Welcome...

Dear Fellow cattle breeders,

Welcome to our 3rd Annual Bull Sale, being held at "Glendan Park" on Friday 26th February 2016 starting at 1:00pm.

What a fantastic start to 2016 for the beef industry. Unprecedented demand and record prices for all grades of beef cattle, from weaners to cull cows and even old bulls. With the current market conditions the opportunity to buy a young bull for little changeover has never been better.

Why a Glendan Park Bull?

Proven Genetics from a cow herd of 180 breeders that work hard under testing conditions, Combined with investment in top sires for over 25 years.

Performance recorded: weighed from birth – 600 days, all cattle (Bulls and Heifers) scanned for EMA, Fat, IMF, Giving you the full performance picture.

Affordable: Glendan Park Sale Bulls averaged \$4410 in 2015.

Bulls to suit your program: There are bulls on offer that will suit many different markets, from the vealer, supermarket trade through to EU. This year we are offering a select few bulls suitable for joining to heifers, most are heifers first calves, by low-moderate birthweight bulls, and unassisted at birth.

They breed on: Over the last 22 years we have sold bulls to repeat clients, both stud and commercial, to most States of Australia (all except WA and NT) and New Zealand and we have been proud of their ability to breed on.

Free Delivery on route to Wodonga, Casterton and Bairnsdale: Feel free to discuss transport with us.

It is with great pleasure that we offer 30 Horn and Poll Hereford bulls. We believe they are the type the beef industry requires: structurally sound, plenty of carcass and performance. We believe the sires represented in this catalogue are some of the best in the Hereford breed.

I would like to thank my family and our Farm Manager Beau Kreiwaldt for their effort and support.

If you have any questions about our cattle or our program, or would like to inspect the bulls before sale day, feel free to give me a call on 0419 191 193.

Look forward to seeing you on sale day,

Regards,

Alvio Trovatello & family.

Our History...

Glendan Park Herefords was established by the Trovatello family in 1989, with the purchase of 50 stud breeders from the Ballina and Lowanna stud dispersals. We have steadily increased the numbers and quality of our herd with additions from various Studs, including: Widgiewa, Smithston, Bolong, Zum Park, Dunoon, Llanglothan, Injemira & Coora.

In 2004 Poll Herefords were introduced, breeders sourced from Llandillo, Bowen, Tycolah, Burando, O'Sullivans and Charnock Studs.

We are currently running 180 breeders.

It has always been our aim to produce cattle of the highest quality, with extra growth, muscling, milking ability, without sacrificing good structure. We are always striving to optimize performance and carcass traits without having detrimental effects on the function of the female herd. We aim to breed a herd of females that are well structured, fertile, with good milking ability, good feet and good udders.

Breedplan is used as a breeding tool, to help optimize performance. We have been performance recording with Breedplan since 1990, scanning all bulls and heifers for EMA & IMF since 2001. However, visual assessment of structure and quality is not overlooked in the pursuit of higher EBVs.

Substantial AI & ET Programs have been used in the last 21 years and have had a significant impact on the progress and quality of our herd.
