# SALE INFORMATION

## INSPECTION:

The females in this catalogue can be inspected at any time by appointment. Phone Noeleen or Stephen.

All Lots will be available for inspection from 3.00pm on Wednesday 25th November and 8.30am on the morning of the Sale.

## STOCK HEALTH:

Banquet is MN2 accredited under the Bovine Johne's Disease Market Assurance Program. Certificate Number VC128. All animals in this catalogue have been ear-notched for BVDV (pestivirus) and have been determined not to be carriers (PI) of the disease. When buying pregnant animals, despite all precautions there is always a small risk that the animal may be carrying a P.I. or carrier calf for pestivirus. There is no practical test that can detect this in utero (inside the dam). This can be despite vaccination or previous exposure and can be despite having no pestivirus on the property that the animal was purchased from. It is recommended that the calves of these animals be ear notched after birth.

All animals have been vaccinated with 7 in 1. Any animals purchased for QLD can be vaccinated against 3 day sickness and receive the 3 germ tick fever vaccination.

## REBATE TO OUTSIDE AGENTS:

Outside agents accompanying a purchaser to the sale are entitled to a 3% rebate. Outside agents who introduce clients that purchase but do not accompany them to the sale are entitled to 1% rebate. For these rebates to be given agents are required to register buyers in writing prior to the sale, and settling on their behalf within 7 days of the date of invoice.

## HEALTH AND SAFETY:

Visitors enter the pens at their own risk. All the cows are known to be of placid temperament under normal conditions. However sale day is not "normal conditions".

Suckling cows, in particular, present a very real threat to human safety, and visitors need to be especially alert for an overprotective mother becoming aggressive. Do not crowd the cows.

We cannot cover every example of the dangers presented by the cattle. Use common sense and be alert at all times. If you feel threatened whatsoever, please do not act hardy. Do what is necessary to ensure the safety of yourself and others in the pen.

This message is not meant to be alarming. We don't expect problems, but it is critical that visitors pay attention to the risks associated with the day.

## INSURANCE:

A representative will be available on Sale Day to organise all insurance requirements.

## TRANSPORT:

A representative from Falls Transports will be available on Sale Day to organise your deliveries.

## RECESSIVE GENETIC CONDITIONS:

All females in this Sale are free of AM, NH, CA and DD by parentage, or have been tested free.

## CATERING:

You are all invited to a BBQ Dinner on Wednesday 25<sup>th</sup> November from 7.00pm. Complimentary lunch will be available on sale day.

## FURTHER INFORMATION:

Contact Stephen or Noeleen Branson by phoning 0419 884 839 or 0437 029 992 or Email [banquetangus@westvic.com.au](mailto:banquetangus@westvic.com.au)

We are very proud to present the “Belles of Banquet” Catalogue. This Sale is a major event in the history of Banquet. It is the first time we have offered significant numbers of Banquet females. Feature offerings have met with great success.

We have often referred to Banquet as being a "line bred, outcross herd".

It is of great value to our clients to produce lines of bulls whose progeny are more consistent. To achieve this we are prepared to line breed to the best cow families in our herd. We will continue to follow this path while we continue to improve consistency and predictability without sacrificing production. When we identify bloodlines that we are confident will add value to our clients business we will test them. Our goal is to produce a son from a great Banquet cow to breed on with. Sires like Powerpack P54, Radar W42, Xplanation X060 and Time Frame Y135 are excellent examples of this philosophy. Now we are using their sons and grandsons.

Why do we call Banquet an “outcross herd?”

Browsing this catalogue, the absence of many of the popular Angus AI sires, is obvious. In our opinion these bulls are yet to prove that they offer benefits to our herd or our clients herds. We will continue to search and test “new” genetics with the hope of discovering a rare diamond. Just remember that to find a diamond we must shovel a lot of dirt!

So an offering of line bred, outcross cows is a unique opportunity. Select cows that best suit your breeding goals. They have the genetic strength to compliment your sire battery. They excel in structural soundness, length, thickness and volume.

In this Sale we are offering our entire “B”, “C”, “D” and “E” drops of females that are

- Free of all known genetic defects
- Carry the Banquet prefix
- Are worthy to carry the BB brand

This includes all donor cows. Any non defect carrying cow that is not presented for sale will be de registered with Angus Australia. Genetic defect carriers are being retained as recipient cows.

We consider this Sale to be better than a Dispersal (refer to page 5)

We hope you enjoy browsing this catalogue. Also we would be delighted to have you as our guest. Remember all Lots will be available for inspection from 3.00pm on Wednesday 25<sup>th</sup> November and please join us for a BBQ dinner from 7.00pm.

Noeleen, Gordon, Dianna, Hamish and I wish you all a safe and kind end to 2015.

## “BELLES OF BANQUET” FEMALE SALE

### This is better than a Dispersal Sale - Why?

★ With a Dispersal you have the opportunity to purchase all the females. With the ‘Belles of Banquet’ you have the opportunity to purchase all the “B”, “C”, “D” and “E” drop females.

- They are free of all known genetic disorders
- They carry the strength of the Banquet prefix
- They are of a quality worthy of the ‘BB’ brand

Note. All “non carrier” cows that are deemed to be below the high standards set for this sale will be deregistered with Angus Australia within twelve months of this sale.

★ Banquet Angus will remain as a very well established brand in the Beef Industry. They will continue to promote their program and their unique cow lines in which you can now share. They will be available for advice and information. With a Dispersal the profile of a stud can quickly diminish to a distant memory and there is no longer term ongoing support from the vendors

★ Why Banquet? Banquet achieved the highest average price for both Autumn and Spring bull sales in Victoria this year. A vast majority of that support was from repeat clients who consistently experience outstanding success with their Banquet progeny, with many regularly achieving sale topping results at major selling centres.

**This is the first time in the 24 year history of Banquet Angus that a significant number of females have been offered.**

**It is an opportunity not to be missed – the Best from the Best!**

## BANQUET- THE FIRST 24 YEARS!

by Ian Turner

### In the beginning - 1991

Stephen and Noeleen Branson founded Banquet in December 1991 with 50 females from Noeleen's family's Kingfield Stud. These sound, functional and productive cows combined well with the large framed power bulls the Bransons introduced from New Zealand.

In the autumn of 1992 Atahua Alice 115 (left) was imported from NZ. Alice was the first animal to be exhibited under the Banquet banner and was awarded Grand Champion Female at 1992 Royal Melbourne Show. They selected the NZ National Sale Champion, Waitapu Mastercharge, for their first flush from Alice 115.

What a start! A daughter was Reserve Junior Champion Heifer at 1994 Melbourne Royal. A son, Banquet Master Blaster N55 was used at Banquet, had semen exported to NZ and he was sold to Stoneyfold stud.

1992 saw the arrival of semen from the NZ National Champion of Champions and Australasian Record priced bull, Atahua Legacy (right). Legacy joined their foundation Kingfield cows that built the platform from which the current Banquet herd was launched.

### A Dream in the making - 1993

Another momentous development was the arrival of Banquet Kiwi Dream M41 from NZ. With the help of the late Stuart Cochrane, Delmont stud and the Dalziel family of Atahua stud, the Bransons

bred her in NZ and imported her in 1993. All the Dream cows in Australia are descendants from this most exceptional matron (left).

The 'Dream' story is remarkable, Banquet have 262 active females in their herd over one year of age carrying her name. Countless others also carry her in their pedigree. Banquet Jupiter J263 that topped the 2015 Banquet sale at \$40,000 has four crosses of Kiwi Dream M41 in his pedigree.

Incredibly there have been five individuals bred from the Dreams that have held record prices.

The two highest priced Angus cows sold in Australia are both Dreams.

1995 saw the first progeny of Kiwi Dream exhibited at Melbourne Royal. Dream P49 was Reserve Junior Champion. She was purchased by P.J Angus. Their ten Royal Show Champion awards since have been won with descendants including PJ Dream S2 (right).

### A Legacy builds - 1996

Banquet Beefmaker Q76 was the first Atahua Legacy progeny to be exhibited at Melbourne Royal. He was awarded Reserve Junior Champion in 1996.

1997 was the year that Legacy progeny from Banquet blitzed the Angus National Show and Sale. Banquet exhibited the Senior Champion Bull (Legacy Q61) which also topped the sale at \$15,000 to Mt Fyans Angus; the Senior & Grand Champion and top priced female at \$11,000 (Banquet Kite P43) was purchased by Bindarra Angus; the Reserve Champion Pen of 3 Bulls and the three top prices in this section.

### National becomes important

The Angus National Show & Sale in 1998 was another great success for Banquet. The bull calf from the 1997 National Champion Female, and owned in shares with Bindarra Angus was Junior Champion, also topping the sale at \$20,000 to Kingfield Partnership. Banquet also paraded the Reserve Senior Champion Female which was second top price at \$7000.

### The new millennium – new challenge

The year 2000 saw Stephen & Noeleen Branson advance their marketing strategy and hold their inaugural on-property auction. It proved to be a great decision. On Thursday March 16th, 'The Warrnambool Standard' newspaper reported;

*"While many beef stud sales have suffered a quick drop in price for bulls outside their top catalogue group and incomplete clearances, Banquet managed to sell all their 38 bulls to average \$4283."*

The sale topped at a very modest \$7,000.

### Banquet genetics breeding on for clients

Banquet continued to offer elite cattle at the National Show and Sale. Nuttella T08 (left) was Senior and Grand Champion Bull and sold for \$14,000 to the late Stuart Gordon, Glengowan Angus. T08 was a very successful infusion at Glengowan.

Another high selling bull was Rough 'N Tough T113 (below left), a son of the Reserve Senior Champion Female at the 1998 National Show & Sale, being purchased by Vermont Angus for \$12,000. Semen was exported to Merchiston stud, NZ. In all, three Banquet bulls sold at the National to average \$10,667.

A Banquet cow again topped the sale. Dream Q117 (below centre), a proven donor cow, sold for \$10,000 to Dylemma stud. In 2002 her eight sons at Banquet grossed \$63,000 and averaged \$7875. She was sold to Vermont, where she bred the legendary Dream Y301 (below right) who produced three record priced females. From Vermont, Q117 was sold to Irelands Angus.

### Unprecedented show success

2000 was a year of unprecedented show success for Banquet. Angus was the feature breed at the Adelaide Royal Show and it was the first time the Bransons had exhibited Angus cattle at Adelaide. Stephen grew up on Titchmarch Poll Hereford stud and showed there from 1973 until the stud was dispersed in 1991. Only

one Grand Champion was achieved from all those trips. Banquet did much better, winning Junior Champion Bull with Upward U49, Reserve Junior Champion Heifer with Eclipta U36, Senior and Grand Champion Female with Kite T59 (with Buzz V11 as calf at foot), which was also a member of the winning interbreed pair.

Banquet was also Most Successful Exhibitor.

*Buzz V11, Kite T59 and Upward U49*

A few weeks later this 'Big Bold' Banquet team rolled into the Melbourne Royal Show. This time Upward U49 had to be content with Reserve Junior Champion Bull, but Eclupta U36 was elevated to the Junior Champion Bull award and our Senior cows reversed places. This time Dream S138 (pictured left with calf) was Grand Champion and Banquet was again Most Successful Exhibitor. It was a great way to finish 2000.

### 2001 - Annual Sale growth

On March 14th 2001, 'The Weekly Times' used the headline "A Buying Feast" to describe that Banquet sale. An extra 12 bulls sold and there was a \$1000 increase in the average price to \$5306. The top price of the sale was Upright U53, a son of the legendary Dream M41 for \$21,000, the first of many purchases for Charles and Cass Kimpton, Toora West stud.

Two weeks later, at the Angus National Sale a flush brother to U53, Upward U49 (right) topped that sale at \$22,000. He was the first of many top Banquet sires to go to Jumbuck Park. The second top price of the sale was achieved with Banquet West U88, the Senior Champion Bull, purchased for \$12,500 by Wal and Anne Kenny, Kyloh stud. To round off the sales John and Joan Woodruff, Witherswood stud, purchased a half share and possession of Buzz V11 for \$15,000. Buzz V11 was the first calf from the 2000 Adelaide Royal Champion female, Kite T59.

### Onward and Upward - 2002

The Banquet Bull Sale went to yet another level in 2002. More bulls (61) were sold for a higher average (up by \$1400). Again Charles and Cass Kimpton, Toora West stud purchased the top lot, Arrogance V100 for \$20,000, a bull used heavily at Banquet. Two sons of Scotch Cap OB45 and from grand matron Kiwi Dream M41 sold for \$17,000 each.

### Out of the National Ashes

The Angus National Show and Sale ended in 2001 and in 2002 The Angus National Expo rose from the ashes. Banquet continued to support what they considered to be an important Angus event; this time with Dream T34 (left) with her heifer calf at foot. The result was stunning; in fact it was record breaking. This cow and calf dominated the judging, with a Grand Championship award and then blitzed the sale. Her \$27,000 price tag was an Australian Auction Record for an Angus Female. T34 was the first of many Dream cows to hold the record. She was purchased by Michael and Annette Tynan, Birubi stud.

### 2003 – Emergence of Anvil and Radar

The 2003 Banquet sale saw the first Banquet purchase by Stephen Handbury, Anvil Angus. He selected Waltanna W125, ultimately the top priced bull at \$19,000. The success of W125 at Anvil prompted Stephen Handbury to feature in many more purchases of elite animals from Banquet.

This year also saw the last Banquet bred bull offered at The National Expo. Dylemma Radar W42 was the result of an embryo purchased by Graham Nowell from Kite T59, the Grand Champion Female at the 2000 Adelaide Show. Banquet purchased a half share and possession in W42 at 12 months of age.

Semen was collected and he was used lightly before being offered at the Expo. Many semen orders were already in place and a fierce phone bidding battle resulted with Future Angus winning by paying the equal Australian record price of \$40,000; this being the highest price for twenty years.

Radar W42 (right) proved a very successful sire in SA, Vic, NSW and QLD, being used over Angus, Hereford, Simmental, Brahman and Brangus cows. He is still in select use at Banquet, combining exceptional calving ease, growth, muscularity and soundness.

### 2004 – X for Xceptional Year

2004 was again filled with highlights at Banquet; another outstanding bull sale saw James Darling select Xplanation X060 (below left) for the top price of \$30,000 for his composite bull breeding program at

Duck Island, Keith, SA. This price proved cheap when James recouped this investment within six months with semen sales to NZ, Canada and throughout Australia. X060 has been a major sire at Banquet and is sired by the old master, Hingiai 469 (NZ). Hingiai 469 also sired the new \$150,000 Australian record priced bull, Millah Murrah Kingdom K35, also now in use at Banquet.

X060 sired the top price bulls at Banquet in 2009 and 2014. Another high seller in 2004 was Xceptional X187, purchased by Trevor and Teresa Hall, Quarterway stud, Tasmania for \$18,000. To 2015, Trevor has purchased eight stud sires from Banquet. X187 has also been used at Banquet.

Again Banquet was a keen supporter of the 2004 National Angus Expo. This time with Irene W50 with a bull calf at foot (right) and topped the sale at \$16,000 to Richard Morgan, Barragunda Pastoral.

### The Dream gets Bigger

On Friday March 11th 2005, 'On the Land' ran the headline "A Dream Sale" followed by "Stephen and Noeleen Branson labelled their 2005 Angus sale a "Dream Day". This was based on the number of bulls in the catalogue from their great donor cow, Banquet Kiwi Dream M41. It was a motto that held true for the Bransons; their 86 bulls offered at their Mortlake On-Property Sale meeting with spirited demand from a

crowd of 250 spectators containing nearly 120 registered buyers. A new National breed auction bull record of \$50,000 was set, along with a fantastic \$6,059 average for the 85 bulls sold.

A Dream day it was, with 12 sons of Kiwi Dream M41 averaging \$11,458. Stephen Handbury, Anvil Angus was successful in securing the record setter, Time Frame Y135 (left). Time Frame semen has been used widely and exported to the U.S.A. His daughters at Banquet are highly valued, while his top son, Ballis B017, is the first Banquet sire to top the million dollar mark for progeny sales.

### Passionate about Supporting Youth

Stephen and Noeleen Branson are passionate supporters of the Youth Development programs within the beef industry. They have both served on management committees for many youth events. They have also trained and transported heifers for juniors to work with to events from Hamilton in Victoria to Armidale in NSW.

When they were approached in 2004 to help fund programs conducted by the Australian Beef Industry Foundation (ABIF), Stephen and Noeleen Branson willingly donated the heifer, Banquet Irene Y018 (left). Through the support of like minded breeders, Irene Y018 attracted the bid of \$11,000, with Stephen Handbury, Anvil Angus again being the successful bidder. Irene Y018 has repaid Stephen's generosity by founding an outstanding family line at Anvil.

2005 saw Banquet return to Melbourne Royal Show with 4 head; and what a result! They captured the Junior and Grand Champion Bull award with Zenith Z137; Junior and Grand Champion Female and then Interbreed Champion heifer with Dream Z008; Reserve Junior Champion Female with Dream Z020; and were also Most Successful Exhibitor.

2008, Z020 and Z137

### 2006 – First century offering & last National

The first Banquet offering of 100 bulls was at their 2006 sale. 101 were offered, resulting in a 100% clearance and averaged \$5,728, despite a top of only \$14,000. Long term supporters, Charles and Cass Kimpton of Toora West again took the top priced bull honours. The strength of that sale result lay with the strong support from commercial cattleman, many being repeat buyers.

2006 also saw the last Angus National Expo at Wodonga. True to their long term commitment to support this event, Banquet offered Banquet Eclipta W85 (right) with a heifer calf at foot. Another Grand Championship and sale topping price resulted. Banquet cattle were having a major impact at Anvil Angus and Stephen Handbury added W85 to his donor team for \$16,000.

### 2007 – A Time to Feast

The headlines in 2007 read “Buyers have a feast at Banquet”. How apt that was with a 100% clearance of 104 bulls, selling to top at \$20,000 and averaging \$6706. The Erby family, Forres stud purchased Abode A005 (right) for \$20,000. He proved so successful that at their dispersal in 2012, Abode sold for \$22,000 as a six year old.

### 2008 – Breeding success & Giveaways

The 2008 Banquet sale saw the identical top price as the previous year. This time the honours went to Allan A190, a bull that had already seen service in two joining seasons at Banquet. A190 was purchased for \$20,000 by Karen Arnott for her Skagway stud.

Another bull also used in the Banquet herd was sold this year.

Aberdeen A349 (left) had been used from the age of 13 months to complete three mating programs before being selected by Trevor Hall, Quarterway Angus. The daughters of A349 have been so impressive that he was re introduced into the AI team at Banquet in 2014. Some daughters catalogued in the 2015 ‘Belles of Banquet’ sale have been flushed.

This was also the year that the Stock & Land newspaper ran their inaugural bull giveaway promotional program.

Banquet willingly supported the initiative. Entries flooded into the Stock & Land office from NSW, SA, Vic and Tas and there was great anticipation when the draw was conducted pre-sale in the Banquet sale barn. Amazingly the winners were clients, Ken (and Mary) Frost (right). They were in the sale gallery and a little lost for words.

### Sydney record

Easter 2008 saw Banquet at Sydney Royal Easter Show competing in the Angus feature breed showing. They also offered the outstanding Banquet Kite A197 (left) with a heifer calf at foot. A197 set a new Sydney Show auction record for a female when she sold for \$38,000, with Anvil Angus again winning the bidding battle. Kite A197 is a half sister to Banquet sires Buzz V11 (\$15,000), Radar W42 (\$40,000) and Abraham A204 (\$16,000).

### 2009 - A Decade of Sales

Banquet’s 10th Annual Sale was held in 2009. The top price at this sale again demonstrated how well line breeding to exceptional females works. The \$18,000 Cosper C268 (right) was a son of Xplanation X060. The dam of C268 is a daughter of Kiwi Dream M41, while X060 is from a Kiwi Dream M41 granddaughter. Congratulations to Tom and Helen Love for recognising his genetic strengths. A son of the \$40,000 Radar W42 sold for \$16,000 to Brad Saunders, Queensland.

### 2010 - Highest Victorian sale average

In 2010, \$20,000 was again the top price at the annual Banquet bull Sale. Duncan and Oopy MacGillivray of Wittalocka stud paid this for their selection, Designer D292 (right), one of the first sons of the NZ sire Matauri Stockman 526. The dam of D292 had bred a \$16,000 bull in the 2009 sale.

This sale was an outstanding result with 114 bulls averaging \$5,864, the highest sale average in Victoria.

An Angus Feature Show was held at the 2010 Adelaide Royal. On the back of Banquet’s achievements at the last Angus feature breed showing in Adelaide, the Bransons again made the trip across, and what a trip it was! Banquet Champagne E288 was Junior Champion Female, also being part of the winning Interbreed Junior Pair. E288 was sired by the old Power Pack P54 bull and was from a daughter of the old breed legend, Black Gold Champagne J031.

Banquet Julie E239 was bridesmaid to E288 when she was awarded Reserve Junior Champion Female. However, the highlight for Banquet was when their proven stud sire Banquet Ballis B017 was crowned Senior and Grand Champion Bull. At 4.5 years of age, this 1300kg mountain of beef was so impressive with his scale and mobility that some doubted that he had been in service. In fact he was paddock joined to almost 200 females during 2009. His 53 sons in the 2011 Banquet sale averaged almost \$9,500 each. Ballis B017 was much more than a pretty face! B Champagne E288 and B Ballis B017 (right)

### 2011 - Million Dollar Dreams

As mentioned, the strength of Ballis B017 progeny saw the first million dollar sale at Banquet in 2011. This was something the Bransons never dared to dream of back in 2000 when they held their first auction. A son of Ballis B017, Banquet Easton Boy E231 (left) topped the sale at \$32,000, going to the Kimptons of Toora West who again fought off all comers to secure their choice bull. This exciting day saw 142 bulls average \$7,700 and gross \$1,089,000.

## 2012 – Heavyweight Competition sees Million Dollar repeat

That outstanding result was replicated in 2012 when Banquet offered and sold 145 bulls to gross \$1,020,945 and average \$7,041 in another total clearance. Banquet selected seven young bulls from this catalogue as potential sires and retained semen for in herd use. The highlight was Banquet Forbidabull F485 (*left*), topping the sale at \$26,000 to Doug and Barb Tozer, Onslow Angus. The merit of the Tozers investment is assessed by the quality of Forbidabull's progeny. His first son at Banquet

topped their sale at \$16,000. What a wonderful start to Forbidabull's breeding career!

At this sale, Peter Delaney, Murroa East selected Banquet Fancier F046 for \$20,000. Ross Davis, Wolbunya purchased a son of Ballis B017 for \$18,500 and David and Gail Geddes, Warranboo selected two sons of B017 for \$18,000 and \$14,000.

## 2013 - Banquet bulls breed on and on

Charles and Cass Kimpton, who have built their Toora West seedstock business on Banquet bulls since 2001, returned to again purchase the top price bull in 2013 (*right*). This time their selection was Banquet Garton G275 at \$20,000. G275 is sired by Banquet Duncan D412, a bull retained by the Bransons.

As a mature sire he was purchased by David Hurley at Dargo. Four sons of Duncan have been used in the Banquet breeding program.

The Shoebridge family, Cleveland Pastoral Estates of Ouse, Tasmania purchased Banquet Granada G077 for \$15,000. The Shoebridges sell 1200 Banquet blood calves at their annual on property weaner sale. Showing the versatility and adaptability of Banquet genetics, the third top price bull, Banquet Gurry G228 was purchased by Peter Attard, Shingle Hut, Moura, Queensland.

Semen from Garton G275, Granada G077 and Gurry G228 is in use at Banquet.

## 2014 – A timely arrival

In 2014 the Bransons offered a unique young sire, Banquet Harman H261, a son of Banquet Xplanation X060, the highest priced Angus bull sold in Australia in 2004 (*below*). With X060 subsequently testing as a carrier for the DD defect, H261 arrived just in time. H261 created so much interest at Banquet it was decided to offer him with the option to repurchase a half share.

The Branson's were excited when John, Robyn and Peter Blyth, Fernleigh stud, accepted this offer after successfully bidding \$32,000 to purchase him. H261 is used for natural service at Fernleigh in the Spring and Banquet in Autumn. His potential contribution is huge.

The Geddes family, Warranboo, Holbrook, NSW continued their push for excellence when they selected Banquet Hazelnut H265 (*left*) for \$22,000. Their investment in top sires is really paying dividends in their commercial herd with the standard and performance of their breeding females lifting significantly. This year the purchaser of their first run of steers in 2014 called back with the request, "What do we have to do to get the next run?" That is the best possible feedback.

## 2015 – The 'here and now'

Banquet has already achieved outstanding sale results in 2015. In their February sale, 99 bulls were offered for a total clearance, a top price of \$40,000 and an average of \$8,374. This was the highest average for any breed in Victoria. Repeat buyers purchased 86% of the bulls, giving a strong indication of client satisfaction! Richard and Sandra Rettallack, Glengowan stud purchased their third stud sire from Banquet. They selected Banquet Jupiter J263 for the \$40,000 top price (*below*). His sire, Forbidabull F485 topped the 2012 sale at \$26,000 when sold to to Doug and Barb Tozer, Onslow stud.

David, Gail and Colin Geddes, Warranboo Partnership, Holbrook, NSW again went home with the second top priced bull, Banquet Jeofail J205 (*below*), outlaying \$20,000.

Repeat buyers, Tom Shoebridge, Robert Love, Barry Pitt, Ross Davis, David Hurley and Charles and Cass Kimpton all purchased bulls between \$15,000 and \$18,000. Alan McDonald was the only first time buyer to break into this price range when he purchased Banquet Jerez J262 to join to the record priced Banquet sired heifers he purchased at Hamilton in the January weaner sales.

## Spring is in the air – New ventures

Banquet conducted their inaugural Spring Bull Sale in September 2015. The average price of \$6,500 was the highest achieved for any spring bull sale in Victoria in 2015. Likewise, the sale was again dominated by repeat clients, purchasing 84% of the offering. Keith Diprose, who has been purchasing Banquet Bulls for 19 years, selected Banquet Judd J517 for the \$13,000 top price. Two bulls sold for \$10,000 each, again to repeat clients, Graeme Norman and Ned Kelly.

Now, for the first time in its history, on the 26th November Banquet will be offering a significant number of females in its inaugural 'Belles of Banquet' female sale, opening up a unique opportunity for beef cattle breeders to tap into the best and proven female genetics from the Banquet herd.

## Banquet - The First 24 Years

What will we read in 2039 after Banquet's next 24 years?

## SIRES OF COWS FOR SALE

At the Back of the Catalogue, there is detailed info on the joining reference sires.

### BANQUET TIME FRAME Y135

Time Frame Y135 set a new Aust. Record price when he sold to Stephen Handbury, Anvil Angus, for \$50,000. The importance of Y135 to Banquet way exceeded his sale price. His daughters are typically moderate, thick and have excellent udders. Lot 1 and Lot 120 are great examples of Y135 daughters. Another is Dream A250 who produced Duncan D412 who was used naturally before his private sale to David Hurley. D412 sired the top price and highest average at our 2013 Sale. Time Frame sired Ballis B017.

### BANQUET BALLIS B017

Ballis B017 is one of our most sought after and successful sires. His sons have sold to \$32,000 and averaged in excess of \$9,000. B017 is the first Banquet sire to eclipse the million dollar mark with the sales of his sons. In his spare time he went to the Angus Feature Show at 2010 Adelaide Royal. He was awarded Grand Champion bull. B017 progeny have exceptional calving ease with outstanding growth. They are long fine fronted cattle.

### BANQUET XPLANATION X060

2004 saw Xplanation X060 burst on the scene. This son of Hingaia 469 achieved the top auction price for an Angus bull in 2004 at \$30,000 to Duck Island. Doesn't sound much compared to Millah Murrah Kingdom K35 at \$150,000, also a 469 son. X060 was widely used in the Angus community and his influence at Banquet was huge. Unfortunately he fell to the DD defect. Now his son Harman H261 is carrying on his work. Daughters of X060 are soft, easy doing cattle with great volume and excellent udders.

### BANQUET BUNDY B002

Bundy B002 was the X060 son we chose to retain. He was from the old donor Black Gold Champagne J031. His daughters are outstanding. Classic in their phenotype. Long, fine necks, deep, thick bodies and excellent udders. They are highly fertile and maintain condition in harsh seasons. In fact they are copies of Bundy's flush sister, Champagne C154, who is Lot 46.

## SIRES OF COWS FOR SALE

### DYLEMMA RADAR W42

Dylemma Radar was purchased as an embryo by Graham Nowell. At 12 months we purchased a half share. At the Angus National Sale Radar W42 sold for \$40,000 to Future Angus. He has exceptional calving ease and outstanding growth. W42 was 1000kg at 2 years. His actual EMA scans were amazing. His EBV's have always struggled to reflect his true ability. His progeny are thick, fine skinned and have tremendous do ability. His dam, Kite T59, produced 26 sons averaging \$9,600.

### BANQUET ZEALFUL Z021

Zealful Z021 was a great favourite at Banquet and Raffs. Twice he made the expedition to Raffs in QLD for their joining season. He coped with these transitions with ease. A testament to his doing ability. Although a large framed sire his daughters at Banquet are very similar to the Bundy's. They have length, depth and volume. The dam of Zealful is another of the outstanding Dream cows. Dream X087 was clearly the best of our Scotch Cap OB45 daughters. She had more of the traits of her highly successful dam, Dream Q34. More frame, more volume and less hair.

### BANQUET ABERDEEN A349

Aberdeen A349 was used for three joinings before selling at 28 months to Trevor and Teresa Hall for their Quarterway Stud, Tasmania. Over the years his daughters have gained recognition in the Banquet herd. The basics of structure and phenotype ensure they are noticed. Their reliability and the quality of their calves ensure they are remembered. Several A349 daughters have been flushed to retain their attributes at Banquet. We reintroduced A349 as an AI sire for our 2014 joinings. His new generation of daughters will be very valuable.

### BANQUET POWERPACK P54, XCITEMENT X088 and CROFT C080

Powerpack P54

Xcitement X088

This father, son and grandson team of Powerpack P54, Xcitement X088 and Croft C080 is a bloodline that has bred excellent females for us. If you include the influence of the flush sisters of P54, Dream Q34 and Dream Q32, then the significance of their contribution is even more obvious. It is not an accident that sires with outstanding sisters breed top cows. All of these sires fit this criteria.

**The Next 19 Lots are AI'd to this sire**

Millah Murrah Kingdom K35 is the new Australian Record Priced bull at \$150,000. With the help of Ross Thompson we had identified K35 as a Banquet sire before he became famous, his combination of proven sires 469 and 24J, both who we have used, with a top cow family at Millah Murrah make K35 a good bet at Banquet. The joining of K35 to the next 19 cows give you the opportunity to test our belief.

We purchased the \$17,000 Fusion as our pick of a very impressive group of E.T brothers. Fusion attracted us with his strong loin, wide hindquarter and rugged head. His dam is equally impressive, she is deep bodied, soft and easy doing. Her progeny are consistently at the top end of their contemporary group. Keith Kerridge recognised this when he purchased her as an aged cow for \$16,000. If Fusions daughters inherit the traits of Y147 they will be very valuable to our program. Fusion F275 is the sire of 30 calves in this catalogue.

Banquet Jarman J285 – F275 Son, Sold for \$15,000

Harman H261 topped our 2014 Sale at \$32,000 when he was purchased by John, Robyn and Peter Blyth, Fernleigh Stud. We purchased a half share in H261. Harman H261 has replaced his sire, the \$30,000 Xplanation X060, in our sire team. The daughters of X060 at Banquet are exceptional and we expect H261 to continue this line. Vermont Irene W47, the dam of H261, has an incredibly powerful head and jaw. She is heavy boned and exceptionally thick. A powerhouse of a cow. W47 was produced from a Banquet embryo that Vermont purchased to found their stud.

Daughter - Banquet Wivem L055, Lot 3

Dam - Vermont Irene W47

Son - Banquet Licorice L017, Lot 5

# A Tribute to a Legend

## Hingaia 469 NZ

Banquet Dream W173 and Julie W164 - 14 year old daughters of 469

At Banquet we have great admiration and appreciation of the New Zealand type of Angus Cattle. Their ability to forage and perform on grass making them highly suitable to our production systems. Generations of New Zealand cattle have been selected for structural soundness and type. We find the longevity of New Zealand blood cattle to be superior. Almost all of the cows at Banquet carry these genes.

Hingaia 469 is the perfect example. We have 15 year old daughters still in our herd.

We congratulate Ross Thompson of Millah Murrah on recording a new Aust. Record price of \$150,000 for Kingdom K35, a son of 469.

Not many have a vision and belief to use 29 year old genetics. At Banquet we love tested and proven genetics. Currently we are using two sons, two grandsons and a great grandson of Hingaia 469. We have four daughters of 469 in our Donor Team.

BANQUET DREAM Q117 (AI)

Daughter - Banquet Kite L049, LOT 2

It is gratifying to see the industry appreciating the genetics that can consistently breed better calves for longer. This was evident at the recent Millah Murrah Sale when a son of the 29 year old Hingaia 469 set a new record of \$150,000.

At Banquet we have targeted individuals that give survivability and maternal power. One combination that has excelled for us is Hingaia 469 with the Dream family.

Banquet Gentleman G500 is one of those. His first calves are special. A freak accident destroyed his near side hind leg in his first joining. So sorry, no photos. We are already searching for his best son.

Daughter - Banquet Dream L070, LOT 6

Vermont Dream Y301 - Dam

Noeleen, Gordon and Hamish inspected F77 at Onslow. They were impressed with the extra length of body and neck extension that he expresses. Our first F77 calves are now 12 months old and are showing great promise. Pedigree wise he introduces a dash of the Equator blood to our program but his major attraction is his dam, Vermont Dream Y301. Y301 is a daughter of Banquet Dream Q117. Dream Y301 was the absolute feature at the Vermont Dispersal. Her daughter sold for \$38,000 at 12 months and an Australian Record price of \$45,000 for Dream B227. At the Aberdeen dispersal, Dream F21 set the current Angus record of \$48,000. Equator F77 is a flush brother to Dream F21. Equator F77 is the sire of eight calves in this Sale.

# A Tribute to a Legend Atahua Legacy 26-90 NZ

Atahua Legacy set an Australasian Record Price at the 1992 New Zealand Angus National Sale at \$155,000 this record is still unbroken after 23 years. We shared in the Aust. semen rights and this started a breeding dynasty at Banquet.

Legacy had all the traditional traits of New Zealand cattle, he was strong jawed, powerful headed, deep and thick bodied, exceptional docility and extremely sound in his feet. The difference was Legacy came with scale we had never before witnessed. Used judiciously, this combination of performance and type resulted in a quantum leap at Banquet. When his "P" drop sons entered the market they met instant demand.

At Banquet we have used 8 sons and flushed 11 daughters. The progeny of these infiltrate the current pedigrees at Banquet.

Atahua Legacy was from an outstanding family. The Quest cows have consistently produced some of the most sort after sires in New Zealand, including the \$120,000 Atahua Westpoint. The only "Quest" cows in Australia are at Banquet. There are 3 Quests offered in this Sale.

The greatest attribute of Legacy, Westpoint, Hotshot and Top Lad is the honesty, integrity and ability of their breeders, Alan and Colin Dalziel and their families. We appreciate the twenty four years of help and encouragement they have given us.

P.S Just pulled Legacy straws for a Flush. Wonder if he can still work his Magic?

Stephen Handbury purchased Juggernaut for a \$41,000 record for a yearling bull for his Anvil Stud. Stephen's description of the bull sparked our interest and he certainly did not disappoint on inspection. He showed great capacity, dimension of hindquarter and length of body. His mobility and style was a feature. J15 displayed excellent early growth. We chose to test him in our program. He will add diversity of type and pedigree and be a valuable bench mark. You have the opportunity to test Juggernaut with his six calves in this sale.

## Local advice that makes a world of difference.

At Landmark, you can rely on a vast network of committed advisors who have the resources and the expertise for all your livestock needs. Our combined experience and our knowledge of the livestock industry, means we can add real value to your business and help you make the most of every opportunity. We understand the buying and selling of sheep and cattle, and with access to more domestic markets and international partnerships, we can secure better prices for you. That's why more Australian farmers look to us.
