Weaner & Feeder Sale Offering Breakdown

Market Operations Commentary

The Inaugural Weaner and Feeder cattle sale attracted an impressive lineup of 5,171 head of cattle from four states, which were split by age and weight into a Weaner Sale and a Feeder & Finisher Sale. Across the two sales, 261 registered AuctionsPlus buyers logged in to the sale and 93 of these were actively bidding. 53 individual buyers secured cattle in the sale. 76% of the listing met or exceeded their reserve price, with several sales negotiated following the auctions as both buyers and sellers work to find the "right" price in a market that is in a rate of change not seen for many years. As is so often the case, bidders seem more willing to bid on lots once they have hit their reserve at auction, with sold lots exceeding their reserve price at auction by \$62 on average.

With a focus on sourcing suitable cattle for this sale, feedlot buyers were particularly active. 10 feedlots throughout Queensland and New South Wales were actively bidding, including some who have not recently purchased via AuctionsPlus, and secured one third of the cattle sold at auction.

Some of the highlights of the sale included 203kg Angus weaner steers out of Coonamble selling for 322c/kg as the best weaner price. Domestic feeder weight cattle sales topped at 300c for 327kg Angus steers out of Dorrigo, and approaching export weights 402kg Angus Steers out of Coonabarabran sold for 260c. The heaviest cattle offered today were crossbred steers out of Tenterfield averaging 520kg, and they sold for 232c or \$1208. As with all AuctionsPlus sales, prices are on-farm, with no freight payable by the vendor.
