Wednesday, 18 January 2017

Dear Fellow Cattleman

Please be invited to the Complete Dispersal of Xsimm Black Simmental Females on the 28th of February.

After long and considered thought, we at Coolana have decided to disperse our genetic operations. After 45 years of bull breeding, we are offering all pregnant, genetically clean females from Coolana Angus and Xsimm Black Simmentals.

Our bull sales will continue until September 2018, with the same service and quality as in the past.

With succession in mind, we are paving the way for the next generation to use its thoughts and development to do as they wish in agriculture with fewer encumbrances from the past.

Both Anna and I are not sick or retiring, we are just taking a back seat while working hard with the next generation and enjoying life.

We hope to have yours and the industries support in this difficult decision.

Coolana has grown from a small-scale bull producer of 18 bulls in 1985 to an industry leading seed stock producer supplying 285 bulls into the industry annually. This has not been created by sitting back and letting it just happen, it takes years of work. Use this as an opportunity to fast track your program on one of the industry models.

The Xsimm herd has been heavily selected on fertility, structure and phenotype. There has been continuous genetic improvement in the areas of birth versus growth, along with calving ease and constant improvement in carcass quality.

I recommend the Coolana females to anyone who is wishing to improve their herd in the area's I have outlined above. Females will be available for inspection at the beef week field days and from 10am on the 28th of March or by private appointment.

Lastly if you don't wish to buy any females, come and see our herd anyway, you may be surprised. We hope to have yours and the industries support in this difficult decision.

Kind regards

A handwritten signature in black ink, appearing to read 'Mark Gubbins', with a large, sweeping flourish extending to the right.

Mark Gubbins

In July 2010 on the mountains of Montana Mark Gubbins gave way to the internal argument he was having with his mind on the benefits of Pure breed Angus breeding versus Simmental cross breeding.

Mark first saw Jim Butchers dream in 1999 of breeding Black Simmentals and has watched it evolve over this time. On the mountains of Montana in 2010 Mark saw the reality of Jims dream and realized that he was ignoring his own agricultural intuition if he did not get involved in cross breeding and the Simmental breed.

On returning to Australia 3 of Coolana superior Angus females were selected to be flushed to Black Simmental Bulls.

37 embryos were implanted into commercial cows at Hamilla Downs to Calve in the spring of 2011. This resulted in 29 50/50 Angus/Simmental calves.

The aim of this is to produce cross breed bulls for the Coolana commercial beef program. The females will be breed to Simmental bulls as a start to a Simmental herd at Coolana.

Since that small start a joint venture was started between Coolana and another beef breeding operation joined forces to import and implant a total implant of 400 embryos over 3 years. The joint Venture has now changed to a bull supply agreement for the other operator with the Gubbins family of Coolana taking over the XSimm Stud.

A stud was born with the genetics now available to cattle breeders to take on further.

Lot 96 L2043

MEALS

Coolana will be offering meals throughout the four days, however breakfast will only be available on the Thursday and Friday.

Sadly we cannot accommodate anyone so below are the suggestions for you to look into depending on your requirements. If we can help with any special requirements please ring Anna 0409 593913

ACCOMMODATION

CHATSWORTH HOUSE: 5 kms

Chatsworth House has 3 cottages and 3 apartments. All self catering for various numbers of people. Ideally located only 5 kms away.

Either goggle Chatsworth House functions or ring Lesley Jones on 0409 101 657

DUNKELD: 40 kms

Dunkeld is at the foot of the Grampians and a beautiful location within half an hour's drive from Coolana. It has numerous B&B's, self catering and hotel accommodation.

The Royal Mail Hotel; 03 5577 2241

Dunkeld Tourist Information Centre for all local accommodation; 03 5577 2558

HAMILTON: 60 km

Hamilton offers a number of services within an easy 4 turn, 40 minute drive into the Coolana's gate.

Hamilton Tourist Information Centre; 1800 807 056

The Botanical Motel; 03 5572 1855

The Bandicoote Motel; 03 5572 1688

The Grangeburn; 03 5572 5755

WARRNAMBOOL: 70KM

Warrnambool is for anyone who wants to smell the sea within an hour's drive of Coolana. With all services that one might need.

Warrnambool Tourist Information Centre; 03 5559 4620

Comfort Inn Western; 03 5561 5100

Best Western Olde Maritime; 03 5561 1415

Lady Bay Resort; 03 5562 1662

Mid City; 03 5562 3866

Agent Rebate

A 1.5% rebate is offered to outside agents who meet the following condition:

- Accompany, assist and sign the buyer slip on behalf of your client.
- (No signature, No rebate)

Inspection

Females will be available for inspection from 10am on the 28th of March. An appointment may be made by phoning Mark or Max Gubbins for inspection prior to sale day.

Airstrip

Coolana has a North/South, East/West grass airstrip that will be available on sale days. Not far from our selling complex. Airstrip coordinates Latitude -37.8827, Longitude 142.6664. Call Anna to arrange pickup. 0409 593913.

Animal Health

- Every endeavour is taken to eliminate any diseases and virus that may affect the Coolana herd.
- Coolana is accredited MN2 under the BJD market assurance program.

Pregnancy Testing

Brad Pickford has Pregnancy tested the Autumn calving cattle in South Australia showing an early or late pregnant scenario. Andrew Whale of Livestock Logic, Hamilton foetal aged the Spring females in February. This gives an indication of which joining is the most likely. The result is shown as an expected calving date. This is to be used for a guide and the calving date and parent verification can only be used for an accurate result.

All Autumn and Spring calving females will be check pregnancy tested by Andrew Whale in the week prior to the sale with the exception of the open donors.

The Coolana herd has been continuously selected for a 6-week joining. Even with the AI we get prig test result in the 90+ percent range.

The Coolana herd really is packed with fertility. The females are sold as pregnant on sale day.

Female Inventory and Transfers

The Xsimm cattle herd is recorded on the International Genetic Solutions (IGS) database in the USA. This is the biggest cattle recording database in the world. The females are either American Simmental Association (ASA) Registered or recorded. IGS and ASA have no problem transferring these females to any other cattle database in the world. The purchaser will have to check with any receiving database to check eligibility. Xsimm sells these females as recorded in the US.

Lot 105 L2314

Lot 114 L2080

Delivery and Transport.

Delivery will take place from Wednesday the 8th of March. Due to the size of this task you will need to contact Coolana to book your delivery slot. Failure to do this could mean a very long wait as we will be loading the booked queue first.

Transport costs and organisation are the purchasers responsibility. No verbal instructions will be accepted.

Steve Smith or another representative of Dick Smith Transport will be on location to assist you with transport if required. Contact Steve if you wish to do some planning. 02 6882 2463.

Embryos and Semen.

Collection and transport of embryo's and Semen is at the purchasers cost.

Embryos: are stored at,
Australian Animal Genetics
(03) 5977-1770,
info@aagenetics.com.au

Semen: is stored at,
Nationwide Artificial Breeders
(03) 5592-5461,
info@nationwide.com.au

LOTS 46 TO 52 - 6 DONOR FEMALES

The following Donor Females have been flushed in Coolana's Angus Embryo Transfer program in the 2015 and 2016 Autumn and Spring breeding programs. These Donor females have all been selected on there ability to produce high grade average performance driven calves. They then go through a rigorous structural test and are finally evaluated for their EPD profile before entering the Coolana ET program. They have been well tested before getting to this point. There are many calves throughout this catalogue from these donors.
