Friday, 20 January 2017

Dear Fellow Cattleman

Please be invited to the Complete Dispersal of Coolana Angus Females on the 2nd and 3rd of March.

After long and considered thought, we at Coolana have decided to disperse our genetic operations. After 45 years of bull breeding, we are offering all pregnant, genetically clean females from Coolana Angus and Xsim Black Simmentals.

Our bull sales will continue until September 2018, with the same service and quality as in the past.

With succession in mind, we are paving the way for the next generation to use its thoughts and development to do as they wish in agriculture with fewer encumbrances from the past.

Both Anna and I are not sick or retiring, we are just taking a back seat while working hard with the next generation and enjoying life.

We hope to have yours and the industries support in this difficult decision.

This is a complete dispersal of all Coolana's Stud HBR and APR breeding females. Nothing is hidden and none are being retained. DDC and empty cattle are being kept for our commercial use.

Coolana has grown from a small-scale bull producer of 18 bulls in 1985 to an industry leading seed stock producer supplying 285 bulls into the industry annually. This has not been created by sitting back and letting it just happen, it takes years of work. Use this as an opportunity to fast track your program on one of the industry models.

The Coolana herd has been heavily selected on fertility, structure and phenotype. There has been continuous genetic improvement in the areas of birth versus growth, along with calving ease and constant improvement in carcass quality.

I recommend the Coolana females to anyone who is wishing to improve their herd in the area's I have outlined above. Females will be available for inspection at the beef week field days and from 10am on the 28th of February or by private appointment.

Lastly if you don't wish to buy any females, come and see our herd anyway, you may be surprised. We hope to have yours and the industries support in this difficult decision.

Kind regards

A handwritten signature in black ink, appearing to read 'Mark Gubbins', with a stylized flourish at the end.

Mark Gubbins

COOLANA ANGUS STUD

Coolana Angus herd was founded in 1933 by Arthur Gubbins, a Stud started in 1972 by John Gubbins. The operation is a commercially focused Angus Stud and APR Herd now run by Mark Gubbins. Mark started to take interest in the late 1980's and has spent 32 years improving the stud to its standing today.

Performance recording was started in 1970 in the Herd Nucleus and then the Stud. These performance figures have been processed by Breedplan; and the Angus Group EBV's of the animals are used as a guide to strict visual classing. Particular attention is paid to calving ease, while maintaining high growth rates and good muscling.

By choosing not to show cattle and concentrating on a "getting on with the job" approach to breeding, Coolana is fast developing a reputation for producing genetics which will perform well under high stocking rates. Coolana's cattle are bred to fit both the grass fed and feedlot markets.

AI and Backup Sires are selected for structural integrity, high growth rates combined with carcass, heavy muscling and high fertility.

Coolana's cattle breeding program is mainly a spring calving operation. This has come about by meeting the modern day demand for high efficiency, i.e.: lower inputs and management cost.

In 2006 Hamilla Downs and in 2011 Carinya were added to the Coolana's group of properties at Meningie in South Australia. This has allowed Coolana to increase its cattle numbers and have a greater genetic diversity and selection to offer.

Inspection

Females will be available for inspection from 10am on the 28th of February. An appointment may be made by phoning Mark or Max Gubbins for inspection prior to sale day.

Agent Rebate

A 1.5% rebate is offered to outside agents who meet the following condition:

- Accompany, assist and sign the buyer slip on behalf of your client.
- (No signature, No rebate)

Airstrip

Coolana has a North/South, East/West grass airstrip that will be available on sale days. Not far from our selling complex. Airstrip coordinates Latitude -37.8827, Longitude 142.6664. Call Anna to arrange pickup. 0409 593913.

Lot 36 K019

Health

Every endeavour is taken to eliminate any diseases and virus that may affect the Coolana herd.

Coolana is accredited MN2 under the BJD market assurance program.

AM, NH, CA and DD.

All females are Pedigree or Tested Free for the known testable Genetic Faults (e.g. NH, AM, CA & DD). Some animals still have a test pending and the result will be available before sale. No carriers of AM, NH or CA will be offered for sale.

Pregnancy Testing

Brad Pickford has pregnancy tested the Autumn calving cattle in South Australia showing an early or late pregnant scenario.

Andrew Whale of Livestock Logic, Hamilton foetal aged the Spring females in January. This gives an indication of which joining is the most likely. The result is shown as an expected calving date. This is to be used for a guide and the calving date and parent verification can be used for an accurate result. Final unshown results will be available on a supplementary sheet. Empty females will be withdrawn.

All Autumn and Spring calving females will be check pregnancy tested by Andrew Whale in the week prior to the sale with the exception of the open donors.

Angus Transfers

Coolana will pay the Society transfer fee to any buyer transferring to a current registered Angus stud with the Angus Society of Australia. To enact the transfer a buyer must complete the relevant section on the buyer registration and advice slip on sale day. No verbal instructions will be taken. Otherwise females will be de-registered from the Coolana herd.

Delivery and Transport.

Delivery will take place from Wednesday the 8th of March. Due to the size of this task you will need to contact Coolana to book your delivery slot. Failure to do this could mean a very long wait as we will be loading the booked queue first.

Transport costs and organisation are the purchasers responsibility. No verbal instructions will be accepted.

Steve Smith or another representative of Dick Smith Transport will be on location to assist you with transport if required. Contact Steve if you wish to do some planning. 02 6882 2463.

Embryos and Semen.

Collection and transport of embryo's and Semen is at the purchasers cost.

Embryos: are stored at,
Australian Animal Genetics
(03) 5977-1770,
info@aagenetics.com.au

Semen: is stored at,
Nationwide Artificial Breeders
(03) 5592-5461,

ALPINE JUSTICE J108(AI)	0.9	2.3	-5.6	6.5	58	101	140	140	8	1.5	-7.8	73	4.8	0.6	0.4	-0.3	3.3	0.26	0.22	6	\$161	\$129	\$190	\$145			
ALPINE JUSTICE J 108 - is a high indexing son of Te Mania Emperor E 343 who was purchased by the Sam White family from Bald Blair Angus, Guyra, in Autumn 2015. He was the high selling 18 month bull in that years Alpine Sale and was the actual highest scanning bull in that drop for IMF% and Fat. He has grown into a big bull with excellent structure.																											
ARDCAIRNIE F96	4.4	4.9	-5.1	2.3	44	80	112	84	17	2	-3.1	63	8.9	-0.5	-0.8	2.1	1.4	0.02	0.06	1	\$131	\$121	\$134	\$130			
ARDCARNIE F 96 - was a graduate of the 3rd cohort of the Angus Societies Progeny Test. He excelled in most traits, but particularly in Calving Ease, low birthweight, growth rate, and Saleable Red Meat Yield. His progeny were inspected at Jim and Pam McGregor's Ardcairnie Stud at Kojonup, WA in late May and did not disappoint for structural soundness and docility.																											
BOOROOMOOKA BARTEL K274(AI)	2	4.7	-5.6	4	54	96	128	112	19	2.7	-6	80	6.8	-1.4	-1	0.7	2.8	0.25	0.44	-1	\$149	\$130	\$169	\$139			
BOOROOMOOKA BARTEL K274 - is a son of Ayrevale Bartel E 7, who is the outstanding bull from the ASA Progeny Test re carcass marbling. We have been looking for a while for the right son of E 7 to use in our programme. K 274 was our pick of over 40 sons at Booroomooka, and the E 7's were clearly the outstanding sire group and high sellers averaging well of \$12000 each. K 274 has excellent Calving Ease with outstanding growth, great structure, and carcass traits.																											
BOOROOMOOKA HYPERNO H605(AI)	-5.8	-3.2	-4.2	7.1	55	98	141	117	24	1.8	-2.6	71	7.5	-0.8	-1.5	2	1.5	0.02	0.05	-9	\$123	\$107	\$130	\$120			
BOOROOMOOKA HYPERNO H605 - was the high selling bull at Booroomooka in 2014, purchased in partnership with Duverton Angus, Cluden Newry Angus, Glenisa Angus and Five Star. He is a half brother to the \$65,000 Booroomooka Frankel F510. Hyperno has produced moderate framed, easy doing progeny for Coolana with structural integrity. This will be first opportunity to purchase progeny.																											
CLUDEN NEWRY EQUATOR F10(AI)	1.9	3	-7	2.9	45	93	113	98	22	3.7	-6.9	79	6.3	-1.2	-1.4	1.6	1.3	0.1	0.36	-4	\$131	\$126	\$138	\$126			
CLUDEN NEWRY EQUATOR F 10 are 3 sons of Ardrossan Equator A 241 who have all done an outstanding job for us at Coolana. All bulls are calving ease with adequate to excellent growth. Their daughters are going to leave a lasting legacy in the herds they enter after this Dispersal, as they are outstanding females.																											
CLUDEN NEWRY EQUATOR F 10, KAROO EQUATOR E 39, and ARDROSSAN EQUATOR A 241	-4.8	0.9	-3.4	6.4	50	87	110	83	17	0.9	-5.4	71	9.9	0.9	0.1	0.8	2.5	0.08	0.05	13	\$122	\$113	\$132	\$117			
CONNEALY REVENUE 7392 is a bull we purchased in partnership with Dick Whale of Independent Breeding and Marketing Service at Connealy's Sale in March 2013. The Rito Revenue's, his sire were the outstanding sireline in this Sale and we thought 7392 the best of his 13 sons. 7392 sires heavily muscled progeny, with excellent carcass traits. His structural soundness is reflected in the fact that 20 of his 22 sons born in the Autumn herd have made this years Autumn Sale Bull catalogue.

KAROO D62 DOCKLANDS K194(AI)	3.5	1.8	-5.9	4.1	43	84	121	97	18	2.8	-6.2	60	5.4	1.6	2.5	-0.4	1.6	0.36	0.64	-	-\$132	-\$112	-\$137	-\$130
KAROO DOCKLANDS K194 - was purchased at Karoo in August 2016 as their high selling bull. We obviously had not thought of a Cow Dispersal at that stage. He is by Carabar Docklands D 62, a sire that generally excels for calving ease, outstanding growth and structural soundness. This was selected for his docility, body mass, and structural. More than 50 cows have been naturally joined to K 194 for this Sale.																								
KOOJAN HILLS REALITY K46(AI)	4	4	-6.9	4.2	48	87	116	102	14	2.6	-3.2	61	5.9	0.6	1	0.2	2	0.17	0.22	-	-\$125	-\$116	-\$130	-\$123
KOOJAN HILLS REALITY K 46 - is a larger framed son of New Zealand bull, Matauri Reality, we found in Western Australia on our May visit. Ardcarnie Angus had purchased K 46 from Lew Smit's final Koojan Hills Bull Sale east Autumn. Reality is renowned for his great disposition and structural soundness. We have been looking for a son with more growth than his sire and this bull fitted the bill.																								
MUSGRAVE BIG SKY	0.7	0.8	-4.9	3.7	54	95	118	86	18	0.9	-3.1	72	6.4	0.6	-0.3	0.5	1.5	0.16	0.17	0	-\$116	-\$117	-\$113	-\$119
MUSGRAVE BIG SKY 1310 - is a calving ease son of Connealy Eaman D76E we also found at World West Sires at Laurei, Montana, on our 2014 trip. We were impressed with his structural soundness, body mass, docility and muscularity. Big Sky is passing these attributes on to his progeny as well as excellent growth and carcass traits. His marbling in America is top 5% in the breed. The first of his progeny will be sold at Coolana Dispersal and Bull Sale in 2017.																								
MUSGRAVE MEDIATOR	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-
MUSGRAVE MEDIATOR is a son of Musgrave Aviator we inspected at Origen, Huntley, Montana in 2016. He has excellent calving ease with great birthweight to growth spread, docility and carcass traits. We liked what Aviator has done in the States re calving ease, low birthweight with adequate growth but feel Mediator's extra performance will better suit our clients. Some of his first progeny in Australia will result from these matings.																								
SPRING COVE GENTLEMAN JACK	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-
SPRING COVE GENTLEMAN JACK - also a graduate of 2014. Jack is a son of Sydgen 928 Destination 5420 (Whiskey), a bull we were very impressed with, when we saw him joining heifers in SW Iowa in 2008. "Whiskey" has done a magnificent with limited opportunities, having died young. Gentleman Jack was 2nd high seller at Spring Cove's 2014 Sale. We inspected progeny at Double R Ranch in Washington this year and all but 1 of his first crop bull calves made their sale team. Jack will sire moderate frame, sound progeny with excellent carcass traits. His first Australian progeny will be offered at Coolana Dispersal.																								
SYDGEN BLACK PEARL 2006	4.9	4.4	-7.2	3.2	54	89	119	90	18	1.4	-4.7	73	9.6	-0.5	-1.8	1.5	2	0.04	0.17	-5	-\$138	-\$127	-\$147	-\$134
SYDGEN BLACK PEARL 2006 - is a son of Sydgen Trust that we found in the USA in 2014. Trust had done a good job in Australia and New Zealand, but we were looking for a son with more calving ease and carcass traits than Trust. His progeny are thick, meaty, with excellent disposition, growth, EMA, and marbling (he is in the top 10% for marbling in USA). Coolana will be offering some of his first progeny in Australia.																								
TE MANIA 11 465	-2.2	-8.8	-4.1	4.5	48	84	112	109	13	1.2	-5	73	5.5	2.1	1	-2.2	4.8	0.75	1.01	13	-\$117	-\$97	-\$144	-\$104
TE MANIA 11 465 - is a son of Tuwharetoa Regent D 145 we found in New Zealand on the World Angus Forum Tour in New Zealand during the Spring of 2013. He was the second high selling bull at Te Mania New Zealand to Roger and Susan Hayward of Twin Oaks Angus. We liked his structural soundness, docility, moderate birthweight combined with his outstanding IMF %. He is currently 4.8% for IMF%. This will be the first opportunity to buy his progeny in Australia.																								
TEHAMA UPWARD Y238	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-
TEHAMA UPWARD Y 238 - another of our 2014 USA trip graduates. In 2014 we visited Tehama and they had 26 of this bulls sons in the September Sale, these bulls averaged almost \$3000 above their Sale average, including 7 of the 9 high sellers. His progeny will be thick, moderate in size, with excellent docility, top 10% marbling, 25% EMA, and with positive fat. His M daughters will be the first progeny offered in Australia.																								
WATTLETOP FRANKLIN G188(AI)	2.6	3.8	-5.3	2.2	56	102	132	120	20	3.1	-5.8	74	3.9	-0.1	0.4	-1.3	2.9	-0.07	-0.45	4	-\$137	-\$121	-\$152	-\$130
WATTLETOP FRANKLIN G 188 - is a son of TC Franklin, a bull that we have used heavily, who has left us some great breeding females. He is a graduate of the 4th cohort of the ASA Progeny Test. G 188 excels for calving ease, low birthweight, outstanding growth, in a moderate framed package, with large scrotal circumference sons, and excellent carcass maturing. His M daughters will impress, and at Wattletop in 2016, 19 of his 20 daughters were pregnancy tested in calf.																								
WITHERSWOOD REALITY K0085(AI)	4.1	3.1	-5.9	3.2	40	77	100	82	15	3	-3.6	46	4.6	1.5	1.7	-0.5	2.5	0.38	0.53	7	-\$114	-\$108	-\$120	-\$112
WITHERSWOOD REALITY K 85 - is a son of Reality Coolana purchased in Autumn 2016. He is from the Tearful family at Witherswood, which originated at Booroomooka. This family has worked well for us in the past at Coolana. K 85 has great calving ease, low birthweight, with acceptable growth, combined with structural soundness and excellent carcass attributes.

COOLANA ANGUS DONOR FEMALES

Lots 121 to 137

17 Donor Females

The following Donor Females have been flushed in Coolana's Angus Embryo Transfer program in the 2015 and 2016 Autumn and Spring breeding programs. These Donor females have all been selected on their ability to produce high grade average performance driven calves. They then go through a rigorous structural test and are finally evaluated for their EBV profile before entering the Coolana ET program. They have been well tested before getting to this point. There are many calves throughout this catalogue from these donors.
