

# ASCOT BULL SALE

ON-PROPERTY FRIDAY 16TH OCTOBER, 2015 – 1PM

LOT 2

LOT 58

**100 POLLS**

**50 ANGUS BULLS  
50 CHAROLAIS BULLS**

**(80 RISING 2 YEAR OLD BULLS  
20 WORKING AGE YEARLINGS)**

 **ASCOT**  
CHAROLAIS & ANGUS

# Welcome

**Firstly, and most importantly we wish to thank last year's buyers and bidders for your tremendous support.**

**Our Angus and Charolais stud herds continually grow in quality and quantity at our Glenn Innes property 'Khancoban' and home property 'North Toolburra', Warwick. This has allowed us to present 100 Polled Bulls in this year's sale.**

We are also able to offer more rising two year old bulls – as requested by many of our clients. There are approximately 80 bulls that are rising two year olds. We are still passionate about selling working age yearlings so we also have approximately 20 on offer. Many bulls in this year's sale will be suitable for joining to heifers which is important at present with some areas re-stocking with heifers.

All the bulls are commercially focused with MSA standards in our focus. This makes it easier for our clients to achieve MSA grading with their progeny and increasing returns.

We are equally passionate in focusing on the following traits: polled, calving ease, docility, weight for age, early to mid-maturing, positive fat and easy finishing. Two market leading breeds under one roof.

With our Charolais breed, we are continuing in the pursuit of thick, positive fat, calving ease bulls and POLLED. We carry out DNA testing on most bulls and females for the PP (Homozygous polled) gene.

Animals with this gene are more likely to produce ALL polled progeny – even out of horned animals. About half of our females now have this gene. We are very careful in breeding not just for the polled gene but continue to focus on all the carcass traits as well.

A prime example of our methods' success is proven with one of our home-bred bulls, Ascot Juggernaut (a DNA tested homozygous bull). He won the title of Grand Champion bull at both Beef Week and Brisbane Royal, 2015; the two biggest industry shows in the Southern Hemisphere.

Ascot Juggernaut nearly has everything as far as carcass attributes; plus he is homozygous polled. He will feature in this year's sale. We will also be keeping semen shares in this bull.

We have approximately 12 other bulls with this rare DNA tested homozygous trait in this year's sale.

With our Angus breed, we also focus on carcass traits, doing ability, muscle, bone and docility. On offer are medium framed bulls that will suit most applications.

We have used Trait leading bulls from Australia and around the world for sires of this year's sale bulls: Temania Berkley, Temania Emperor, Carabah Docklands,

Millah Murrah Highlander, Irelands Gapsted, Carabah Direction, Dunoon Evident, Booroomooka Theo, SAV Net Income, Ayrvale Bartell, Regent, Millah Murrah Highlander and the Australian Record priced bull Irelands Galaxy which sold for \$115,000. Many of our bulls are from females purchased from the renowned and record breaking Millah Murrah herd.

All sale bulls are semen and vet tested, vaccinated for tick fever, 7-in-1, Pesti, Vibrio and 3 day sickness. All are fully guaranteed.

All our females and bulls in the sale in both breeds are fully registered and fully breedplan recorded which make bull selection for the traits you are chasing easier.

To show the power of cross-breeding, we will have three Charolais/Angus cross steers on display at the sale. These will then be auctioned; with the highest price proceeds going to "Cherish". This charity we support assists in finding a cure for ovarian cancer.

We are looking forward to catching up with you at the sale. complimentary morning tea, lunch and drinks will be provided.

Yours sincerely,  
*Jim & Jackie.*

## TESTIMONIAL

CLINT & EMILY GOLLAN  
POINTON PASTORAL COMPANY, MANUMBAR

Dear Jim & Jackie  
Ascot Cattle Co;

We would like to commend you on the exceptional quality of cattle that you put forward to your clients.

Pointon Pastoral Company has purchased around 30 Charolais Bulls from Ascot Cattle Co. over the past few years. We are extremely happy with fertility and temperament of all the bulls. They have taken the transition from the Darling Downs to the South Burnett extremely well. Our cattle are treated on a strict routine to keep ticks at a minimal and these bulls have taken this in their stride. They are mustered regularly with dogs, horses and motor bikes but nothing seems to worry them.

We Purchased several young bulls around 14 to 16 months old and put them straight out to work, and are particularly impressed with the calving rate yet they have spelled well and matured into high quality bulls.

Several bulls that we had purchased were DNA tested Homozygous 100% polled which has made a dramatic difference to our progeny and to the cost of our labour at branding time and also to the wellbeing of our calves without having to put them through the stress of dehorning.

Through buying Ascot Charolais bulls we have built a relationship with our buyers that certainly influences the way that we now trade in cattle.

We would like to thank you for the high quality bulls that you produce, you have made a considerable impact to our overall production of cattle and most of all to the profitable outcome of our herd.

**Clint & Emily Gollan**

# ASCOT BULL SALE

FRIDAY 16TH OCT, 2015 – 1PM

On-property 'North Toolburra' Warwick, Queensland

4% Commission to outside Agents

# SALE INFORMATION

## SALE DATE AND PRIOR INSPECTION TIME:

Selling will commence at 1.00pm on Friday 16th October, 2015.

Bulls may be inspected from 10.00am on the morning of the sale, or at any other time by arrangement with the agents or vendor.

## SELLING SYSTEM:

Sale of animals will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful Purchasers are requested to give written advice to the Selling Agents, regarding transport arrangements, at the conclusion of the sale.

## REBATE:

4% Rebate to outside agents registering Bull buyers, in writing, PRIOR to the sale, and settling on their behalf within 14 days of the date of invoice.

## PHONE BIDDING:

*We have full mobile phone coverage at the sale.* If you intend purchasing over the phone, please contact the selling agents to reserve a line.

## GST:

All animals are sold **exclusive** of GST.

## INSURANCE:

Bulls are like any other piece of valuable farm equipment and it is wise to insure them, especially for their first six months of working life. There are a number of options available through Landmark Insurance at the sale venue.

## AUCTION PLUS

Auction Plus will be operating at the Sale. Please register 24hrs before the sale.

## REGISTRATION:

Ownership transfer of bulls will be registered by the vendors with Angus Australia or Charolais Australia provided accurate transferee details are supplied with the Buyers Instruction form.

## CATERING:

Please join us for complimentary lunch and after sale drinks.

## PHYSICAL EXAMINATION OF BULLS

All bulls offered for sale will be vet checked near sale date and only sold if deemed satisfactory for the following inspections:

- Palpation of internal genitalia
- Palpation of Scrotal Contents
- Semen Testing

## TEMPERAMENT

The bulls have been handled with horses, ATV utilities and on foot. We know their temperament individually and are confident that under normal circumstances each animal in the sale is of sound temperament. Understandably each year on sale day an occasional bull misbehaves due to the big change to the yard area and the pressures of strange people invading their space.

## HEALTH QA:

The bulls are ready for immediate use. We have treated them as follows:

- Double vaccinated them with Vibrovax
- Vaccinated for Tick Fever
- Double Vaccinated them with 7 in 1
- Double Vaccinated for 3 Day
- Drench with Cydectin Pour On prior to sale

## BULL HANDLING

On arrival at their new home it is important a suitable mob of animals is yarded to greet the bull and minimize the stress on the bull. Suitable animals include pregnant cows, steers, certainly not other bulls.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the early stages of joining when the majority of problems occur and early intervention can minimize the damage to the bull and to conception rates.

When joining is complete, bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get over-fat.

## WARRANTY

### THE VENDOR WARRANTS THAT:

1. Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser ("Warranty Period"); and

### THE VENDOR WILL EITHER:

1. Provide a satisfactory replacement or
2. Provide a credit for use at the next Ascot Cattle Co Bull Sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value:

**WHERE:**

1. The purchaser claims a bull is infertile, upon purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct. The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring.

**THE PURCHASER ACKNOWLEDGES THAT:**

The purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.

To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the Seller are excluded.

The Seller has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

**HEALTH & SAFETY OF VISITORS TO OUR SALE (RULES & ADVICE)**

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However there are inherent risk associated with cattle handling.

---

**VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN MUST NOT ENTER THE YARDS.**

---

People entering the yards are at risk of injury. Be especially alert of bulls fighting and if one is playful with you, do not respond by patting his head.

What a bull considers a playful nudge can break human legs! We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal.

Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily.

Please call upon any of the agents for an escort through the bulls if required. The days of bravado with stock have passed under current OH&S legislation.

**DELIVERY**

Agents Elders, Landmark and Colin Say & Co will be handling the organisation of delivery of Sale Cattle. Free freight is offered to:

- Roma
- Rockhampton
- Goondiwindi
- Emerald
- Glen Innes
- Toogoolawah

Responsibility goes to purchaser at fall of hammer. We recommend insuring all bulls.

**SEMEN RIGHTS**

All bulls sell with 80% semen marketing rights attached. In doing this we leave the great majority of any potential semen revenue in the buyer's hands.

However, by keeping a 20% share, it gives us, as the breeder and party with the greatest knowledge of the bull's background, a seat at the table, in any possible negotiations with semen companies and other parties.

Should any purchaser wish to operate at the sale on the basis of 100% semen ownership, please contact the vendor at least 24 hours prior to the date of the sale.

Under all circumstances, the vendor retains the right to collect up to 200 straws of semen from a bull in the sale for use within herd. Any semen collection would be at vendor's expense and purchaser's convenience.

# SELECTING GENETICS FOR IMPROVED MSA

**The different components affecting whether carcasses meet MSA compliance specifications are all influenced to some extent by genetics and can be improved through the selection of animals with appropriate genetics.**

## 1. MEAT COLOUR & PH

Dark meat colour (ie. over an AUSMEAT score of 3), commonly referred to as 'dark cutting'; is associated with low muscle glycogen levels in the live animal prior to slaughter, thus resulting in an unappealing product for consumers. Similarly, if there is only a small amount of muscle glycogen present pre-slaughter, pH may not decline to the required level.

Maintaining glycogen levels pre-slaughter is consequently of utmost importance and can be achieved by minimising stress and/or activity both on-farm and in the lead up to slaughter. Cattle with poor temperament have an adverse effect on the cattle around them, all of which results in higher pH carcasses and a higher incidence of dark cutting.

Selection for improved temperament can be achieved by ensuring that all animals used in a breeding program have acceptable temperament, and when available, selecting animals with superior Docility EBVs. Docility EBVs are estimates of genetic differences in the percentage of an animal's progeny that will be scored with acceptable temperament, with higher EBVs associated with superior temperament. For example, an animal with an EBV of +20% would be expected to on average produce a greater percentage of progeny that have acceptable temperament than a bull with an EBV of -2%.

Research has also demonstrated that animals with higher muscle content, as defined by size of carcass eye muscle area (EMA) adjusted for hot standard carcass weight, is strongly associated with reduced incidence of dark cutting. A reduction in the incidence of dark cutting in high muscled cattle also complements the other advantages of muscular cattle, such as increased retail beef yield and processing efficiency.

Selection for increased muscle content in a standard weight carcass can be achieved by selection of animals with higher EMA EBVs. EMA EBVs are estimates of the genetic differences between animals in eye muscle area at the 12/13th rib site in a standard weight steer carcass, with higher EBVs associated with larger eye muscle area. For example, an animal with an EMA EBV of +4.4 mm would be expected to produce calves with larger eye muscle area than an animal with an EMA EBV of + 1.0 mm, relative to carcass weight.

## 2. RIB FAT THICKNESS & FAT DISTRIBUTION

Rib fat thickness is the measured depth of subcutaneous fat over the quartered rib site between the 5th and 13th ribs.

A covering of fat is needed to protect the high value primal cuts from rapid chilling, which can cause toughening, and to enhance eating quality and appearance.

In addition to minimum fat levels, a key requirement for all beef markets is to have adequate cover over the high-value cuts along the loin (back) and rump. MSA requires carcasses to have adequate fat coverage over all major primals, with an area of inadequate fat distribution not being greater than 10cm x 10cm over each individual primal.

Selection for adequate rib fat and fat distribution can be achieved by selection of animals with appropriate Rib and Rump Fat EBVs. Rib and Rump Fat EBVs are estimates of the genetic differences between animals in fat depth at the 12/13th rib and P8 rump site respectively in a standard weight steer carcass, with higher EBVs associated with greater fat depth. For example, an animal with a Rib Fat EBV of +0.4 mm would be expected to produce calves with more fat than an animal with a Rib Fat EBV of -0.6 mm, relative to carcass weight.

## TAKE HOME MESSAGES

Whilst many of the factors that affect the eating quality of a carcass and its suitability for MSA programs are heavily influenced by animal handling and management, many factors are also influenced by the genetics of an animal.

Selection of animals with acceptable temperament, higher Docility EBVs, higher Eye Muscle Area EBVs and appropriate Rib & Rump Fat EBVs can improve MSA compliance, whilst selection of animals with higher IMF EBVs to increase marbling score, higher Growth EBVs to reduce ossification score, higher Rib Fat EBVs to increase carcass fatness and higher Carcass Weight EBVs to increase HSCW at the same maturity, will increase MSA Index values and thus increase the eating quality of your herd.

To further discuss breeding for MSA programs, please contact staff at SBTS and TBTS. More information about Meat Standards Australia is also available from the MLA website

# WORKING AGE YEARLINGS BECOMING POPULAR

---

**In Australia and other parts of the world, there is a trend towards using bulls at yearling age (12-18 months). This allows introduction of superior genetic material into herds a year earlier than normal, resulting in faster genetic improvement.**

---

---

**Their introduction has the potential to allow breeders to extend the working lives of bulls by a year or more, lowering the bulls costs of a herd. This extra workload is achieved at the time in their lives when they are young, lean, fit and exuberant. They are free of the structural problems that beset older bulls.**

---

---

**Yearling bulls have much to offer, both genetically and financially. However, poor management can reduce calving percentages, compromise animal welfare and limit their lifetime potential. In order to harness the immense potential of yearling bulls, special management is required-their age and physiological status demands it.**

---

## SUMMARY

In order to harness the potential of yearling bulls there are three crucial management requirements:

1. Join them either alone or with bulls of the same age.
2. Join yearling bulls for 6-8 weeks (2 cycles) only, then spell them for at least 3 months.
3. After removing yearling bulls from their joining groups, place them on high quality feed in specially prepared paddocks.

Experience has shown that many young bulls have been ruined because they have been joined for too long and under conditions that have challenged their survival. If, at any stage, yearling bulls drop below 2 score condition, they should be withdrawn from their joining group immediately.

# HOMOZYGOUS POLLED EXPLAINED

## THE ASCOT CHAROLAIS POLLED FOCUS

Ascot is devoted to breeding Charolais cattle that are polled but still retain the correct phenotype, carcass qualities and fertility. Polled cattle have sometimes been criticized for losing bone, phenotype and carcass quality and perhaps rightfully so as in the past some breeders may have just bred the polled gene and disregarded the other important traits.

---

**At Ascot we are endeavouring to have the best of both worlds. Great polled cattle.**

---

Over the last couple of years we have made some real headway in this and through testing many of our cattle for the HOMOZYGOUS polled gene at the University of Qld we have found some lines or combinations that produce this gene more readily.

For those of you who are not familiar with the term Homozygous polled it means in summary animals that test with a very high percentage of this gene (say 90% and above) have a very high probability of throwing nearly all calves that are polled or perhaps scurred. This is even if the other parent is horned. The gene once the animal has it is that strong that it can over ride the other parent.

## THE ADVANTAGES OF HAVING POLLED ARE FAIRLY OBVIOUS BUT INCLUDE:

- Time and stress saving (for both animal and owner) not having to dehorn
- Reduces bruising and improves profitability
- Appeases the animal liberation movement
- Attractive cattle at sale time improving demand.

# THE ASCOT ADVANTAGE

**W**e are a customer focused Angus and Charolais breeding operation which aims to deliver low risk, thick, polled bulls, bred with an MSA targeted approach.

Our breeding headquarters are located at North Toolburra Station, Warwick, Queensland. We also have a breeding operation at Glen Innes in Northern NSW. We have around 500 stud breeding females consisting of roughly 250 Angus and 250 Charolais.

We feel strongly that the industry will benefit from bulls that have had been bred under our strict standards.

These strict standards are designed to produce bulls that will improve the long term efficiency and profitability of the beef industry.

When you buy an Ascot Angus or Charolais bull you can be assured that the very best of both modern and traditional methods have been used. The result is progeny that will calve easily, grow, finish quickly and grade highly.

Cattle are our passion and we look forward to hearing how we can work with you. Inspections are welcome at any time by appointment or visit our web site for news and updates.

## PHENOTYPE

Whilst we use the very latest of breeding technologies, phenotype is a major part of our breeding program. Our bulls will be quiet, polled, have great skin type and exhibit, weight, softness and easy doing ability.

## CARCASE FOCUSED

We use ultra sound scanning for EMA, IMF% and fat cover. Combined with weight for age data, this gives us strong information on what our cattle can do. This data is submitted to Breedplan and is also available to clients whilst assessing.

## GROWTH FOCUS

Weight is money. With that said we are focused on cattle that can grow quickly to MSA standards. The added benefit of this is moderate mature cow weight thus maintaining productive and efficient replacement females.

## CALVING EASE

We weigh every calf born. This ensures that the data supplied is 100% accurate. So whether you buy a terminal or a self replacing sire from us you will have an accurate estimation to the weight of your calves. We also record for days to calving, calving ease, scrotal and gestation length.

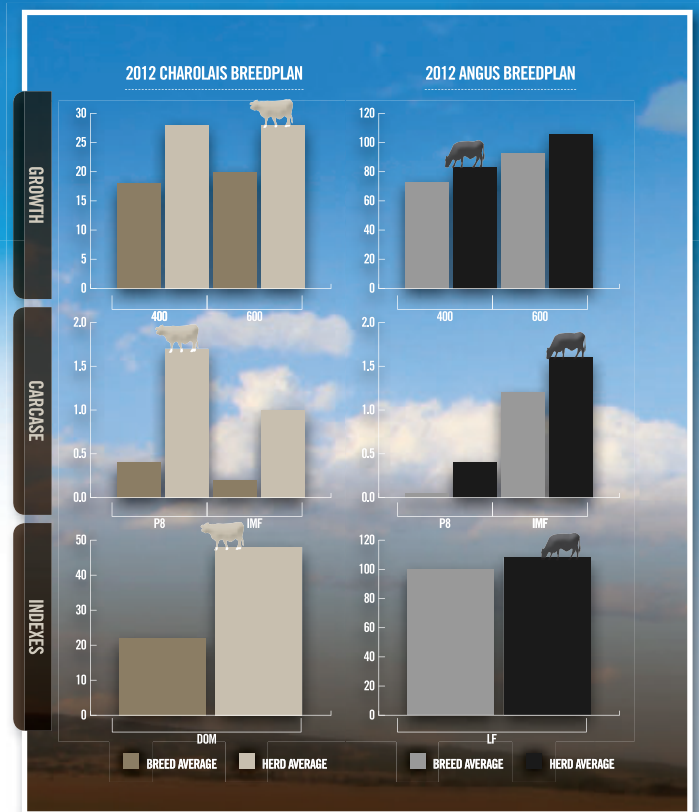

# BETTER BREEDING DECISIONS

**THE ASCOT**  
ALL POLLED BULL SALE

The perfect complement to your herd, Ascot bulls will add kilos, carcase and finishing ability.

The option of 2 breeds provides you with more options and genetic diversity for your herd.

## MARKET FOCUS

MSA grading is the basis to our selection criteria. Our bulls will add carcass value and eating quality to your progeny. We select for positive fat cattle, (for both fertility and finishing) and for cattle that can exhibit marbling.

## INDEPENDENTLY ASSESSED

All bulls are semen tested and vetted for soundness.

## HEALTH

Every bull sold has been vaccinated for Pesti Virus, 7 in 1, 3 Day, Tick Fever, and Vibrio.

## DATA RECORDED

We submit data to Breedplan for the following traits. CE, CE Dtrs, GL, Bth Wt, 200D, 400D, 600D, Mat. Cow Wt, Milk, Scrotal, Days to calving, Carcase Wt, EMA, Rib Fat, Rump Fat, Retail Beef Yield, IMF%, Long Fed, Heavy Grass Fed, Short Fed and Terminal Indexes.

**Sire:** CARABAR DIRECTION B35 E52(AI)

CARABAR HEATHER C5(AI)(ET)

**Dam:** ASCOT B971(APR)

**Comments:** *Top 5% Scrotal Size. Top 10% 200,400,600 Day & Carcase Weights. Top 20% Heavy Grass Fed Index. One of the heaviest bulls in the sale to start off with. Will suit a grass or grain fed breeding program. Very docile, with fantastic weight for age, still with positive fats. Beautifully structured with a slick coat. Very docile. His Sire was a Brisbane Royal Interbreed Champion and his Dam is probably our best Toolburra foundation cow. Dont miss this good bull.*

**Comments: Top 5% Rib Fat, Top 10% Calving Ease, Shorter Gestation Length & Rump Fat. Top 20% Lower Birthweight, Milk & Scrotal Size.** Calving ease, massive weight for age, above average eye muscle & in the Top 5% of the Breed for Fats, this bull nearly has it all. He would suit heifer matings as a bonus. Sired by Booroomooka Theo, who's semen is rare, and out of one of our very best Millah Murrah Donor Cows- Millah Murrah Flower F126. A full ET brother to this bull sold for \$14,000 at last year's Millah Murrah bull sale. We sold embryos from this cow at the Beef 2015 Genomix sale for \$1,450 each. 20% Semen share retained by Ascot. Some semen already collected. 4 Theo sons sold at Millah Murrah this year, one for \$80,000 & three averaging \$12,000. A great opportunity here. One of our favourites & a Stud Sire prospect.

Fantastic spread of EBV's. Nearly couldn't ask for better. A bull with extra length, good bone, softness & a real sire's outlook. He has excellent feet & is docile. Phenotypically correct & was placed 2nd in a very large class of bulls at Beef 2015. His sire is one of the leading AI Sires in Australia & his Dam always has one of the best calves each year. All her heifers have been retained.

One of my personal favourites and I think, a potential Stud Sire.

**Dam: PERTANGUS C123(AI)**  
 PERTANGUS Y13(AI)

**Comments: Top 1% Scrotal Size. Top 5% Shorter Gestation Length, Rump Fat & Heavy Grass Fed Index. Top 10% Calving Ease, Milk, Eye Muscle Area, Rib Fat, Angus Breeding & Domestic Indexes.** This bull has been a "Look at me" Bull since a calf.

He would have to be the easiest doing bull of any breed I have seen. He gets fat easily on dry hay. He is a true, Heavy Grass Fed Index trait leading bull. He is in the Top 5% for positive fats, and the Heavy Grass Fed Index matches with this. He is so deep and thick, and full of meat. A real keg on legs. Nearly over 1,000 Kg in a moderate framed Bull. This is efficiency. Could suit Stud or top commercial herd. By the \$54,000 Irelands Gapsted Bull, who has sired 4 Stud Sires so far, and out of a moderate cow that has bred a keeper every year. A very gentle natured Bull.

## LOT 22 ASCOT BERKLEY J318(APR)(AI)

CALVED: 21/08/2013

IDENT: QQFJ318

GENETIC STATUS: AMFU, NHFU, CAFU, DDF

TE MANIA YORKSHIRE Y437(AI)  
**Sire: TE MANIA BERKLEY B1(AI)**  
 TE MANIA LOWAN Z53(AI)(ET)

**Dam: ASCOT Y297(APR)**

**Comments: Top 5% Shorter Gestation Length & Days to calving. Top 10% Calving Ease & Angus Breeding Index. Top 20% Rump Fat & All other Indexes.** We have had great success with our Berkley sons. Last year two ET Berkley sons topped the sale at \$13,000 & \$11,000. A full brother to this bull sold at our 1st sale for \$14,000. He has extra length and a top weight for age.

## LOT 23 ASCOT GAPSTED J364 (APR)

CALVED: 14/09/2013

IDENT: QQFJ364

GENETIC STATUS: AMFU, NHFU, CAFU, DDFU

KAROO W109 DIRECTION Z181  
**Sire: IRELANDS GAPSTED G25**  
 IRELANDS WARGOONA C52

**Dam: ASCOT X325(APR)**

**Comments: Top 5% Rump Fat. Top 10% Rib Fat. Top 20% Scrotal Size.** A very soft, easy doing bull that should have good longevity. His dam is 13 years old and still going strong. His sire is the \$54,000 Irelands Gapsted - trait leader for positive fat - that we purchased a few years ago. These positive fat bulls really suit the grass fed market. This bull has extra depth and spring of rib like his sire. A balanced set of figures to boot.

# Working Age Yearlings

## LOT 39 ASCOT EMPEROR K318(AI)

**CALVED:** 14/08/2014

**IDENT:** QQFK318

**GENETIC STATUS:** AMFU, NHFU, CAFU, DDFU

TE MANIA BERKLEY B1(AI)

**Sire:** TE MANIA EMPEROR E343(AI)

TE MANIA LOWAN Z74(AI)(ET)

MILLAH MURRAH EQUATOR D78(AI)

**Dam:** MILLAH MURRAH WARGOONA F149(AI)

HAZELDEAN Y176(AI)(ET)

**Comments:** *Top 1% Scrotal Size. Top 5% Angus Breeding Index, Heavy Grass Index and Less days to Calving. Top 10% 400 & 600 Day Weights, Rib & Rump Fats and Milk. Top 20% 200 Day Weight.* First of the working age yearlings, and one of the best. Sired by the \$91,000 Te Mania Emperor Bull, and out of a top line Millah Murrah Female. Top of the tree pedigree. Absolutely balanced set of EBV's - positive calving ease, lower birthweight, in the top 10% of the Breed for weights, positive eye muscle area, fats and marbling. Thick and soft. We really like this bull. He will suit the Grass fed market well. He should suit heifer matings or cows. Remember a bull like this could bring twice as much as a 2 year old next year. Buy these yearling bulls now, use them wisely and you will save.

**TRAITS OBSERVED:** GL, BWT, 200WT, 400WT, SS, FAT, EMA, IMF

Top 15% 200 Day Weight, Rib Fat & Scrotal Size. Top 25% Calving Ease & Carcase Weight. Last of the Angus and this is one of our favourites. By one of the Angus Breed's leading Sires - the \$91,000 Te Mania Emperor. This bull displays many of the traits of his sire. Fantastic balance of EBV's with great weights, positive fat and marbling. Also he should have longevity as he is out of an 11 yr old Foundation cow who is still breeding a good calf every year. Last chance for a great bull. Look at his weight at only 15 months. Possibly one of the best Angus yearling bulls in the sale.*

# CHERISH FOUNDATION AUCTION

---

## **Ascot Cattle Co. are proud supporters of Cherish Women's Cancer Foundation**

---

Cherish Women's Cancer Foundation's primary goal is to fund clinical trials that result in better treatments for gynaecological cancers that can be developed and implemented. There are 1000 women in Queensland diagnosed with a gynaecological cancer every year in Australia – that's 1 in 23 women.

A third of these women will pass away from their cancer diagnosis and in this day and age, this just isn't good enough.

We need to find kinder ways to treat women – our sisters, mothers and daughters deserve better.

---

To show the power of cross-breeding, there will be three Charolais/Angus cross steers on display at the sale.

These will then be auctioned; with the highest priced steer's proceeds being donated to "Cherish".

---

## **Auction will take place between selling of Angus and Charolais Lots**

---

 GRAND CHAMPION CHAROLAIS BULL AT BEEF AUSTRALIA 2015  
 GRAND CHAMPION CHAROLAIS BULL AT BRISBANE ROYAL 2015  
 By our home-bred Homozygous Polled Sire - Ascot Eldorado, out of one of our Top 3 donor Dams in the herd - Palgrove Estella 291. We think this Bull is magnificent. Huge rounded hindquarter, super smooth shoulders, great

length & deep flanked. Moderate frame on perfect bone, with great feet and legs. He moves effortlessly.  
 A Bull we struggle to part with. 50% Semen share & 50% semen Marketing rights, will be retained by Ascot. Semen has already been collected for in-herd use. This could be a once in a generation Sire, that can win Grand Champion at 2 major shows and be homozygous Polled and Red Factor with top carcase traits. We try to buy these types of bulls for our stud and can't find them. Your opportunity here to buy the best. This is the best Charolais Bull we have bred.

**Comments: Top 1% Retail Beef Yield. Top 5% 200,400 Day Weights & Eye muscle Area. Top 10% 600 Day Weight & Milk.** If you missed the last Ascot Eldorado son in Juggernaut, then have a look at this bull !! He is one of my personal favourites. A Red Factor bull we really like. Free moving, with Breed leading weight for age, eye muscle & retail beef yield. These Eldorado Bulls have that extra something. Extra muscle and bone & a real Sire appeal with those great hooded eyes. He could suit Stud duties or be a top commercial Sire. A hard to beat combination - Polled and Red factor. He is one of the best bulls in the sale.

**DNA TESTED HOMOZYGOUS POLLED 100%**

One of our Favourites. EBV's you can't ignore for all the carcase traits. He has phenotype & weight for age, with Fat cover & IMF scans to back it all up. Puppy-Dog quiet. Stud Sire potential. We have used him over heifers & cows already, and have calves just born now. We will retain a semen share. A lovely soft gentle Bull, not to miss. Out of one of our Top 3 Donor Cows in the herd Gobongo Juliette who was interbreed Champion at Brisbane Royal and bred many top priced bulls for us. Hard to part with. And remember Homozygous Polled as a bonus. A joy to have in the paddock.

# LOT 57 ASCOT LONG DISTANCE J10E (AI) (P/S)

CALVED: 29/07/2013

TATTOO: JAJJ10E

COLOUR: White

HORN: Polled Scurred

Sire: LT SILVER DISTANCE 5342 (P)  
 LT LONG DISTANCE 9001 (P)  
 LT BELLE 7026 (P)  
 LT RIO BRAVO 3181 P M665507 (P)  
 Dam: ASCOT JAJG0162 (AI) (ET) (P)  
 ROSEDALE REBECCA Y7 (P)

**Comments: Top 1% Scrotal Size, Rib & Rump Fats, Terminal Index and Shorter Gestation Length. Top 10% Calving Ease, Lower Birthweight, 400 & 600 Day Weights, IMF, Domestic & Export Indexes. DNA TESTED HOMOZYGOUS POLLED 98%.**

*This bull is a meat machine. So thick and deep, and soft at the same time. Near perfect balance of EBV's. Top 10% of the Charolais Breed for Weights, above average eye muscle, Top 1% of the Breed for fat and high marbling. Huge scrotal. He placed second in his class at Brisbane Royal this year. He drew a lot of attention at Beef Australia 2015, in Rockhampton, as well. One of our definite favourites and would suit Stud duties or be a top end commercial sire. Semen has been retained by Ascot for in-herd use.*

*Another of our favourites here, combining a carcass trait leading sire in Rio Bravo with a Sydney Royal Show winning female. His dam is Gobongo Georgina - a Sydney Royal Grand Champion female and overall Best Charolais exhibit. An XR8 grandson. This bull exhibits his dam's extra capacity & bone, with a great sire's outlook. Stud sire potential. Fantastic weight in this bull, being one of the heaviest in the sale. It is hard to get these large capacity bulls that are homo polled!!! Don't miss out on this special bull.*

 GOBONGO GEORGINA Y21E (P)

**Comments:** *Top 10% 600 Day Weight, Top 20% 400 Day Weight, Scrotal Circumference, Carcase Weight, Export & Terminal Indexes.* This Bull will mature to a larger framed bull, by one of our resident Homozygous Polled sires - Paringa Western Spur D196E, who is one of the longest Charolais bulls I have seen. His Dam - Gobongo Georgina - is a Sydney Royal Grand Champion Female and overall Best Charolais Exhibit. This Bull is a maternal brother to Lot 58. A powerful bull with a strong pedigree.

**TRAITS OBSERVED:** CE, BWT, 200WT, 400WT, 600WT, SS, FAT, EMA, IMF

▶ Video of Lot 82 available at ascotcattle.com.au

**Comments:** *Top 1% 400 Day Weight & Scrotal Circumference. Top 5% 600 Day Weight, Milk Rib & Rump Fats, IMF and all Indexes. Top 10% for 200 Day Weight.* First of the 18 – 21 month old Bulls. And what a beauty! Look at his weight for age and softness. This Bull demonstrates what we call "Balanced EBV's", with above Breed average for lower birthweight to top 1% for 400 & 600 day weights. In the top 5% for Fats and Marbling. These positive fat bulls will suit the grass fed market and add real value to their progeny. He is by our homegrown sire Ascot Gunn, who we sold to River Run Charolais. He is breeding very well for them. This bull should also suit heifers as a bonus as well as cows. A great young sire here. **STUD SIRE POTENTIAL.**

**Comments: Top 5% 200 & 400 Day Weights. Top 10% for Shorter Gestation Length, Eye Muscle Area, Rib & Rump Fat, IMF, Domestic & Terminal Indexes. Top 20% 600 Day Weight & Export Index. DNA TESTED HOMOZYGOUS POLLED 98%.** Now this is a bull we really like!! Would have kept him but he is too closely related to many of our breeders. He was 1st in his class at the Brisbane Royal, ahead of Lot 86, this year. A very sirey type, with great softness, fleshing, thickness and depth of flank. One of the most balanced set of EBV's you could want, to add value to a stud or commercial herd. Moderate birthweight, Top 5% for weights, eye muscle and marbling. Big Scrotal. All this plus Homozygous Polled. His dam is the dam of Ascot Eldorado, sire of lot 54, Ascot Juggernaut. His Sire is our top line home bred homo polled sire - Ascot Goldrush. We believe Kingmaker K11E is the first IVF Charolais Bull to be sold in Australia. TOP STUD SIRE PROSPECT, and should suit heifers as a bonus. A very versatile Sire here. 20% semen share will be retained by Ascot.

Dam - Gobongo Isabella

**Comments: Top 5% 200, 400 & 600 Day Weights & Milk. Top 10% Terminal Index. Top 20% Scrotal Circumference.** Last of the Eldorado sons here. Another Red, Polled powerhouse. Out of one of our top Donor cows Gobongo Juliette. She is a Brisbane Royal Interbreed Champion cow. We believe this is the 2nd IVF CHAROLAIS BULL TO BE SOLD IN AUSTRALIA. His egg was retrieved while his dam was pregnant, then fertilised. He placed 2nd in his class at the Royal Brisbane Show this year, behind Lot 84, Ascot Kingmaker K11E. Another bull that was attracting a lot of attention. He is a paternal brother to Lot 54 (Ascot Juggernaut) and maternal brother to Lot 56. Don't miss this chance for an Eldorado bull, Red & Polled as a bonus.

Dam - Gobongo Juliette

# HOW TO GET THERE

## Coming from Toowoomba

- From the New England Hwy at Allora, turn right into Allora Dve.
- Stay on this road through Allora continuing south towards Warwick for 15 km.
- North Toolburra is on your right

## Navigating by GPS

- If navigating by GPS:  
Enter 1123 Warwick-Allora Road,  
Massie

## Coming from Stanthorpe

- Coming in to Warwick on the New England Hwy, go straight ahead at the 1st set of lights (at Wood St.).
- Continue straight ahead along Rosehill Rd, past the Racecourse, and past John Dee Meatworks.
- Follow this back road to Allora for 9km past the meatworks.
- North Toolburra is on your left.

QUEENSLAND LIVESTOCK AGENTS ASSOCIATION LIMITED

# STANDARD STUD STOCK - AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Conditions 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
  2. The sale will be conducted on a "Sale" or "No Sale" basis, whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
  3. The details of the purchaser, the purchase price and the lot sold as recorded by the Sale Clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
  4. The auctioneer expressly reserves the right, without giving any reason therefore to:-
    - (a) Refuse to acknowledge any bid;
    - (b) Withdraw any lot or lots before or during the sale;
    - (c) Exclude any person from the auction venue should it think fit.
  5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
  6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these conditions as made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
  7. In the event of any dispute in respect to the sale of any lot:-
    - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions;
    - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
    - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
    - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
  8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
  9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidders' offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated and until property shall pass, the purchaser shall hold such lot as Bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
    - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
    - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate and two percentum. For the purposes of this condition, the expression "The AMBA Bill Rate" is the rate published by the Australian Merchant Banker's Association in good faith as at the date of the sale as its Bill Rate for 180 day Bills of Exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the auctioneer shall determine and advise the purchaser for the interest rate to apply for the purpose of this condition.
  - (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
  10. If the purchaser shall neglect or fail to comply with any of the within conditions any lot purchased by him may be immediately resold by Public Auction or Private Contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
  11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
  12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
  13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however that this condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
  14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
  15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
  16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
  - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
  17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
  18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
  - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
  19. DELIVERY. Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
  20. In these Conditions:-
    - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
    - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
    - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
    - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
