Violet Hills Charolais 7th Annual On Property Sale

Lot 2: Violet Hills Lowden (VHV L273E) (P) (R/F)

**Sale Date:
Thursday 4th May 2017, 1pm**

LOT 8: VIOLET HILLS LORD (VHV L3E) (P)

LOT 6: VIOLET HILLS LOUDEN (VHV L2OE) (P)

All of us at Violet Hills extend a warm welcome and invitation to attend our 7th Annual on property sale.

We are once again pleased to present a very good, even line, of young bulls of a unique type that we have been developing for years.

All of the bulls have been drenched for liver fluke and worms on the 30/11/2016 as well as a 7:1 booster. They have been vaccinated with pestigard and pilliguard.

At Violet Hills we have paid particular attention to producing easy doing, easy care Charolais with excellent carcass characteristics. We have also put a strong emphasis on producing genuinely early maturing animals that can be finished at a young age, either on grass or in a feed lot.

While most of our bulls go into crossbreeding operations they have performed equally well in pure bred herds. Our pure bred steers have performed with distinction in the Australian National Field Day steer and carcass trials over the years having been the winning teams in 2011 and 2015 and taking out the major awards for carcass quality and carcass yield most of the other years.

Our clients have demonstrated that the premium for their Charolais sired calves will exceed \$100 for weaner steers and \$200 for yearling steers when compared to British Breed calves. With heifer calves the premium is even greater.

Our Charolais herd of over 300 breeding cows is one of the most extensively recorded Charolais herds in Australia. While the majority of the cows are polled we have had to use some horned, like Dane and Flambeau, to maintain the quality and conformation that we require. We are slowly building a pool of home bred polled sires that we are happy with. This will enable us to move away from using horned bulls. Of course horned bulls are fine over polled breeds like Angus as all of the progeny will be polled.

Both Sean and Daryl will be more than happy to answer any questions regarding the bulls.

Our motto is

“ We will not be beaten on quality”

*Best Wishes,
Daryl, Kaye, Sean and Kirsty*

Daryl: 0428 639 674 **Sean:** 0419 416 197 **Email:** violethills@bigpond.com

SALE NOTES

AuctionsPlus: Online bidding will be available through AuctionsPlus.

Scanning and Weighing: All bulls will be scanned and weighed prior to the sale and their EBV's updated. A supplementary sheet with the updated EBV's will be available on sale day.

Health: All of the bulls are from a Johnes protected area and have been vaccinated 3 times with 7:1 and twice with Pestigard since birth. They have also been vaccinated with Pilliguard. All have been drenched for fluke and worms. At Violet Hills it is our policy to NOT trim hooves. Any animal that exhibits problems with their hoof structure is culled. This includes all cows as well as the bulls. All bulls are available for inspection prior to the sale (by appointment) as well as the morning of the sale from 10am.

Breeding Guarantee: All bulls are guaranteed breeders. Any claim against the breeding ability of a purchased animal should be made in writing, within 6 months, and accompanied by a veterinary certificate stating that the bull is infertile or incapable of natural service, and that, in his/her opinion, the bull has not suffered any injury or maltreatment, which could have affected its breeding ability, since delivery to the purchaser. Any animal failing to breed may be either replaced with a similar animal or have the purchase price refunded on the return of the animal to "Violet Hills". This guarantee does not include interest, expenses, costs or damages this process may involve. All costs incurred for this process, will be at the purchaser's expense. This guarantee does not include problems caused by accident, disease or management after the fall of the hammer.

Foot Guarantee: Having a good hoof structure is important for the working life of the bull. We are very conscious of this and cull any animal that has foot abnormalities that may be of genetic origin. We do not trim feet or offer bulls for sale that we feel may have a foot problem. Many things, such as injury, disease, nutrition to name a few, can cause hoof abnormalities during the life of the bull.

Our "foot guarantee" is for the first 12 months after the purchase of the bull. We will credit the purchase price of the bull, minus the salvage value of the bull, on receipt of a veterinary certificate that certifies that the bull is INCAPABLE of natural service and this is not the result of injury, disease or mismanagement. This guarantee only applies to the actual state of the animal's hooves in the first 12 months after purchase. All costs associated with any claim against the bull are to be borne by the purchaser.

Inspection: We encourage prospective buyers to inspect the cattle prior to the sale. This enables us to give a more personalised response to any questions. The animals will be available for inspection from 10am on sale day.

Buyer Registration: All prospective buyers please register before the auction as a card system will be used.

SALE NOTES

Buying Orders and Phone Link Up: Buying orders will be diligently carried out by a person nominated by you to act on your behalf. We do have Sean's land line connected to the sale shed (02 6359 3292). Mobile phone reception can be poor. Please make arrangements with the agents prior to the sale.

Agents Rebate: An outside Agents rebate of 3% will apply for Agents introducing their clients, IN WRITING, 24 hours prior to the sale and settling on their behalf within 7 days of the sale. These conditions will be strictly adhered to.

Refreshments: Morning teas & light meals will be available at the venue.

Accommodation: Accommodation is available at Oberon (40 mins), Lithgow (30 mins), Bathurst (50 mins) and Hampton (10 mins). Please contact us for assistance.

Delivery: Delivery instructions, in writing, must be given for stock awaiting delivery. All care of the stock will be taken during holding but no responsibility will be accepted for injury or loss during this period. Ownership of the stock will pass to the successful purchaser on the fall of the hammer. A representative of Elders will be present to insure the cattle. Violet Hills may be able to assist with delivery of the bulls and a freight subsidy may apply. Please make arrangements with either Daryl or Sean. If you wish for us to deliver the bull(s) we will do so at a capped fee of \$200.00 per head to NSW and VIC destinations. The delivery fee will be added to the account sales. All care and no responsibility will be taken while awaiting delivery and during delivery.

Caring for your new bull: When taking your young bull home, it is a good idea to have a welcoming group of cows or steers to help him settle into his new environment. His preparation will enable him to go to work as soon as needed. As he is still growing he should be kept on good quality feed, before, during and after being with your cows.

We strongly advise against running your new bull with older bulls during joining. Your young bull will run the risk of being injured. He will also get very few calves as he will be dominated by the older bulls.

PLEASE NOTE: It is unethical for anyone to promote, advertise or arrange the sale of any cattle, other than those in the sale, on the sale premises.

IMPORTANT NOTICES: While all care is taken in compiling the catalogue, the vendors give no guarantee to the accuracy of the information contained in it. All persons who attend the sale do so entirely at their own risk and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

Bring gumboots, a jumper and coat. The sale ring is undercover, however the cattle are in the open and the weather can be unpredictable.

Charolais BREEDPLAN EBVs

EBV's stand for Estimated Breeding Values and are aimed at putting value on certain traits. These values can be compared with the breed average value for that trait for those recorded animals that have been born in the same year. An accuracy figure gives the percentage chance that these allocated values will be achieved. For young animals with limited recordings there can be very big changes in their EBV's as more measurements are made as they get older.

In our opinion, EBV's can give an indication of how they compare to their mates in the same herd.

Caution should be used when comparing animals in different herds unless the accuracy of the figures is above 80%.

Flambeau is by Pinay out of a very good old Rex cow. He was the outstanding bull in our F drop of bulls. He has tremendous length and muscling as well as perfect structure including legs and feet. He is a very easy calving bull with and early maturity pattern making him ideal for the grass fed production systems.

Purchaser / \$: _____

NOTES**Pakenham Sale 9 January 2017**

Congratulations to Sebastian Iannello from Garfield, who sold 7 to 8 month old calves with the tops weighing 435kg and selling for 353.5 c/kg to come back at \$1538.16. Overall the 17 mix sex calves averaged 399.8kg and came back at an average of \$1396.54. The calves were out of Angus X Fresian and Murray Grey X Fresian cows by a Violet Hills bull.

These are the results that a combination of good management, good cows and a good Charolais bull can achieve.
