SALE INFORMATION

CLASSIFICATIONS

All rams and ewes have been inspected by 3 different inspectors prior to the sale and meet the breed standards and we are confident that we are offering quality animals for sale. All the rams have been through a strict classification in February by Mr Wikus Cronje & at the end of July by Mr Rikus van der Merwe, Westfront Dorper Stud, Britstown, South Africa. The final selection of ram typing was done on the 22nd August 2016 by Nick Pagget from Winrae Dorpers.

No Colour Guarantee

Due to the nature of genetics White Dorpers can be known to occasionally throw colour. As this is out of our control, we cannot guarantee that our rams and ewes will breed only pure white lambs.

HEALTH

Dell, African & Dumisa Dorpers & White Dorpers are Ovine Brucellosis accredited flocks. All rams in the sale have been blood tested negative for Brucellosis. All sheep are within the Riverina Biosecurity area & from a flock not infected or suspected of being infected with Ovine Johnes Disease. All rams and ewes have been vaccinated

with Glanvac 6-1 and Cydectin LA injectable drench in August 2015. Dell, African and Dumisa Studs are all dermatosparaxis free flocks.

FREIGHT AND TRAVEL

We are willing to hold animals for a reasonable period of time at the buyers risk to allow or coordination of transport. We can provide recommendations of suitable stud stock carriers and will assist wherever we can for a safe and efficient transport of animals to your home property.

DELIVERY

Landmark agents will be handling the delivery of rams & ewes after the sale. **NO stock will be loaded until after the sale is completed.**

FERTILITY GUARANTEE

All rams are sold with a guarantee of being fertile. Any claim against the breeding ability of an animal purchased should be made within six months of the date of sale. The guarantee covers the purchase value of the ram. The guarantee does not cover infertility due to injury or disease contracted since the sale of the ram. Insurance covers this. A veterinary certificate would be required in the case of infertility. The ram shall be returned in the event of an animal failing to be fertile and either be replaced with an animal of comparable value or a credit to the full purchase price will be given at the following sale or on a private sale animal (if available).

INSURANCE

Animals will become the responsibility of the purchasers at the conclusion of the sale. We strongly recommend insuring your animals after the sale. Insurance can be arranged with Landmark as required.
