		NABINABAH COMMA - FM HSH
		KING
		eyes 02

Comments: Jitter Bug is a balanced, soft, athletic horse with a ton of natural ability. His half sister is Karen McNamara's Open mare, Conquest. He's had one run in a Futurity draft with very limited experience for a 4th place and lightly ridden through the Cloncurry Stockman's Challenge as a 3 year old to just miss the final. He is a great walker, smooth and learns very quickly. We believe he's possibly the best gelding we've offered through Landmark so far. Playrio's progeny are proving themselves again and again drafting and Jitter Bug will be no exception.

Power Up to Superior Performance

MERIAL

are the proud sponsors of the Stallion Shootout 2015.

Power Up to a Combination

Recent studies across Australia confirm that 2 out of 3 herds tested have resistance to single active ML (mectin) drenches.¹

Over 90% of cattle producers use an ML drench.² With repeated use over a number of years, it's no surprise that resistance to this drench group is being seen more frequently.

This ML drench resistance can cause productivity losses, and lost income, without any obvious signs of disease.³

Parasitologists agree that a key approach to managing resistance is to build an effective combination drench into your drench program.

Protect your herd now – with a combination pour-on!

Power Up to ECLIPSE

*ECLIPSE is the only cattle drench with a registered label claim to control ML or levamisole resistant strains of roundworms. See product label for full claim details. 1.
