

Sale Introduction

"This Jett Brangus special sale is a rare opportunity to secure some leading Brangus genetics. It is the first time that the stud has put a line of females such as these on the market, they are genuine quality cattle that were to be retained in the stud and it is only because of our current circumstances that regrettably they have been put on the market.

All cattle are in good condition following favourable conditions in the area, they have been raised on grass and have not been fed prior to the sale. The rising 3yr old Heifers are all pregnancy tested in calf, many to leading AI sires. Vet certificates are available on request. The weaner heifers range from 7 to 10 mths of age, they are well grown and reflect the performance in their genetics. Many are by Gunnadoo Park Fabio, an Australian bred bull that has worked extremely well over our Ultra Black and US bred females.

Please note that there are some pure Angus blood and Ultra Black females included in the rising 3 yr old female group. These females are bred from our leading Texas Angus donor Omina X046 and represent a great opportunity to secure some of these genetics.

The bulls up for sale are good sound herd and registered bulls that are being sold in paddock condition. They have not been fed prior to the sale and show great performance on grass only. There are nine Brangus bulls, one Ultra Black and one Angus bull up for sale.

Delivery of the cattle will be on property "Paeroma", 717 Howards lane, EMERALD QLD 4720. Vendor would like delivery to be within a week following the sale.

All of the sale cattle have been pretreated with either Dectomax injectable or Acatak duo star to help with ease of movement for buyers from tick free areas. All of the sale cattle have been vaccinated with 7in1, in addition the bulls have been treated with Vibrio and 3 Day vaccine. Tick free buyers please note it will be the purchaser's responsibility for any clearing costs at the nearest clearing dip. I wish you all the best with your purchases."

*Outstanding lineup of young quality
Brangus cattle*
