as balanced as we have seen:

- Top 0.5% Calving ease value 140 index
- Top 1% Gestation length 140 index (8 days shorter gestation than the average Limousin sire)
- Top 10% growth rate
- Top 1% scrotal development
- Top 5% docility
- Top 1% Maternal Value
- Excellent beefy type carcass

Kaprico Eravelle is also being used widely in Ireland and is now Ireland's highest Maternal index Limousin sire and in the top 5 for Terminal (ICBF 2015). He has a breed leading 0.5% calving ease figure (measures incidence of calving assistance required) and already has two sons standing at AI centres in Ireland. A great calving ease sire to add to our list of high growth high muscle bulls.
