Invitation

Welcome to our 2016 sale catalogue.

For us 2016 is a major milestone and a time to reflect and give thanks. In 2006 we took over the management of the Eidsvold Station herd and a staged purchase of the land and cattle followed. 2016 was the culmination of over a decade of planning and work, as we proudly announce the final acquisition of the Eidsvold Station holdings.

We are hugely grateful to Anthony and Sally Coates for the opportunity to build on their legacy and standing by us during some tough years.

Bill Gates said 'most people over-estimate what they can do in a year and under-estimate what they can do in a decade.'

There were years when we felt we had little to show for the hard work. In 2011 and 2013 we were hit by floods – leaving destruction in their wake, a drought in 2014 and the Australian cattle market collapse.

We're honoured to have an amazing team of talented staff who dig deep every year and thank them for being a part of this journey.

So here we are at the end of the decade, enjoying a great chapter in the beef industry and excited about the opportunities the future holds!

Focus on profit levers will maximise the gains from current prices. Genetics are a powerful lever impacting the bottom line by:

- Reducing cost per calf, with bulls that are structurally fit, fertile and reared for a long working life;
- Reducing inventory days with genetics that finish easily at a younger age with more kilos;
- Producing consistent lines that and hit the top of the grid, reliably with superior performance and high gross margins
- Breeding functional fertile daughters that maximise their efficiency of turning pasture into kilos of live calf weaned

The end result is a herd of functional, fertile females that perform well on tough country, and males with rapid growth and ability to finish as export or domestic cattle between 12 and 24 months of age.

We are grateful for your support over the years and are committed to delivering genetics for the Northern Beef Industry which will serve your businesses and produce a low cost, high-return, self-replacing herd.

Our 2016 draft is jam-packed with fit, functional, fertile bulls produced from a stud herd of over 1500 classified stud cows. We are proud of the constitution, easy finishing, market versatility, fertility, carcase traits and muscle exhibited through the line.

Join us at Eidsvold on Friday September 16, at 12.00pm as we offer 120 bulls. The draft includes 85 poll/pollscurs and 89 Classified S bulls. The bulls have been reared at Eidsvold and Cardowan under two similar regimes, albeit slightly different temperatures which is reflected in their coats at time of photos. We are tested negative for BJD and offer free delivery to major selling centres. The sale is interfaced with AuctionsPlus. We are delighted to be working with Elders, TopX and GDL RuralCo again. Our intention is to make your investment in bulls easier, convenient and tailored to your markets, country and budget – please let us know how we may assist.

All are welcome to our VERY casual BBQ, at Eidsvold Station the evening before the sale.

See you at Eidsvold

Rick & Alice

Melanie Faith Dove.

Benelkay Hebrew (P) has had seven calves of which three have classified.

Benelkay Firestone was purchased in 2011 for the top price of \$32,000 at the Benelkay Fishington Sale.

In the working department, this clean-sheathed bull is 43 cm in the testes and had a semen morphology of 81%. This combination of growth, muscle, softness, ability to lay down fat and fertility traits is the type of genetic package that we are targeting to return profits to the beef industry. We have retained a number of his sons for stud use.

Previously, Firestone's only son offered for sale was Greenup Firestone K270 (P), who sold to the Pampling Family for \$8500.

Benelkay Firestone F31 (P) is represented by Lots 13, 33, 36, 37 & 100

Farrer was purchased at the 2012 Ag-Show for \$13,000.

He is a homozygous poll bull, with good growth, stones and a semen morphology of 83%.

With strong knowledge of the pedigree and the genetics this bull carried for fertility and growth, we were confident in the package. Farrer is being used in the Greenup Stud Herd.

To date three sons of Farrer have sold to average \$6500

Clanricard Farrer 010 (PP) is represented by Lots 20, 79 & 80

Friar Tuck was purchased at the inaugural Cooinda Annual Sale in 2011 for the top price of \$10,000.

His structural correctness, overall muscularity, and thickness through the hindquarter stood out. He is a poll bull.

We tested Friar Tuck's semen and were pleased with his 94% normal semen morphology and assessed his scrotal size at 39cm. Friar Tuck has impressed us with his constitution, holding his condition well after his breeding seasons and through the drought.

Cooinda Friar Tuck F128 (P) is represented by Lots 4, 8, 22, 27, 29, 32, 71, 77, 110 & 119

Tycoon was purchased at 2011 Dangarfield Annual Sale for \$17,000. Tycoon stood out from the rest of the sale team for his thickness throughout his body, wide topline and powerful hindquarters. He has grown into an impressive bull and handles the forest country with ease. His 400 and 600 growth EBVs and Domestic and Export Indexes place him in the Top 1% for the breed.

Tycoon is a gentle quiet bull.

Tycoon demonstrates the softness in himself that we are looking for to maintain the finishing ability in our sons and fertility in our daughters. Tycoon is a poll bull.

We have assessed Tycoon's scrotal size at 41 cm and his semen morphology at 83% normal. To date, 16 sons of Tycoon have sold to average \$5780. With a Greenup Jagger selling to Rosevale Stud for \$9,500 and another selling to Bingcliff Pastoral for \$12,500.

Eight sons have been retained for use in the stud herds.

Dangarfield Tycoon (P) is represented by Lots 5, 6, 7, 9, 10, 11, 12, 15, 21, 23, 87, 93, 97 & 102

Dam calving dates: 9/09/2004 19/09/2007

Debonair (Poll) is a moderate framed bull with explosive growth - characteristic of his sire X90 - who was a trait leader for weight, scrotal size and carcass weight.

Debonair's Days to Calving EBVs place him in the top 1% of the breed for this trait.

Debonair is a reliable sire, with incredible consistency in his progeny who continue to display his fertility, tidy sheath and terrific weight for age. This bull demonstrates incredible constitution and doing ability.

He breeds, honest consistent cattle, with the genetic package that can take you where you want to go. His fertility traits of scrotal size and days to calving (DTC) EBV, Domestic and Export Indexes, are in the top 1%

This sire was used extensively in our Greenup breeding programs until damaging his hip in 2013. We will continue to use this sire through AI.

Debonair sired Greenup Carlos H18 (PP) - a homozygous bull, who sold to Geoff Goodland's Wightfield Stud for \$15,000 in 2013. Another homozygous polled son, Greenup Jordan J204 (PP) sold to Mark & Chloe Madew's Cundara Stud in Western Australia in 2014.

We have retained a number of his sons in the stud herd, Greenup Giant G170 (P), Greenup Garrett G176 (P) Greenup Hammer H20. To date 17 sons have sold to average \$6235.

Eidsvold Station Debonair D48 (P) is represented by Lots 43, 57 & 113

Epic (Poll) is the Eidsvold Station poster boy, the face of the catalogue and billboard in Eidsvold. Epic was our pick of the 2008 drop bulls. This sire has consistent semen morphology above 95%. Bred in our AI program, this son of Noddy has impressed us with his high growth, high yielding carcass attributes and very trim sheath. Epic's EBV for eye muscle area is the Top 1% for the breed.

This bull has a desirable combination of growth, muscle and finishing ability.

Four of sons have sold to average \$5625.

Eidsvold Station Epic E50 (P) (AI) is represented by Lots 51, 94 & 105

Another son of X-Cel - like Debonair, Figaro brings the trademark fertility and growth of this sire line, bred out of one of the Station's superior fertile dams - he was kept to perpetuate the consistent X-Cel line. A number of sons have been retained and these are the first to be offered for sale. Figaro has 89% normal semen and is 43cm in the testicles. His EBVs for SS are in the Top 5%

Figaro is a dark coated bull, with big bone and a kind temperament. He is being used in the Greenup Stud

Dam calving dates: 15/08/2011 15/09/2012 16/11/2013 28/09/2015

Eidsvold Station Hurricane (PP) was an homozygous poll. This an exciting new genetic line, offering real depth of breeding with the stellar combination of Eidsvold Station Zoro Z188 (P) and the formidable Wave Hill Major. This is a powerhouse of a bull, with a highly desirable set of figures including high growth and low days to calving - giving the beef industry that ideal combination of growth and fertility. Hurricane is homozygous poll.

Hurricane H60 (P) (AI) was bred in the 2011 AI program. Major sold to Strathmore Stud for \$44,000 in 2001 and he has become one of the greatest impact sires of the breed, offering that ideal combination of growth and fertility.

Hurricane's EBV for growth are in teh Top 5% of the breed, which is coupled with his desirable Days to Calving EBV, which is in the top 15%. His Domestic and Export Indexes are in teh Top 1% for the breed.

We retained Hurricane from the 2014 sale draft. Unfortunately he became ill with an infection and has had a short breeding life - a huge loss to the stud and the breed.

Eidsvold Station Hurricane H60 (P) (AI) is represented by Lots 98 & 99

We think a lot of this young sire. Garrett was retained for his combination of fertility and growth traits and consistency of the Debonair line. Garrett's stones are 39 cm and his percent normal semen is 91%. Garrett is in the Top 5% for scrotal size EBV and domestic and export indexes He is in the Top 10% for Days to calving and the top 5 and 10% for growth. This is the genetic combination that hits the bullseye for breeding an ideal self replacing herd in the northern Beef Industry and this is a line we will proliferate to serve the industry bottom line.

2/08/2011 16/09/2012 14/11/2013 18/01/2015

Fitzgerald is a high growth sire that stands out amongst his peers. The raw figures on this bull at 600 days, off pasture, tell the main story why we kept this bull - at 600 days Fitzgerald weighed 804 kg, had an eye muscle area of 126 cm and 16 & 9 mm fat measurements - *off pasture!*

Fitzgerald offers growth with easy doing ability and he handles our tough forest country like it's scrub country.

Fitzgerald's EBVs place him in the Top 5% for growth and scrotal size and Top 10% for Eye Muscle Area (EMA)

Without doubt this is an exciting sire, with a unique combination of the attributes of fertility, growth and most of all, constitution - this package is wrapped up with an incredibly docile temperament.

To date 11 sons have sold to average \$5363. One son, Greenup Justice J20 (PP) - a homozygous polled bull, sold to Dunlop Stud for \$12,000.

Greenup Fitzgerald F144 (PS) is represented by Lots 25, 45 & 86

Lexus is a homozygous polled bull.

Lexus is a quiet natured bull, with an early maturity pattern, and a good ability to lay down fat. This future sire has a clean, tropical coat to complete the package.

This tremendous Bingo-Downpour (Ability) cross demonstrates the fertility, muscle and softness we expect from these lines.

This sire prospect has a low Days to Calving, as expected from Bingo-Downpour cross and this is coupled with his tremendous ability to lay down fat - with EBV for fat in the Top 5% of the breed.

G283ES (P) has had three calves in three years.

Liberty is true sire material. This polled son of Figaro, comes from the fertile X-Cel X-90, and demonstrates the carcass characteristics we expect from a Greenup Exceptional dam and the proven performance of the dam line.

Liberty is a thick bull, with lovely, quiet temperament. This is an easy doing sire, with explosive growth and easy finish. Liberty is a dark-coloured bull with a slick, tropical coat. This is a big-boned bull, with great spring of rib and a square stature. His Days to Calving place him in the Top 10% of the breed.

Liberty is Henna's first calf. Her last is a stand-out weaner bull by Atom and she is PTIC.

Zene Z86 (P) is a daughter of the prolific Rosevale Edgar Y69. Zene had seven calves in seven years. One son by Handyman, sold for \$6000 to A Clifford and another high growth son, by Tycoon, sold to E Cooke for \$6000 in 2014.

What a package! Lord is a polled bull with a kind eye and an even, smooth finish. This is a young bull with a quiet nature and will make a great contribution to the breed.

Grace G377 (P) calved first as a two year old and had three calves in three years. Her first son, Eidsvold Kinsman K444 (PP) was a homozygous polled son of Fiesta and sold to N & S Griffin for \$12,500 in 2015.

Lord is her second son to be offered for sale. Her last is a growthy heifer by Greenup Jackpot J208 (P) - a sire with a lot of punch

Dam calving history: 15/11/2013 6/11/2014 15/10/2015

Levi is another polled son of Friar Tuck with tremendous muscle power and a thick top-line.

H35 is a pollscur daughter of the breed legend - Wave Hill Major M85 (P). H35ES (PS) calved first as a two-year old, had three calves in three years. She boasts a DTC (days to calving) EBV of -5.8, the Top 10% in the breed and an intercalving interval of 349 days - a commendable effort in a drought. Levi is her first son to be offered.

Livingston is a young bull with good bone and smooth even finishing ability and a quiet temperament.

Livingston is out of a maiden heifer. Zita H85 (P) had had two calves in two years and is PTIC. Her last is a weaner bull by Atom.

Zita Z55 (P) calved first as a two year old and had eight calves in nine years - seven daughters.

Logan is a polled bull with excellent mobility and high yielding carcass attributes.

Carla C103 (P) has had five calves in six years - failing to conceive in 09 drought. Her first son to be offered for sale, was Lot 13 in 2011, he injured his back and was withdrawn. Her second, Greenup Carlos H18 (PP) was a standout sire prospect - a homozygous son of Debonair, selling to G & J Goodland's Wightfield Stud for \$15,000 in 2013. Another son Kolossal K212 (P) sold to E Cook in 2015 for \$7500. Her last is a heifer by Hurricane and she is PTIC.

Rural Accounting & Consulting

For 60 years Alands Accountants have been providing business services to rural Queensland.

With our origins in Dalby, Alands now service clients in and around major regional areas such as Rockhampton, Longreach, Goondiwindi and Roma.

We specialise in family cattle and grain production businesses and our team offers comprehensive solutions for complex agricultural issues.

Beyond the traditional compliance services, we also provide tax and succession planning, self-managed super funds, buying and selling business advice and due diligence, and QRAA application assistance.

To find out how we can help your business, talk to any of our friendly staff today on 07 3211 8560, or catch up with Dan Sheahan who will be attending the sale.

Level 1, 293 Queen Street, Brisbane QLD

SNAP!!!

Downpour delivers another one. Landcruiser L178 (PP) is a homozygous polled bull. Landcruiser is an easy-doing, big boned bull, with plenty of growth and softness. He has a dark, slick, tropical coat.

Like his name suggests, this bull is bred for all terrains and environments, he is bred to be reliable and last longer.

G77ES (P) had two calves in two years, her first was a heifer, Landcruiser is her first son.

B69 had five calves in five years - all daughters.

SALE INFORMATION

Auctions Plus

Online bidding is available only to registered users. Registration is free - visit www.auctionsplus.com.au to register. Please register at least 48 hours prior to the sale. Microsoft Silverlight is required to connect to AuctionsPlus sales; first time users are advised to visit the Downloads section of the AuctionsPlus website to ensure Silverlight is installed. Demonstration Auctions may be viewed in order for new users to become familiar with the system. Contact us or our agents to discuss how to make your AuctionsPlus bidding fast and effective.

Breeding Soundness All bulls have passed a breeding soundness examination by veterinarian Ced Wise.

Semen morphology All bulls have passed a semen morphology test

Health All bulls have been vaccinated with PestiGuard, 7 in 1, Vibrio, 3-day and 3-Germ blood for tick fever. Annual booster shots recommended next July.

All Sale cattle have been pre-treated for ticks and are ready for tick-free country.

Buyers Inspections Cattle may be inspected any time prior to the sale by arrangement with the vendor or selling agents. All sale lots will be on display at sale venues on morning of sale from 7.00 am.

Supplementary Sheets Supplementary sheets will be on our website: www.greenup.com.au and also available at the sales with semen morphology results, scrotal sizes, raw weights, daily weight gains and scan data for eye muscle area, rib fat and rump fat.

Brands Symbol Brands:

All Greenup cattle and Quarter Horses are branded with Wings over Nought.

Eidsvold Station cattle are branded with Half Circle J

Number Brands: Greenup Eidsvold Station bulls are branded with even numbers and heifers with odd numbers.

Guarantee Our bulls are guaranteed as breeders at time of purchase, however we accept no responsibility in the following circumstances:

- Injury or disease that occurs to animal after the sale;
 - Gross negligence or willful misconduct on the part of the purchaser;
- In the event of an animal failing to breed, we agree that;
- The animal may be replaced with an animal of comparable value;
 - Credit shall be given in the sum of the full purchase price, less salvage value;
 - The vendor shall refund the money paid for the bulls.

These options shall be at the Vendors' election and the Vendor shall not be liable for any direct or indirect loss (including consequential loss) whatsoever.

Insurance Insurance representatives will be at the sales and if requested will arrange insurance on the fall of the hammer.

Outside Agents The vendors will pay a 3% rebate to outside agents who introduce genuine "new" buyers in writing at least 24 hours prior to the sale and is paid on previous eligible introductions. Rebate will not apply to existing Greenup Eidsvold Station clients. Settlement by the outside agent on the purchaser's behalf must occur within fourteen days of the sale.

Delivery Delivery will be given and taken on the day of the sale. Cattle waiting for trucking will be held free of charge for one week. Every care will be taken, however no responsibility will be accepted.

Risk & Responsibility Any person attending the sale do so at their own risk and the vendor assumes no liability, legal or otherwise, for any injury, accident, loss or damage to any person or property.

Disclaimer The vendors and agents have produced this catalogue with every effort to ensure the accuracy of the information, however will not be responsible for any errors or omissions.

PRE- SALE INSPECTIONS

Prior to sale day, all bulls are depastured on oats at 'Belvedere' and can be inspected anytime.

Belvedere is situated on the Kerwee-Mt Perry Road, 10 minutes north of Eidsvold township.

To arrange inspection, contact Rick on 4164 4260 or his mobile 0427 644 260.
