VIEW ONLINE VIDEO  
@ [www.injemira.com.au](http://www.injemira.com.au)

**TUESDAY 24<sup>TH</sup> FEBRUARY 2015**

**PREFACE:** This is the 44th Annual Injemira Production Sale, and will be conducted at "Kiloran", Book Book via Wagga Wagga NSW. 18kms north of Hume Highway on the Wagga Tumbarumba Rd. Inspection 9.30am. Sale 1.00pm.

**INSPECTION:** We encourage buyers to inspect the cattle prior to the sale. This gives us an opportunity to assist in selection of the best genetics for your herd, and to show you the strength of our sires and breeding herd. Contact Marc Greening at home on (02) 6928 1188, Mobile: 0411 043 039. An ideal time for inspection is the Stock and Land Field Day on Tuesday, 27th January, 2015.

**WEIGHTS:** Will be available on sale day, or prior to the sale by ringing / faxing the Injemira office.

**SCROTAL CIRCUMFERENCE:** All measurements are in cms and taken on 20/11/14.

**PAYMENT:** Special arrangements can be made by contacting Injemira.

**LEASING:** We offer the services for any leasing arrangement, and are only too happy to organise a proposal to suit you.

**ACCOMMODATION:** There are excellent Motels in Wagga Wagga, and we or the selling agents can make the necessary arrangements.

**TRANSPORT:** We can arrange your transport to and from Injemira, as there is an excellent air service to Albury and Wagga Wagga.

**BREEDPLAN:** We utilise and recommend Breedplan, which is a pedigree assessment of an animal's genetic merit. This is expressed as estimated breeding values (EBV's) and is measured in kilograms of liveweight.

**TABLE 1:** Average EBVs for the 2013 born animals analysed in the SUMMER 2014 Hereford and Poll Hereford GROUP BREEDPLAN.

	<b>Gest. Length</b>	<b>Birth Weight</b>	<b>Milk</b>	<b>200-Day Growth</b>	<b>400-Day Weight</b>	<b>600-Day Weight</b>
	EBV	EBV	EBV	EBV	EBV	EBV
	+0.0	+4.3	+13	+28	+45	+65

	<b>Carcase Weight</b>	<b>EMA</b>	<b>Rib Fat</b>	<b>Rump Fat</b>	<b>RBV %</b>	<b>IMF %</b>
	EBV	EBV	EBV	EBV	EBV	EBV
	+40	+2.7	+0.2	+0.2	+0.8	+0.1

**BULL SELECTION:** Group Breedplan provides the information required to make a considered selection for the sire suitable for your herd improvement, be it for growth, calving ease, milk, eye muscle area etc.

**HEIFER BULLS:** Sire lot numbers marked with an **(H)** are those sires we would suggest suitable for joining to heifers.

**THE BREEDPLAN SELECTION INDEXES:**

This Index gives you a single EBV that reflect the value of an animal, to your breeding objective, in dollar terms. Each lot is expressed in the following format.

Domestic Supermarket trade	\$	+67	2013 BORN HEREFORD BREED AVERAGES
Grass Fed Steer	\$	+62	
Grain Fed Steer	\$	+68	
European Union Export Trade	\$	+76	

**AFTER SALES SERVICE:** We pride ourselves in the manner in which we look after our clients. Forming strong alliances can only enhance the product. Don't hesitate to contact us.

**BULL SOUNDNESS:** All the sale bulls have been examined by our vet, in accordance with the Hereford Australia Ltd 'Bull Soundness Certificate'. The necessary certificate can be provided with each purchase.

**SPECIAL ARRANGEMENTS FOR LATE WINTER/SPRING JOINERS**

Injemira can retain those bulls purchased by late Winter/Spring joining operators until the bulls are required, free of charge. Payment would be 50% at sale time, with the balance payable on delivery. Contact Injemira to make arrangements.

### PRE SALE INSPECTIONS

A convenient time for pre sale inspections would be during the Stock and Land Field Days, at "Kiloran" on Tuesday, 27th January, 2015. All sale bulls & females will be on display from 9.00a.m. – 6.00p.m.

## WELCOME TO INJEMIRA IN 2015

Injemira Beef Genetics is a family run and owned whiteface seedstock business where both Polled and Horned Genetics are utilised to produce commercially orientated bulls for the Australian beef industry. We offer annually 90 Polled Hereford Sires & 30 Dehorned Hereford Sires.

Our program is not your traditional stud business. Our breeding decisions are dictated to by commercial reality and that alone. Many stud operations can claim this but at Injemira we do it ourselves. In 2015 Injemira will turn off from grass 2600 commercial steers and heifers. With pedigrees analysed for “real world” performance and this analyses directs our breeding decisions for the upcoming stud breeding season.

This vertical integration with the commercial performance driving our stud herd not only enables us to offer bulls that we know will perform but it also allows Injemira to give relevant feedback to repeat clientele to give them the most desirable genetic package. “Seedstock production is not selling a bull but selling a complete program”.

The Injemira stud herd consists of 300 registered stud breeders with a program of not culling any heifers. Natural selection does this for us. All females have to calve naturally before 2 years of age and rebreed to calve again at the age of 3. If any female does not do this she is culled. This enables Injemira to offer for sale every 4th year complete age groups of proven mature stud females as we have large numbers of replacement females coming through the system. This stringent commercially orientated program is why Injemira can offer to the industry 120 bulls annually from only 300 stud females. The Injemira drop is very consistent with each bull being highly predictable genetically. We see in our industry far too often seedstock herds with large numbers of registered females selling relatively small numbers of bulls, you only get to see the top of the drop. At Injemira you will basically see the entire drop giving you the confidence that your “genetic package” will breed to a consistent level.

## *2014 - The Year That Was*

At Injemira in 2014 we had a very strong year from both the Stud and Commercial business angle. The stud year started with a bang. Our bull production sale in February was above all expectations with Injemira recording the highest single price of \$45,000 for a sire Injemira Anzac H006 selling to Jarrah Cattle Co, Banana Qld. The bull sale in its entirety was also strong recording the highest average price for all bull sales of all breeds for the Autumn bull selling season. The Injemira sale was the highest grossing bull sale for the whiteface breed in Southern Australia. Bulls went to most states in Australia with 60% of the catalogue selling between \$3000 and \$5000, making a commercial Injemira sire very affordable.

Injemira on the commercial front was at the fore with females being sold to China, Kazakhstan and Russia and in a strong sign for the whiteface breed being one of the first to supply cattle for the lucrative Coles Graze Grass-fed product, along with JBS Great Southern brand and EU feeder cattle. We also sold 20 Poll sires to Kazakhstan.

In 2014 Marc was elected onto the Cattle Council of Australia board of directors as the independently elected representative for Southern Australia along with this position Marc is also Chairman of Pasture Cattle Accreditation System (PCAS). This is a benefit to all Injemira clients as Marc will be at the forefront of industry developments enabling Injemira and our clients to be up to date with all industry developments and trends.

In 2015 our bulls look great with many new sires coming into the program which target the multi-purpose market angle with huge emphasis on carcass and butt shape, something our commercial markets are demanding whether it be MSA or EU.

Please feel free to contact Injemira at any time and come and inspect our stud and commercial operation.

## MARCH OF THE ANZACS 2015

**Catalogue order change for 2015-** Usually we start the sale with the Autumn Drop sires (Rising 2 y/o) but this year the year that is marking the 100th Anniversary of the Anzac tradition we are starting with all the Anzac sires. Due to the demand for the Anzac sires in 2014 it was decided to change the catalogue order and give everybody an opportunity at the start of the sale to secure an Anzac son.

In 2015 Australia and New Zealand will celebrate the Anzac contribution to developing the identity of the ANZAC 100 years ago. In the training camps of Egypt prior to deployment to the Dardanelles an identity was formed that embodied the spirit of the Australian & New Zealand culture and that is the ANZAC spirit. It is only fitting that as it turns out there will be 18 Anzac sires in the sale that are all truly outstanding individuals. A great way to remember and pay tribute to the ANZAC contribution to Australia and New Zealand in this 100 year anniversary.

**Lot 3 – Powerful Anzac Son**

### **Injemira is Affordable**

In 2015 we have increased the number of bulls catalogued to ensure that there are sires in all producers price range. In 2014 60% of bulls sold in the \$3000 to \$5000 price bracket and in 2015 I predict there will be greater than 60% sell in this price range. Currently we are seeing a processing market that is paying exceptional money for old bulls with many clients returning close to \$2000hd for old bulls so a replacement young sire at the \$3000 to \$5000 bracket is very affordable.

## QUALITY ASSURANCE AT INJEMIRA

Rest assured every step has been taken to offer the commercial buyer a disease free sire that will enhance your female herds reproductive rates.

- All Bulls Pesti Virus Vaccinated
- All Bulls Pesti Virus Tail Hair Tested
- All Bulls 7 in 1 Vaccinated
- All Bulls Vibrio Vaccinated

## PESTI-VIRUS ASSURANCE

Pesti virus is a problem for southern cattle breeders, that in the whole has been left untreated due to the complex nature of not only the clinical symptoms but also the complex viral spread.

In 2009 Injemira took advantage of new technology by implementing an ‘ear notch’ test that identifies all persistently infected (PI’s) within a herd. Along with the ‘ear notch’ test Injemira has continued with our vaccination and maiden heifer exposure programs that we have been implementing for the past 7 years.

## Birth Weight Measured at Injemira-

### Heifer Bulls Marked with an H

At Injemira we weigh and record all calves at birth. You will notice that in the catalogue a number of sires have been marked with an H this indicates that we consider this sire suitable for a heifer joining program. This recommendation has come from not only a structural observation but a Breedplan EBV and actual birth weight analysis. Many other Whiteface studs in our industry do not offer this to their clients and don’t weigh any or only a few calves. They claim that a bull with low performance (600 day weight) will also have a low birth weight. We all know this is not the case! At Injemira we strive to achieve an animal with low to moderate birth weight and increased growth which can be seen by analysis of the sires catalogued.

## INJEMIRA HAS GONE CHINESE

It is with great pleasure that we can announce that Injemira has supplied the first live Hereford breeding females to China in what is believed to be a world first. The Injemira herd has been selected by an individual breeder in China to supply breeding females and genetics to establish a Hereford breeding herd in Heilongjiang Province which is in Far North East China.

The heifers both stud and commercial underwent a 30 day quarantine in Australia before embarking on the 19 day shipment by boat to the Dalian Port with a further 30 day quarantine before embarking on the 1100km road trip to their new home, an extensive grazing property in the Heilongjiang Province. It is with much gratitude that we thank Frontier International for facilitating this opportunity for Injemira.

We look forward to this relationship growing in the years to come. Future plans include opening this market up to Injemira bull buying clients when the numbers required as predicted increase exponentially. It is great news for the Hereford breed as the Hereford is a perfectly suited animal for this region and has great branding potential for the Chinese beef industry.

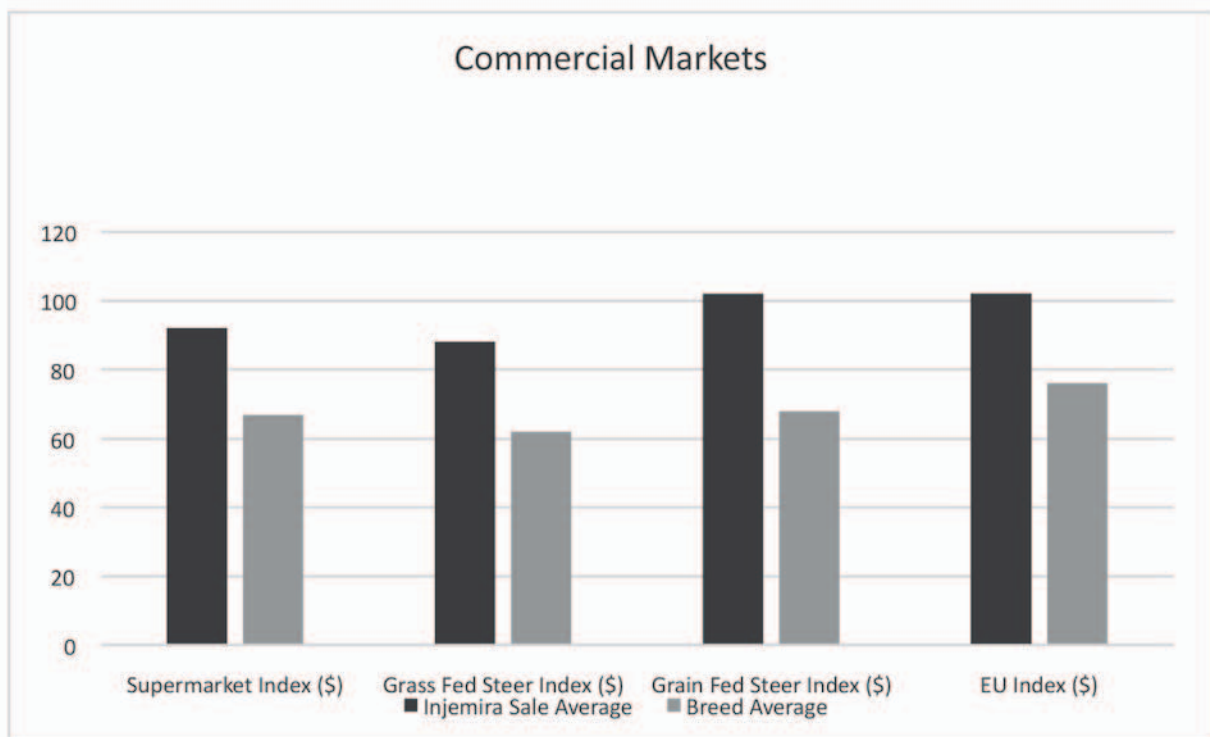

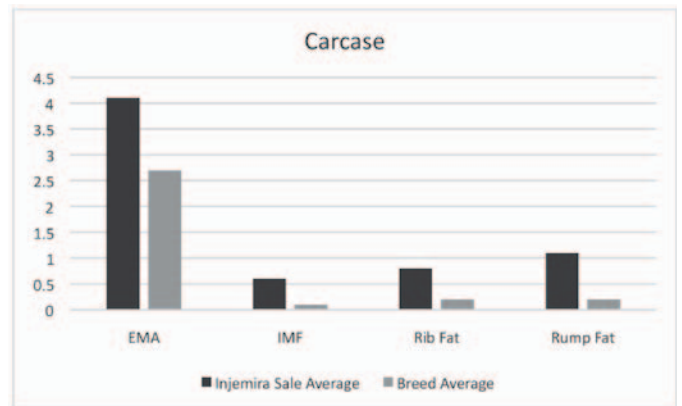

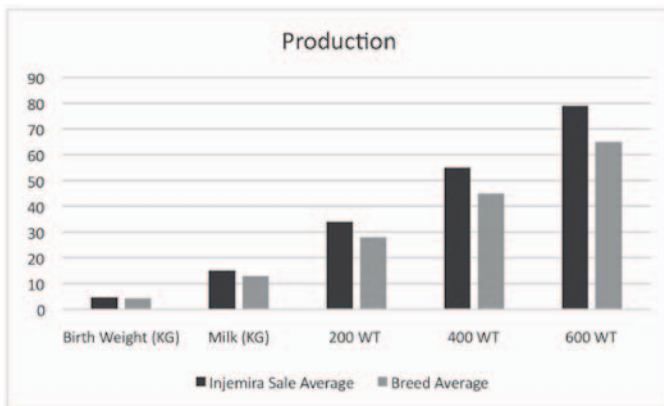

Chinese Embassy Staff inspecting live export heifers, September 2014.

## INJEMIRA HAS GONE DOMESTIC

In another exciting development on the domestic front Injemira has been selected as one of the initial suppliers to the recently launched Coles Grass-Fed product for both steers and heifers- Coles Graze. It is very exciting that the Hereford breed has access to this market as at this stage it is the most lucrative over the hooks market currently open to southern producers. This product will supply initially selected Coles stores and will be backed by MSA and an extensive grass fed audited program based on the Cattle Council of Australia's PCAS program. I would like to thank Coles senior management for opening up this opportunity to Hereford cattle and let the results do the talking to prove that the whiteface is perfectly suited to the grass fed quality branded market. Some 450 steers and heifers went into this program from Injemira in 2014 and the results were outstanding with the average Injemira steer being in the top 15% for the MSA grading system Australia wide.

## The Injemira Advantage

It is very easy in our industry to blindly chase Breedplan figures and you will quickly be at the leader board in the race for the best figures. At Injemira we don't have this philosophy, figures are just a part of the breeding tools utilised. Our figures are outstanding with the Average bull at Injemira being in the top 10% of the breed for all four \$index values. We have reached this point with many other considerations in place and that is commercial realities of structure, carcass shape, finishing ability and overall eye appeal. I, like you, like to look at good cattle in the paddock and to have the data behind them is a very hard task to achieve. In 2015 I believe we have achieved this with the best phenotype and genotype bulls ever offered at Injemira.

**Today's Market-** In the modern market place processors and feeders require yield, finishing ability and weight for age. These are the profit driving factors for all sectors of the beef industry. With shorter feeding regimes and the current premiums for grass finished product these traits are imperative.

The average Injemira sire in 2015 is in the **top 10% for all 4 \$ Indexes-** This is the Injemira Carcass Revolution.

Without doubt the greatest sire I have ever purchased. His 2014 crop of bulls was amazing and sold accordingly. The entire drop of 19 sons averaged an incredible \$10,850 in our production sale and the sisters to these bulls have all calved and look amazing. This years entire drop is catalogued in the first 18 lots and there hasnt been any sons not make the sale. He has done it again!! Our breed needs yield and this sire delivers everytime. I believe he has 4 sons catalogued this year that are well and truly worthy to stand at stud. Lots 3,4,5,6 with the balance being top of the breed commercial sires. A great sire that will enhance the breed as a whole.

Here is a curve bending sire that has really contributed to our program. Just have a look at his calving ease, birth weight and high growth that gives you the outstanding indexes well and truly in the top percentiles of the breed. I was looking for a Rocket son for a number of years but structure and carcass has held me back from blindly following the EBV's, until I saw Redford, who has it all. Redford has had semen marketed all over the world including to Europe, South America and South Africa. At Injemira we have used Redford as an AI sire and naturally over basically all our polled heifers. A specialist heifer bull that has really hit the mark at Injemira. Have a look at lots 19, 63 & 64 three sires that are simply outstanding.

Wizard F84 had the most outstanding set of EBV's (look at the indexes) of all the clean polled sires at Wodonga National 2012 and sold accordingly making \$18,000 to Injemira. His phenotype is very hard to fault with length and carcass in all the right places. The thing that really draws you to this pedigree is his dam, Dawn Z21 which is arguably the best cow in the Days/Alledale herds. Such a strong female line has proven successful with the sires catalogued for 2015. A very consistent sire with his stand out son being Lot 22.

Another addition to our sire group in 2012 from the renowned commercially orientated herd of Valma. Foreman is an eye catching individual that when you stand behind is very thick and correct. Perfect whiteface cosmetics are combined in this outcross pedigree for Injemira. A sire that may not necessarily breed the next sale topper but if you look at the sons catalogued in 2015 they are real powerhouse sires. A son in Lot 20 had the highest raw EMA scan of any sire ever bred at Injemira.

McLarty E164 was a new acquisition to our program in 2011. A great young sire with style, softness and that all important commercial power. His sons in 2014 sold extremely well topping at \$12,000. They have exceptional length of body and raw carcass power and the calves in 2015 are no exception. The bulls sold last year that I have seen at their new homes have gone ahead in leaps and bounds. A terrific stud sire that is modern in everyway.

Without doubt the number one performance bull at Wodonga National 2012. Yours Truly's EU market acceptance is exceptional with high growth and high carcass credentials. The second top price at Wodonga selling for \$28,000 to Injemira in partnership with Bingeberry Herefords. A bull with extreme length and carcass right across the spine. A true stud sire that has enhanced the Injemira herd exponentially. In 2014 a daughter sold to Cascade poll Herefords for \$7,500 and her paternal brothers in this sale are really exciting dehorned Hereford sires have a look at Lot 38. A tremendous set of powerful EBV's.

CL 1 Domino 955W from the renowned Coopers Line 1 program is an exciting individual for the Australian industry. The top priced sire at the prestigious Denver Bull Sale selling for \$69,000 combining many show championships with outstanding EBV's of below breed average birth weight to high growths and exceptional milk and carcass. A moderate framed sire packed full of red meat. What makes us very excited about this bull is we had already used this sire when reports from Australians that went to the World Hereford Congress in 2012 reported that the best calves they saw in North America had been sired by Domino 955W without them knowing we had cows already pregnant to him. Have a look at Lot 74 he has stud sire written all over him.

Advance 1098Y was the high selling bull at Holden's Sale in 2012 selling for US\$102,000 for a 3/4 interest. 1098Y is a curve bender with outstanding calving ease combined with exceptional growth and that renowned Holden Line 1 maternal power. His cow family is exceptional with Jack Holden describing his dam as "one of our very best young donor females. She is a super functional cow, with a perfect udder and loads of milk". His EPD's rank him in the top 6% for many traits. Some very exciting sons are represented in this catalogue from this outcross sire.

<b>MARKET INDEX VALUES</b>	<b>STUD SIRE:</b> Hasn't Anzac done a wonderful job again this year with this drop of bulls. Anzac J188 could well be the pick of the drop this year, he is an outstanding modern beef sire- moderate frame, extreme carcase and perfect structure. This potential stud sire is very similar to the Anzac son that sold in 2014 to Jarrah Cattle Co for \$45,000. Clearly one of the best bulls ever bred at Injemira phenotypically then you look at his pedigree and figures and this statement is backed up. He comes from a great cow line that has two ET donor females. His figures put him in the top 1% of the breed for IMF% and the lucrative Grain Fed Index. Outstanding Stud Sire in the making.

<b>MARKET INDEX VALUES</b>	<b>STUD SIRE:</b> I had great difficulty splitting the Anzac's this year. Anzac J152 has been many astute cattle persons pick of the drop. I cant argue with that, he is moderate framed , soft and has a wonderful butt profile and strength of carcase right throughout. His dam is a great Bender cow that produced a wonderful Odyssey son in 2014. Again like all the Anzac's a very complete set of EBV's that could bring you to the top of the breed very quickly. Outstanding Stud Sire prospect.

# SPRING DROP ANZAC SIRES - POLL

<b>5</b>	<b>INJEMIRA ANZAC AI J162 (AI) (P)</b>											
	Calved: 18/08/2013			Tattoo: 162			ID No: IHSJ162					
	MARKET INDEX VALUES	STUD SIRE: Again is this the pick of the Anzac's in 2015? Anzac J162 has the biggest growth potential of all the Anzac's catalogued this year combined with a below breed average Birth Weight EBV gives you an exciting package. His dam is a very stylish large framed cow that stands out in the mob. If you are after an Anzac as a stud sire this could be your lot, he still carries that Anzac carcass with a slightly different growth pattern. I think he will get better with age. Top Stud Sire.

	Calved: 20/08/2013			Tattoo: 180			ID No: IHSJ180					
	MARKET INDEX VALUES	A top Anzac son that combines the Anzac carcass with huge growth potential. Probably the Anzac son that carries the most bone of this drop. What a female pedigree here containing two cows that have been so valuable to the Injemira program- Pattie X007 sold in excess of \$140,000 worth of sons including a son for \$45,000 and Venus U492 which produced sons to \$32,000 and herself selling to New Zealand for \$14,000. A pedigree absolutely bred in the purple and a sire that will command your attention.

	MARKET INDEX VALUES	Look at the Grain Fed index on this sire, \$156 which is more than double the breed average. A stylish Anzac son that certainly wont disappoint he goes back to a very good cow Harmony V121 that produced our International sire Advance Z080 which has proved so successful throughout Europe. An Anzac son that brings to the table all of his outstanding attributes. Top commercial sire.

	A moderate framed Anzac son that really stood out as a calf. The carcass disposition, length of body are two things that really stand out on initial inspection. A very good set of EBV's combined with a very consistent dam who has produced sons selling to \$8000. This could be the sleeper amongst the Anzacs catalogued for 2015.

# SPRING DROP ANZAC SIRES - POLL

**17**

**INJEMIRA ANZAC AI J165 (AI) (P)**  
 Calved: 19/08/2013    Tattoo: 165    ID No: IHSJ165

An Anzac for your front paddock, this dark red sire has tremendous length of body. Get side on and appreciate the extra length he could bring to your breeding program. Remember length weighs and weight pays! A good commercial sire and your second last chance to secure an Anzac son in 2015.

Purchaser: ..... \$.....

**+\$140**

**STUD SIRE:** The first of the Autumn drop sires for 2015 and what a way to start it off. I couldn't put together a better pedigree if I tried. His dam is a full ET sister to the top priced bull of 2013 of which 5 full ET brothers averaged \$18,000. He is the first son of Redford to be offered at Injemira who is a Rocket son that actually had eye appeal and not just figures. Redford J084 is a striking individual that will catch your eye, he is soft with plenty of length and carcass and is extremely sound. His EBV's are sensational with a Birth Weight to 600 Day Weight spread second to none, a real curve bender. Then you look at his carcass data his EMA is in the top 1% of the breed along with all 4 Index values. A heifers first calf that could easily stand at any stud in a heifer or cow joining program.

# AUTUMN DROP SIREs - POLL

<b>20</b>	<b>INJEMIRA FOREMAN J072 (P)</b>											
	Calved: 18/04/2013		Tattoo: 072		ID No: IHSJ072		THE GRANARY BOTHWELL X554 (P)					
MARKET INDEX VALUES	Powerhouse is the only way to describe this sire. He had the highest raw EMA scan of any bull ever bred at Injemira at 18 months of age and this is reflected in his EBV's as he is in the top 1% of the breed. His dam is a lovely female that produces quality year in year out. I would certainly recommend this bull as a stud sire if the birth weight EBV was no issue. The foreman progeny had no calving issues at all. An exceptional carcass sire.						VALMA OLLIE (P)

<b>MARKET INDEX VALUES</b>	Soft easy doing commercial sire suitable for a heifer joining program. Our industry needs moderate frame bulls with shape and the ability to finish off grass or short grain feeding programs. This sires progeny will do that combined with strong maternal milk figure of +18 the daughters will be functional breeding females also.

MARKET INDEX VALUES	A very interesting bull that has been picked on a little whilst running in the big contemporary group of 70 bulls. So you can forgive him for not having the fat cover of the other bulls in the sale. He was just too good not to catalogue for the sale. A huge framed Wizard son from a cow that has produced sires to \$14,000 selling to Days Whiteface in 2013. A solid set of EBV's and if you can look past his condition you will get a really good sire that may well be overlooked.

# AUTUMN DROP SIRES - DEHORNED

<b>38</b>	<b>INJEMIRA YOURS TRULY J002 (H)</b>																
		Calved: 25/03/2013		Tattoo: IHSJ002		ID No: IHSJ002						COOTHARABA ELGIN 2 (H)					
<b>MARKET INDEX VALUES</b>		A potential stud sire. A great way to kick off the dehorned sires for 2015. A son of Yours Truly the \$27,000 sire purchased in 2012 from a Line One maternal line that has some impressive females represented. This sire has tremendous bone and thickness and raw power combined with traditional Hereford markings. A top sire all the good judges will give three ticks to.										<b>MAWARRA YOURS TRULY (AI) (H)</b>

		Calved: 07/04/2013		Tattoo: 047		ID No: IHSJ047						COOTHARABA ELGIN 2 (H)					
<b>MARKET INDEX VALUES</b>		Powerful meat machine, a big tall mobile bull with great length of body and style that will certainly stand out to all the good judges. The EBV set is exceptional and represents the phenotype perfectly with an EMA figure in the top 5% of the breed. A bull that comes with our highest recommendation. Top herd sire.										<b>MAWARRA YOURS TRULY (AI) (H)</b>

<b>MARKET INDEX VALUES</b>		A high indexing son of Yours Truly that I describe as a top herd improving sire, the EBV set is great with high growth and strong carcass data. An exceptional female pedigree going back to Harmony V121 who was the dam of Advance Z080 our international sire that has produced 'sale toppers' throughout Europe. You will certainly pick this bull out in his pen.										<b>MAWARRA YOURS TRULY (AI) (H)</b>

	Calved: 24/08/2013      Tattoo: 205      ID No: IHSJ205																																														
	<b>STUD SIRE:</b> What a way to kick off this draft of Spring drop sires. An absolute stand out from day one. Redford J205 is an exceptional individual he is long bodied with great carcass and a style that oozes stud sire. He is a heifers first calf sired by Redford who has proven to be so successful. Along with a superior phenotype you look at his EBV set, simply outstanding. A curve bender with a low Birth Weight of +2.7 to a 600 Day Weight figure of +83 then you look at his milk figure of +17 and then his carcass data of +5.0 for EMA and +0.9 for IMF% simply outstanding. All to often you see potential stud sires that let you down in the EBV department, this fellow certainly has both the phenotype and the numbers. Outstanding individual suited to a Stud Heifer or Cow joining program.

	<b>STUD SIRE:</b> Again another stylish Redford son out of a 2 y/o heifer. This fellow is eye catching along with being a very solid beef animal. He is long in body with a wonderful top line full of red meat and a perfect structure. His sire Redford was the only Rocket son I could find that I would use as he had carcass shape and has passed this onto his progeny. A top set of EBV's in this potential stud sire from low birth to high growth and wonderful carcass data. This sire is close to being the full package.

MARKET INDEX VALUES	<b>STUD SIRE:</b> The first of the Dehorned Spring Drop sires to be offered in 2015. This bull is only catalogued at Lot 74 due to his age group. He is an exciting prospect for our industry. He carries some exceptional horned genetics sired by the \$60,000 US sire Domino 955W he is an outcross for many stud herds throughout Australia. Domino 955W J183 is a sire with tremendous depth of body and spring of rib combined with a softness and carcass disposition our modern market requires. A potential stud sire that all progressive whiteface seedstock operations should be looking very closely at. I also recommend this sire to be used over either heifers or cows he is suitable for both. A top Stud Sire with an outcross pedigree.				Purchaser: ..... \$.....

# CONDITIONS OF SALE

1. Subject to any reserve price, the highest bidder shall be the purchaser.
2. In the event of a dispute bid the auctioneer shall be the sole arbitrator and his decision shall be final.
3. The auctioneer may refuse to accept any bid which in his opinion is not in the best interests of the vendor without giving any reason therefor.  
No person shall be entitled to bid unless, prior to the commencement of the sale, he has made arrangements satisfactorily to the auctioneer for the payment of any stock which he may wish to purchase.
4. Where the vendor reserves the right to bid at the auction in respect of a lot and instructions the auctioneer to make more than one bid on his behalf, the auctioneer shall, prior to submitting the lot for sale by auction, announce in a clear and precise manner the number of bids reserved by the vendor in respect of that lot.
5. A bidder shall be deemed to be a principal unless, prior to bidding he has given to the auctioneer a copy of a written authority to bid for and on behalf of a person.
6. As soon as practicable after the fall of the hammer, the purchaser shall sign the agreement (if any) for sale. In the event that any lot is passed in unsold the highest bidder shall have the right of first refusal of the lot for one hour after the stock comprising such lot has passed out of the sale ring.
7. Subject to anything specifically to the contract contained in either clauses 16 or 17 hereof, the purchase money for stock agreed to be purchased shall become payable and responsibility for such stock shall be borne by the purchaser. All stock shall be paid for in cash before delivery and notwithstanding, the auctioneer may require a purchaser at any time either before, during or after the sale to deposit with him the whole or any part of the purchase money.
8. Title to stock agreed to be purchased shall not pass to the purchaser until the full purchase money for same has been paid and in the event of delivery being made to or possession obtained by the purchaser or his representative prior to payment of all of the purchase money or any cheque given on account of same and the purchaser shall hold the stock in trust as bailee only for the vendor and (notwithstanding anything herein to the contrary) no property therein shall pass to the purchaser, who shall nevertheless be responsible for the safety thereof from the fall of the hammer and until such time as the purchase money is fully paid and shall not deal with the stock in any way whatsoever inconsistent with the title of the vendor.
9. Notwithstanding the giving of delivery or possession of stock sold, the vendor or his agent shall be at liberty to repossess the same at any time while the purchase moneys remain unpaid and for that purpose to enter upon lands or premises of the purchaser and if the purchaser shall neglect or fail to comply with any of these terms and conditions, any stock knocked down to him may be resold by public auction or private contract in such lots and such manner as the agent of the vendor may decide, with or without notice, at the purchaser's risk, who will be held responsible for all loss and expense arising out of any such resale and who agrees to indemnify the vendor and the vendor's agent with respect thereto and shall not participate in the profit (if any) accruing therefrom.
10. The right of the vendor to make not more than five bids is reserved.
11. All conditions and warranties expressed or implied by law (including those implied by statute, but excluding such expressed or implied warranties which may be imposed upon the vendor, pursuant to the provisions of the Trade Practices Act 1973) are hereby excluded and subject as aforesaid all lots are sold with all faults or imperfections, if any, whether the same may be discoverable on inspection or not and no compensation shall be made in respect of any such fault or imperfection or any error of description or number in or of any lots sold or otherwise and no representation made by the auctioneer at the time of the sale shall bind the auctioneer or the vendor.
12. Any statement made by the vendor the auctioneer or the nominated selling agents, whether in writing or oral, to the effect that any female has been pregnancy tested and is pregnant shall mean and require only that a certificate in writing shall be furnished by the vendor to the purchaser, which shall be signed by a qualified veterinary surgeon certifying that he has pregnancy tested the said female on a date specified and that in his opinion the female was pregnant on that (being a date not more than six weeks preceding the date of sale).
13. No refund of commission will be made to the vendor by the selling agent on any sale cancelled after delivery has been made.
14. The auctioneer and selling agents shall be considered only the agents of the vendor and in all disputes the vendor and the purchaser must adjust the matter between themselves and not lot shall be returned to the auctioneer or to the selling agent.
15. Subject as may be otherwise notified herein, the selling agents are selling as del credere agents for the vendor and accordingly the full purchase price of each lot shall be payable by the purchaser to, and be recoverably by, the selling agents.
16. Attention is directed to the provisions of the Auctioneers, Stock & Station & Real Estate Agents & Business Agents, 1941-1957, and also to Sections 178B and 178C of the Crimes Act, 1900, and in particular to the material parts of Sections 45 and 85C of the Auctioneers and Agents Act, 1941-1980, warning as follows:  
**Section 45:**  
It is an offence against the Auctioneers and Agents Act, 1941, for any person to engage in, or to induce or attempt to induce another person to engage in, any collusive practice which may hinder free and open competition at an auction sale, whether by:  
(a) restricting the bidder,  
(b) abstaining from bidding; or  
(c) any other activity which may hinder free and open competition.  
**Section 85C:**  
The actual successful bidder at an auction sale must give to the auctioneer or an employee of the auctioneer on the day of the auction his name, or where he acts as an agent, the name of his principal. It is an offence not to do so.
17. **Sale Subject to Veterinary Testing:**  
Notwithstanding the provisions of clause 7 hereof and subject to any express agreement of the contract between the vendor and the purchaser prior to sale, the sale of any stock shall be subject to that stock passing such veterinary test or tests as may be necessary to enable the stock to be transported to such destination as may be required by the purchaser. The purchaser shall bear the risk and responsibility for such stock as may require veterinary testing immediately upon the satisfactory completion of such testing at which time the purchase money for same shall become immediately payable. In the event that such tests are not satisfactorily concluded, the sale shall be deemed not to have taken place and neither party shall have any claim for damages or compensation of any kind whatsoever against the other. The costs of all tests shall be borne by the purchaser upon such tests being satisfactorily concluded and otherwise by the vendor.
18. **Export conditions:**  
Notwithstanding anything else herein contained, all stock offered and purchased for export overseas shall be sold subject to their passing such veterinary tests, including fertility, as may be required by the country to which such stock are to be imported. The vendor or his agent shall arrange for the appropriate veterinary tests to be carried out as soon as practicable after sale, provided that all costs in relation to such tests shall be borne by the purchaser. All risk and responsibility for such stock shall pass to the purchaser immediately upon the satisfactory conclusion of all such tests, at which time the purchase price shall immediately become payable. In the event of failure of any requisite tests a sale shall be deemed not to have occurred and the stock shall be returned to the vendor and all costs associated with the sale, including veterinary costs, shall in such case be borne by the vendor. Should the purchaser fail to take delivery within three months from the date of the auction sale for whatsoever reason the vendor shall be entitled to cancel the sale and shall bear and pay all costs associated therewith.
19. Notwithstanding any agreement, custom, rule or usage relating to the liability of agents to principals in respect of payments for stock sold at auction, if any stock shall be sold to a purchaser normally resident outside Australia, or to another person acting on behalf of such a purchaser, the agent shall not be liable to pay to the vendor the proceeds in respect of such sale unless and until the agent shall have been paid in full by the purchaser. In the event of such stock being resold pursuant to the conditions of sale, the agent shall not be liable for any resulting deficiency or loss.

**Disclaimer:** Injemira and Thompson's Graphipress do not give any warranty as to errors or omissions, if any, particulars throughout the catalogue which they believe to be accurate when completed. Prospective purchasers should satisfy themselves by enquiry or inspection to the accuracy.

# We're here when you need us.

**The business of farming is not for everyone.  
But like you that's the business we're in.**

With 170 years experience, Elders has the livestock knowledge to support your business. We market over 2.3 million cattle and 13.5 million sheep each year. But there's so much more we can offer. Our specialist animal health services and exclusive ELMS protocols improve the health, weight and quality of your cattle and sheep, whether they're on the farm, in transit or in the yard. And through traditional or online auctions, forward contracts or direct to processor, we ensure more options for buyers and sellers. So, when you're looking for the best livestock partner, we're here when you need us.
