

45TH ANNUAL PRODUCTION SALE

Setting the Trends

TUESDAY 23RD FEBRUARY 2016

PREFACE: This is the 45th Annual Injemira Production Sale, and will be conducted at "Kiloran", Book Book via Wagga Wagga NSW. 18kms north of Hume Highway on the Wagga Tumbarumba Rd. Inspection 9.30am. Sale 1.00pm.

INSPECTION: We encourage buyers to inspect the cattle prior to the sale. This gives us an opportunity to assist in selection of the best genetics for your herd, and to show you the strength of our sires and breeding herd. Contact Marc Greening at home on (02) 6928 1188, Mobile: 0411 043 039. An ideal time for inspection is the Stock and Land Field Day on Wednesday, 27th January, 2016.

WEIGHTS: Will be available on sale day, or prior to the sale by ringing / emailing the Injemira office.

SCROTAL CIRCUMFERENCE: All measurements are in cms and taken on 26/11/15.

PAYMENT: Special arrangements can be made by contacting Injemira.

LEASING: We offer the services for any leasing arrangement, and are only too happy to organise a proposal to suit you.

ACCOMMODATION: There are excellent Motels in Wagga Wagga, and we or the selling agents can make the necessary arrangements.

TRANSPORT: We can arrange your transport to and from Injemira, as there is an excellent air service to Albury and Wagga.

BREEDPLAN: We utilise and recommend Breedplan, which is a pedigree assessment of an animal's genetic merit. This is expressed as estimated breeding values (EBV's) and is measured in kilograms of liveweight.

TABLE 1: Average EBVs for the 2014 born animals analysed in the DECEMBER 2015 Hereford and Poll Hereford GROUP BREEDPLAN.

| HEREFORD | Gest. Length | Birth Weight | Milk | 200-Day Growth | 400-Day Weight | 600-Day Weight |
|---------------|-----------------|-----------------|------|-------------------|-------------------|-------------------|
| | EBV | EBV | EBV | EBV | EBV | EBV |
| POUP BREEDPLA | -0.1 | +4.3 | +13 | +29 | +47 | +67 |

| HEREFORD | Carcase Weight | EMA | Rib Fat | Rump Fat | RBY % | IMF % |
|---------------|-------------------|------|------------|-------------|-------|-------|
| | EBV | EBV | EBV | EBV | EBV | EBV |
| POUP BREEDPLA | +41 | +2.7 | +0.3 | +0.3 | +0.8 | +0.2 |

BULL SELECTION: Group Breedplan provides the information required to make a considered selection for the sire suitable for your herd improvement, be it for growth, calving ease, milk, eye muscle area etc.

HEIFER BULLS: Sire lot numbers marked with an (H) are those sires we would suggest suitable for joining to heifers.

THE BREEDPLAN SELECTION INDEXES:

This Index gives you a single EBV that reflect the value of an animal, to your breeding objective, in dollar terms. Each lot is expressed in the following format.

| Supermarket | \$ +71 | 2014 BORN HEREFORD |
|-----------------|-----------|-----------------------|
| Grass Fed Steer | \$ +66 | BREED AVERAGES |
| Grain Fed Steer | \$ +72 | |
| European Union | \$ +80 | |

AFTER SALES SERVICE: We pride ourselves in the manner in which we look after our clients. Forming strong alliances can only enhance the product. Don't hesitate to contact us.

BULL SOUNDNESS: All the sale bulls have been examined by our vet, in accordance with the Hereford Australia Ltd 'Bull Soundness Certificate'. The necessary certificate can be provided with each purchase.

SPECIAL ARRANGEMENTS FOR LATE WINTER/SPRING JOINERS

Injemira can retain those bulls purchased by late Winter/Spring joining operators until the bulls are required, free of charge. Payment would be 50% at sale time, with the balance payable on delivery. Contact Injemira to make arrangments.

BE SURE OF A CATALOGUE AND BRING THIS ONE TO THE SALE

PRE SALE INSPECTIONS

A convenient time for pre sale inspections would be during the Stock and Land Field Days, at "Kiloran" on Wednesday, 27th January, 2016. All sale bulls will be on display from 9.00a.m. – 6.00p.m.

WELCOME TO INJEMIRA IN 2016

Injemira Beef Genetics is a family run and owned whiteface seedstock business where both Polled and Horned Genetics are utilised to produce commercially orientated bulls for the Australian beef industry. In 2016 we will offer 95 Polled & Dehorned sires in our Annual Production Sale.

Our program is not your traditional stud business. Our breeding decisions are dictated to by commercial reality and that alone. Many stud operations can claim this but at Injemira we do it ourselves. In 2016 Injemira will turn off from grass 2600 cattle in the form of Grass Fed Steers and Heifers, EU Feeder Steers and Live Export Breeding Females. With pedigrees analysed for "real world" performance and this analyses directs our breeding decisions for the upcoming stud breeding season.

This vertical integration with the commercial performance driving our stud herd not only enables us to offer bulls that we know will perform but it also allows Injemira to give relevant feedback to repeat clientele to give them the most desirable genetic package. "Seedstock production is not selling a bull but selling a complete program".

The Injemira stud herd consists of 300 registered stud breeders with a program of not culling any heifers. Natural selection does this for us. All females have to calve naturally before 2 years of age and rebreed to calve again at the age of 3. If any female does not do this she is culled. This enables Injemira to offer for sale every 4th year complete age groups of proven mature stud females as we have large numbers of replacement females coming through the system. This stringent commercially orientated program is why Injemira can offer to the industry 130 bulls annually from only 300 stud females. The Injemira drop is very consistent with each bull being highly predictable genetically. We see in our industry far too often seedstock herds with large numbers of registered females selling relatively small numbers of bulls, you only get to see the top of the drop. At Injemira you will basically see the entire drop giving you the confidence that your "genetic package" will breed to a consistent level.

2015 - The Year That Was

Stud- In 2015 the Injemira stud program went from strength to strength, the year started with our Annual sale that exceeded all expectations. The sale of 80 bulls set a new All-time Australian whiteface breed record, recording the highest average price for an on property whiteface bull sale and the highest grossing whiteface bull sale in Southern Australia. The sale saw Stud Sires sell to \$32,000 paid for Injemira Anzac J188 by Days Whiteface and Talbalba Herefords. Along with this sires went to 5 states selling from \$3500. The 106 registered buyers consisting of the majority return clients and new clients bided strongly throughout for the proven Injemira sires. International interest has also been strong with 50 registered stud females going to China along with a selection of Poll sires.

Commercial- Hasn't 2015 been the year that materialised into the year that has always been just around the corner. Prices for all classes of cattle rose by up to 60% and the EYCI was very close to breaking the magical 600c/kg mark. At Injemira our premium market for steers and heifers 'Coles Graze' was a great marketing outlet taking Grassfed Injemira blood whiteface cattle for what is the industries premium market. Again the whiteface is proving to be perfectly suited to the grass fed industry which is currently the jewel of the Australian export industry. In 2015 we also marketed cattle to JBS Farm Assured program along with EU accredited feeder cattle to both JBS and TFI. Injemira commercial females also sold to breeders throughout Australia and a second consignment of 90 commercial heifers is bound for China. All in all what a great year to be a beef producer!

Industry- Marc is currently the Chairman of the Pasture Fed Cattle Accreditation System (PCAS) which is going from strength to strength with Teys being the major contributor supplying Woolworths branded grass fed product. The international demand particularly from the US will only grow in the years to come. In 2015 Marc was the sole representative for the Australian Beef Industry on an international delegation with the Federal Agricultural Minister to China, South Korea and Japan to follow up on the newly signed/ratified Free Trade Agreements and to meet industry figures in these countries.

ANZACS IN 2016

This will be the last year that you will be able to select from a large group of Anzac sired bulls.

In years gone by we usually start with the older 'Autumn Drop' bulls but like last year due the unprecedented demand we will offer the entire draft of Anzac sired bulls in the first 17 lots. But don't forget the Injemira females play a significant part in this with generations of breeding for the modern market.

Consistency- We have never had a Stud Sire like it. This will be the third year in a row that every single Anzac sired bull will make the sale catalogue. A truly remarkable achievement and something that all beef producers strive for, a consistent drop of calves. We highly recommend trying to secure an Anzac sired bull for your commercial operation, you will experience the benefits over many generations.

2014 - Top Priced Bull Anzac H006 - \$45,000 to Jarrah Cattle Company

2015 - Top Priced Bull Anzac J188 - \$32,000 to Days Whiteface & Talbalba Herefords

Gene Poll Testing at Injemira- Homozygous/Heterozygous

- The majority of the Poll sires this year have been DNA tested for carrying the double Poll Gene. To put this simply every bull tested Homozygous Poll will have Poll sons and daughters no matter what cows you put them over. Every bull tested Heterozygous Poll will be like every other polled bull in the industry. Joined to horned cows some progeny will be polled and some will be horned, but you can be rest assured you are adding the dominant Poll Gene to your herd so in future generations this will come through with a greater rate of genetic change.
- Results for the Gene testing will be available in mid-January with a full list of results available sale day on the supplementary sheet.

Injemira is Affordable- More Bulls Catalogued in 2016

- With the current market levels the bull you purchase is a relatively cheap input into your farm business. In a self-replacing herd that bull will have Daughters and Granddaughters still in production in 20+ years.
- At Injemira we have increased our offering to 95 sires in 2016 so every producer has the opportunity to purchase an Injemira bull at an affordable rate.
- There is a reason that 87% of our bulls went to return clients in 2015 and that reason is they perform and are accepted as industry leading genetics suitable for the modern markets.

QUALITY ASSURANCE AT INJEMIRA

Rest assured every step has been taken to offer the commercial buyer a disease free sire that will enhance your female herds reproductive rates.

- All Bulls Pesti Virus Vaccinated
- All Bulls Pesti Virus Tail Hair Tested
- All Bulls 7 in 1 Vaccinated
- All Bulls Vibrio Vaccinated

PESTI-VIRUS ASSURANCE

Pesti virus is a problem for southern cattle breeders, that in the whole has been left untreated due to the complex nature of not only the clinical symptoms but also the complex viral spread.

In 2009 Injemira took advantage of new technology by implementing an 'ear notch' test that identifies all persistently infected (PI's) within a herd. Along with the 'ear notch' test Injemira has continued with our vaccination and maiden heifer exposure programs that we have been implementing for the past 8 years.

Birth Weight Measured at Injemira-

Heifer Bulls Marked with an H

At Injemira we weigh and record all calves at birth. You will notice that in the catalogue a number of sires have been marked with an H this indicates that we consider this sire suitable for a heifer joining program. This recommendation has come from not only a structural observation but a Breedplan EBV and actual birth weight analysis. Many other Whiteface studs in our industry do not offer this to their clients and don't weigh any or only a few calves. They claim that a bull with low performance (600 day weight) will also have a low birth weight. We all know this is not the case! At Injemira we strive to achieve an animal with low to moderate birth weight and increased growth which can be seen by analysis of the sires catalogued.

AUSTRALIAN BEEF IN ASIA – WONDERFUL FUTURE

In November 2015 I was fortunate enough to accompany the Federal Minister for Agriculture and Water Resources, The Honourable Barnaby Joyce on an international trade delegation to China, South Korea and Japan. I was the Beef industry representative along with representatives from the Stone Fruits, Almond, Macadamia, Avocado, Sugar, Dairy, Fruit Juice, Sheep Meats and Wool industries.

Upon reflection of the trip I am confident that beef is certainly front and centre as the major talking point in our meetings with Importers, Government Officials and Retailers. Beef was always the first commodity to be spoken about.

The knowledge of our industry amongst these countries was immense and Australia was seen as the country of choice for Boxed Beef (Frozen & Chilled), slaughter ready live cattle and live cattle for breeding. The acceptance of the various Free Trade Agreements was solid and from a beef perspective is seen as a positive for both countries.

There has been tremendous efforts made by organisations such as MLA, Austrade and Cattle Council that we as producers don't necessarily see. For example in South Korea the Australian Ambassador personally commented on the role of CCA/MLA on working with the local Hanwoo Beef Association and explained that we are the only industry body to work with this organisation and build a solid relationship with them. The producer to producer program whereby dialogue is maintained on issues of mutual benefit such as- traceability, integrity systems, food safety and market intelligence is paramount to the ongoing trade with Korea. The Hanwoo Beef Association is a very powerful political voice and farmers in Korea have a very strong political voice in general. Generally Australia is seen as the country of choice not only by the farmers but also the consumer.

Marc Greening with The Honorable Barnaby Joyce.

VALE - Ian Watson - An Industry Legend

It is with sadness that in December 2015 we lost a great man. Ian along with his wife Helen were the founders of Injemira but not only this Ian was a true cattleman, family man and visionary with many great legacies left behind.

It was a great honour that through Ian's son and daughter in-law Andy and Anna their operation Billabong Beef Company became a client of Injemira over the past 14 years. A humbling experience to sell bulls to the founder of Injemira.

I learnt a lot from Ian by just observing why and how he took the Injemira brand to the top of the beef industry.

- Always listen to your clients, don't tell them what they need.
- Don't be afraid to set the trends rather than follow.
- Always set your breeding goals to what the client wants and the client is the breeder, processor and consumer.
- Form genuine long lasting friendships with clients.

I am truly honoured to have continued to build the Injemira brand for the past 14 years and hopefully emulate some of Ian's achievements in the beef industry. I will make sure that Injemira is at the forefront of the beef industry and is a name recognised by industry for quality, integrity and innovation something that is a legacy of Ian & Helen Watson.

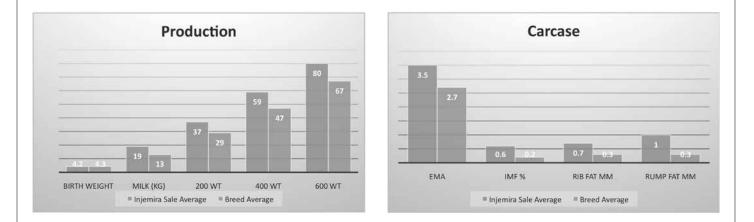

Sam Becker, Marc Greening & Ian Watson, Jarrah Cattle Co's "Glenarchy" Banana Qld 2012. Ian was a great supporter of youth in the Beef Industry.

Injemira and Breedplan

The Average Sire at Injemira is in the Top 10% of the Breed for all 4 Index values.

It is very easy in our industry to blindly chase Breedplan figures and you will quickly be at the leader board in the race for the best figures. At Injemira we don't have this philosophy, figures are just a part of the breeding tools utilised. Our figures are outstanding with the Average bull at Injemira being in the top 10% of the breed for all four \$index values. We have reached this point with many other considerations in place and that is commercial realities of structure, carcase shape, finishing ability and overall eye appeal. I, like you, like to look at good cattle in the paddock and to have the data behind them is a very hard task to achieve. In 2016 I believe we have achieved this with the best phenotype and genotype bulls ever offered at Injemira.

Today's Market- In the modern market place processors and feeders require yield, finishing ability and weight for age. These are the profit driving factors for all sectors of the beef industry. With shorter feeding regimes and the current premiums for grass finished product these traits are imperative.

Valuable is a bull with tremendous softness and meat content and has proven so consistent with 247 progeny registered in Australia. A solid set of EBV s is present. Valuable was in my opinion the pick of the Talbalba bull sale in 2009. We secured him in conjunction with Pam Shelley from Kaludah Herefords. Highlights have been many with sons selling to \$14,000 and in 2016 this could well be the best group of dehorned sires at Injemira in a number of years with bulls showing extreme thickness combined with softness. This will be that last year to secure a Valuable son.

INJEMIRA ADVANCE E007 K042 (H) Calved: 03/05/2014 Tattoo: K042

ID No: IHSK042

STUD SIRE: The first of the Dehorned sires for 2016 and what an example this sire is. Has been a standout since birth with big red eyes and an eye catching presence. He is of moderate frame with superior length and faultless structure. His sire Advance E007 was the best Injemira Advance Z080 son bred at Injemira. Advance Z080 has proven to be a world beater literally, with champions both in the show and sale rings throughout Europe. A top sire that all homed enthusiast will have many ticks against. Suitable for a heifer joining program.

SPRING DROP SIRES - POLL

64 MARKE INDEX VALUES S/Mkt +\$90 Grass Fed +\$85 Grain Fed +\$91 Purchaser: EU

INJEMIRA POLL NATIONAL K237 (AI) (P) Calved: 29/08/2014 Tattoo: K237 ID No: IHSK237 STUD SIRE: What a great way to kick off the Spring Drop sires. If you look at this

pedigree it is packed full of premier Injemira genetics, our two best cows are present in Happy Day D053 who's 5 sons in 2013 grossed \$102,000 and Pattie X007 who has grossed us in excess of \$150,000 in bull sales. Then you look at the sires present with D060 topping our 2010 sale selling for \$16,000 and G006 topping our 2013 sale selling for \$28,000 to Alva Downs. With that pedigree you would expect an exceptional sire and we have one in Poll National K237. He is structurally sound and commands your attention with his style backed up by a long body with great muscle expression. Then you look at his EBV set and this backs up what we see. Low birth, high growth, exceptional milk and strong carcase data. The all round stud sire package. Suitable for heifers.

INJEMIRA POLL NATIONAL K345 (P)

Tattoo: K345 ID No: IHSK345

STUD SIRE: This might be the sire you are waiting for and remember he is only 16 months of age, one of the youngest sires catalogued today. He has tremendous presence with a stud sires outlook. Poll National K345 carries himself so well with all the meat in the right place combined with the softness desired of the modern stud sire. His EBV set is very good with moderate birth, high growth and the exceptional Injemira carcase data. His female pedigree is very consistent so you can rest assured his maternal attributes will flow through to his daughters. Top Stud Sire prospect. Suitable for heifers.

CONDITIONS OF SALE

- 1. Subject to any reserve price, the highest bidder shall be the purchaser.
- 2. In the event of a dispute bid the auctioneer shall be the sole arbitrator and his decision shall be final.
- The auctioneer may refuse to accept any bid which in his opinion is not in the best interests of the vendor without giving any reason therefor.

No person shall be entitled to bid unless, prior to the commencement of the sale, he has made arrangements satisfactorily to the auctioneer for the payment of any stock which he may wish to purchase.

- 4. Where the vendor reserves the right to bid at the auction in respect of a lot and instructions the auctioneer to make more than one bid on his behalf, the auctioneer shall, prior to submitting the lot for sale by auction, announce in a clear and precise manner the number of bids reserved by the vendor in respect of that lot.
- A bidder shall be deemed to be a principal unless, prior to bidding he has given to the auctioneer a copy of a written authority to bid for and on behalf of a person.
- 6. As soon as practicable after the fall of the hammer, the purchaser shall sign the agreement (if any) for sale. In the event that any lot is passed in unsold the highest bidder shall have the right of first refusal of the lot for one hour after the stock comprising such lot has passed out of the sale ring.
- 7. Subject to anything specifically to the contract contained in either clauses 16 or 17 hereof, the purchase money for stock agreed to be purchased shall become payable and responsibility for such stock shall be borne by the purchaser. All stock shall be paid for in cash before delivery and notwithstanding, the auctioneer may require a purchaser at any time either before, during or after the sale to deposit with him the whole or any part of the purchase money.
- 8. Title to stock agreed to be purchased shall not pass to the purchaser until the full purchase money for same has been paid and in the event of delivery being made to or possession obtained by the purchaser or his representative prior to payment of all of the purchase money or any cheque given on account of same and the purchaser shall hold the stock in trust as bailee only for the vendor and (notwithstanding anything herein to the contrary) no property therein shall pass to the purchaser, who shall nevertheless be responsible for the safety thereof from the fall of the hammer and until such time as the purchase money is fully paid and shall not deal with the stock in any way whatsoever inconsistent with the title of the vendor.
- 9. Notwithstanding the giving of delivery or possession of stock sold, the vendor or his agent shall be at liberty to repossess the same at any time while the purchase moneys remain unpaid and for that purpose to enter upon lands or premises of the purchaser and if the purchaser shall neglect or fail to comply with any of these terms and conditions, any stock knocked down to him may be resold by public auction or private contract in such lots and such manner as the agent of the vendor may decide, with or without notice, at the purchaser's risk, who will be held responsible for all loss and expense arising out of any such resale and who agrees to indemnify the vendor and the vendor's agent with respect thereto and shall not participate in the profit (if any) accruing therefrom.
- 10. The right of the vendor to make not more than five bids is reserved.
- 11. All conditions and warranties expressed or implied by law (including those implied by statute, but excluding such expressed or implied warranties which may be imposed upon the vendor, pursuant to the provisions of the Trade Practices Act 1973) are hereby excluded and subject as aforesaid all lots are sold with all faults or imperfections, if any, whether the same may be discoverable on inspection or not and no compensation shall be made in respect of any such fault or imperfection or any error of description or number in or of any lots sold or otherwise and no representation made by the auctioneer at the time of the sale shall bind the auctioneer or the vendor.
- 12. Any statement made by the vendor the auctioneer or the nominated selling agents, whether in writing or oral, to the effect that any female has been pregnancy tested and is pregnant shall mean and require only that a certificate in writing shall be furnished by the vendor to the purchaser, which shall be signed by a qualified veterinary surgeon certifying that he has pregnancy tested the said female on a date specified and that in his opinion the female was pregnant on that (being a date not more than six weeks preceding the date of sale).
- No refund of commission will be made to the vendor by the selling agent on any sale cancelled after delivery has been made.

- 14. The auctioneer and selling agents shall be considered only the agents of the vendor and in all disputes the vendor and the purchaser must adjust the matter between themselves and not lot shall be returned to the auctioneer or to the selling agent.
- 15. Subject as may be otherwise notified herein, the selling agents are selling as del credere agents for the vendor and accordingly the full purchase price of each lot shall be payable by the purchaser to, and be recoverably by, the selling agents.
- 16. Attention is directed to the provisions of the Auctioneers, Stock & Station & Real Estate Agents & Business Agents, 1941-1957, and also to Sections 178B and 178C of the Crimes Act, 1900, and in particular to the material parts of Sections 45 and 85C of the Auctioneers and Agents Act, 1941-1980, warning as follows:

Section 45:

It is an offence against the Auctioneers and Agents Act, 1941, for any person to engage in, or to induce or attempt to induce another person to engage in, any collusive practice which may hinder free and open competition at an auction sale, whether by:

(a) restricting the bidder,

(b) abstaining from bidding; or

(c) any other activity which may hinder free and open competition. **Section 85C:**

The actual successful bidder at an auction sale must give to the auctioneer or an employee of the auctioneer on the day of the auction his name, or where he acts as an agent, the name of his principal. It is an offence not to do so.

17. Sale Subject to Veterinary Testing:

Notwithstanding the provisions of clause 7 hereof and subject to any express agreement of the contract between the vendor and the purchaser prior to sale, the sale of any stock shall be subject to that stock passing such veterinary test or tests as may be necessary to enable the stock to be transported to such destination as may be required by the purchaser. The purchaser shall bear the risk and responsibility for such stock as may require veterinary testing immediately upon the satisfactory completion of such testing at which time the purchase money for same shall become immediately payable. In the event that such tests are not satisfactorily concluded, the sale shall be deemed not to have taken place and neither party shall have any claim for damages or compensation of any kind whatsoever against the other. The costs of all tests shall be borne by the purchaser upon such tests being satisfactorily concluded and otherwise by the vendor.

18. Export conditions:

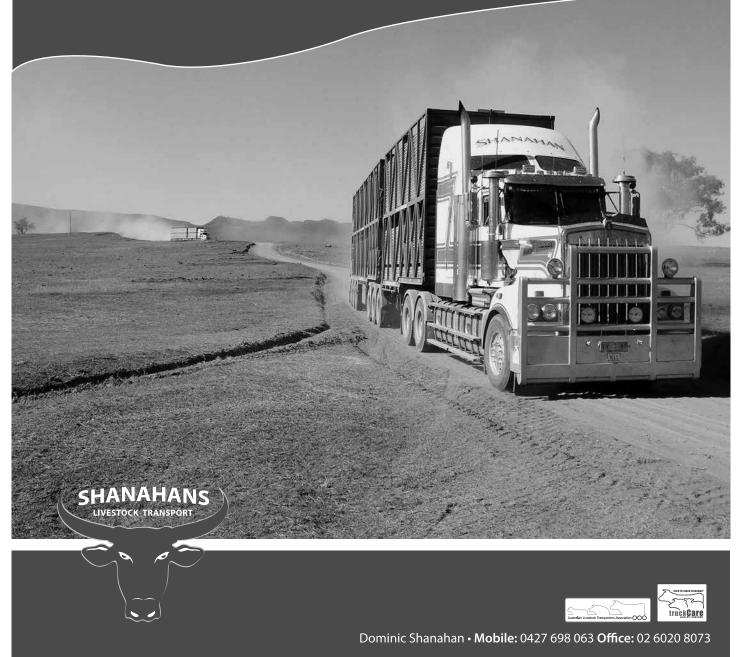

Notwithstanding anything else herein contained, all stock offered and purchased for export overseas shall be sold subject to their passing such veterinary tests, including fertility, as may be required by the country to which such stock are to be imported. The vendor or his agent shall arrange for the appropriate veterinary tests to be carried out as soon as practicable after sale, provided that all costs in relation to such tests shall be borne by the purchaser. All risk and responsibility for such stock shall pass to the purchaser immediately upon the satisfactory conclusion of all such tests, at which time the purchase price shall immediately become payable. In the event of failure of any requisite tests a sale shall be deemed not to have occurred and the stock shall be returned to the vendor and all costs associated with the sale, including veterinary costs, shall in such case be borne by the vendor. Should the purchaser fail to take delivery within three months from the date of the auction sale for whatsoever reason the vendor shall be entitled to cancel the sale and shall bear and pay all costs associated therewith.

19. Notwithstanding any agreement, custom, rule or usage relating to the liability of agents to principals in respect of payments for stock sold at auction, if any stock shall be sold to a purchaser normally resident outside Australia, or to another person acting on behalf of such a purchaser, the agent shall not be liable to pay to the vendor the proceeds in respect of such sale unless and until the agent shall have been paid in full by the purchaser. In the event of such stock being resold pursuant to the conditions of sale, the agent shall not be liable for any resulting deficiency or loss.

Disclaimer: Injemira and Thompson's Graphipress do not give any warranty as to errors or omissions, if any, particulars throughout the catalogue which they believe to be accurate when completed. Prospective purchasers should satisfy themselves by enquiry or inspection to the accuracy.

We're here when you need us.

The business of farming is not for everyone. But like you that's the business we're in.

With 170 years experience, Elders has the livestock knowledge to support your business. We market over 2.3 million cattle and 13.5 million sheep each year. But there's so much more we can offer. Our specialist animal health services and exclusive ELMS protocols improve the health, weight and quality of your cattle and sheep, whether they're on the farm, in transit or in the yard. And through traditionaloronlineauctions, forward contracts or direct to processor, we ensure more options for buyers and sellers. So, when you're looking for the best livestock partner, we're here when you need us.
