Welcome

**We welcome you all to our
23rd Annual Bull Sale to be held
on Property at "Moongool"
Yuleba Queensland, Monday
26th September 2016.**

Our family would like to extend an invitation to join us for a complimentary Beef and Reef lunch prior to the sale and refreshments after the sale. Although we experienced a very dry summer and things were ordinary going into winter, we were fortunate that conditions remained mild and we were lucky enough to be under a shower or two, so we actually survived.

How wonderful that some western areas received good rainfall but sadly some are still living in hope.

Our bulls this year have been prepared on oaten silage which was grown the year before and also a light ration of barley. We are more than pleased with the draft this year - a great line up of sires that will for sure, have an impact on your herd. They are moderate in frame, carry plenty of muscle and have good fat scores.

The Bulls have been vaccinated for 3 day sickness, 5 in 1, germ blood and individually semen tested. The current cattle prices have for sure put a smile on the Grazier's face and not before time, either. So with a buoyant market - what better time to invest in a Moongool Bull. Not too many outings this year - the Ekka has been and gone and our team did us proud with numerous placings which resulted in our stud being the most successful Charolais Exhibitor of the show.

We hope to see you at our sale- trade in some of your old Bulls and replace them with quality, affordable young sires from Moongool. As usual all our cattle carry our guarantee so you can feel quite confident about investing in our Moongool progeny.

Regards,

The Price Family

*Ivan, Helen, Iva, Hunter and Tori
Ian and Dell*

History of Moongool

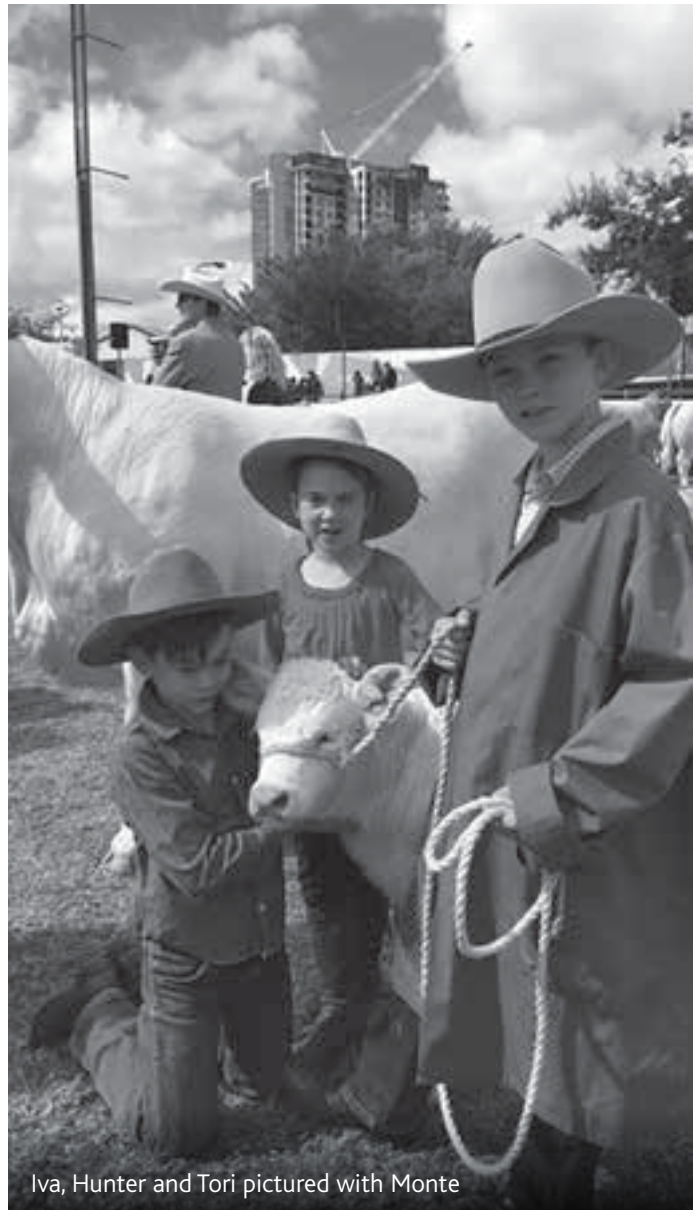

In the 1850s Moongool consolidated holding was composed of the runs of several blocks. In 1884 the "Runs" were consolidated but we're not divided until April 1888.

T.L.N. Fitzgerald obtained the first lease on one portion of the run and acquired depasturing rights on the resumed portion. Moongool, which is only 16km South of Yuleba, was purchased by the Price Family in 1954 for 2/6 an acre. It consisted of Brigalow, Belah, Box and Sandlewood scrub - those were the days! Fences were few and far between. Mustering took place most days with a (newspaper wrapped) lunch in the saddle bag. Those pioneering days are gone and we now have a successful breeding and fattening enterprise here at Moongool. A commercial herd of 1600 Charolais cross cows run at Moongool. The old people (Ian and Dell) also reside there.

Our Charolais Stud was founded in 1985 and the Brahman, Angus and Charbray studs added some years latter. We now have 1200 registered females. In December last year saw the sale of Triangle at Ben Lomond, so our whole operation is now in this district.

Ivan, Helen, Iva, Hunter and Tori live at Noorindoo Surat where the majority of the Stud females run. Located on the Condamine River between Yuleba and Surat is Bookooi. Our other property Leabrae, joins Moongool and here we pasture our weaner heifers each year and farm. This year we planted barley and 3500 acres of oats which has proved most beneficial - Bulls are loving it and silage is about to be cut. This districts rainfall is meant to be around 24 inches. The other member of our family is Alison who has lived overseas for the past 15 years and is still doing medical research in Malawi.

Now you have our family history.

Breedplan & EBVS

Charolais Breedplan ranks the performance potential of animals using Estimated Breeding Values (EBVs) for different traits. EBVs are a measure of an animal's ability to produce superior progeny. They are based on the animal's own performance plus the performance of all known relatives (sire, dam, half-sisters and brothers, etc). **Only Australasian Charolais Group Breedplan EBVs and Interim Group Breedplan EBVs with Accuracies (Acc) can be validly compared between herds in Australia and New Zealand.** (Within herd EBVs from Charolais Breedplan cannot be used to compare between herds.)

ESTIMATED BREEDING VALUES (EBVS) - The EBV for a trait is the best available estimate of an animal's generic merit for that trait.

ACCURACY - Accuracy (%) is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives. As a general indication, accuracies below 75% should be regarded as low, between 76-90% as medium, and above 90% as high. In all cases there is an equal chance of EBVs moving up or down with the addition of further performance information.

HOW TO USE EBVS - The first step is to decide which characteristics are important in your breeding program, then select the EBVs which fit the bill for your herd.

GESTATION LENGTH EBV (days) - This EBV gives an estimate of the number of days from the date of conception to the calf birth date. Lower (negative) EBVs means shorter gestation lengths which indicate easier calving and increased growth to weaning.

BIRTH WEIGHT EBV (kg) - This EBV gives an estimation of the animal's breeding value for birth weight. Use this EBV to select against birth weight if calving ease is a problem. The lower the EBV, the lighter the calves are expected at birth.

200-DAY MILK EBV (kg) - This EBV gives an estimation of the animal's milking potential. The value is calculated from the weaning weights of the animal's progeny and other relatives. The 200-Day Milk EBV is calculated independently from 200-Day Growth. If a bull is to be used to breed replacement heifers and superior mothering and milking ability is required then this EBV is important.

200-DAY GROWTH EBV (kg) - This EBV gives an estimation of the animal's generic merit for 200-Day Growth calculated independently of the maternal milk effect. 200-Day Growth is most important if a bull is to be used as a terminal sire for vealer production.

400-DAY WEIGHT EBV (kg) - This EBV gives us an estimation of the animal's yearling weight potential. Steer producers and lot feeders should place most emphasis on this EBV.

600-DAY WEIGHT EBV (kg) - This EBV is an estimation of the animal's genetic potential for growth beyond yearling age. Heavy steer and bullock producers will be interested in this EBV as it is the best measure of an animal's ability to grow on to maturity.

MATERNAL VALUE EBV (kg) - This EBV is an index of the EBVs for 200-Day Milk and 200-Day Growth.

SCROTAL SIZE EBV (cm) - This EBV is an indicator of male fertility in regards to semen quantity. Higher (positive) EBVs indicate bulls which will breed sons with bigger scrotal sizes and daughters with earlier puberty and shorter calving intervals

RUMP FAT AND RIB FAT EBVS (mm) - Positive EBVs indicate animals which will breed progeny fatter (or earlier finishing) than base animals and the converse for negative EBVs.

EYE MUSCLE AREA EBV (sq cm) - This is currently analysed on an age constant basis so that bulls with high growth and at least average "muscling" have the highest EBVs.

ESTIMATED MEAT YIELD (%) - This EBV is an indicator of carcass composition, (in particular muscle:bone ratio) as distinct from total yield. Bulls which are lean and with bigger eye muscle areas for their age will have progeny with the highest yields. (Note: It is a difficult trait to predict from existing measurements and current equations are only moderately successful, as can be seen by the low accuracy on EMY% EBVs.

The Australasian Charolais GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Charolais Society of Australia Ltd nor the ABRI oversee or audit the collection of this data.

Notice to Buyers

No verbal instructions can be accepted

In the interest of buyers, all instructions concerning the delivery of cattle purchased at this sale must be given in writing and signed by the buyer or his representative.

Buyer's Instruction Slip is provided herein.

INSPECTIONS

Prior inspection of the sale cattle may be made at any time by contacting Ivan Price (07) 4626 5031 or 0428 265 031 or the selling agents.

DELIVERY

Free delivery to some locations in QLD and NSW. Delivery will be given on the day of sale. Cattle waiting delivery will be held free of charge. Every care will be taken in stock staying but no responsibility will be accepted.

HEALTH

Bulls will be vaccinated for three-day sickness, blooded for tick fever (3-germ blood) and 5-in-1. Moongool is a tick free area.

ACCOMMODATION

Accommodation can be obtained by contacting the vendor or selling agents. Moongool is situated 3½ hours from Toowoomba, Theodore and Goondiwindi. One hour from Roma and Miles.

REBATE

4% rebate will be allowed to outside agents introducing approved purchasers (to be received in writing or by fax 12 hours prior to the sale).

PHONES

Congratulations to the Chandler family from "Russell Park" on achieving such a high average rating on the MSA index since 2013 (60.49 Avg). Progeny sired by Moongool Charolais bulls.

mla.com.au

Figure 30 also shows the non-compliance to the MSA minimum requirements by month.

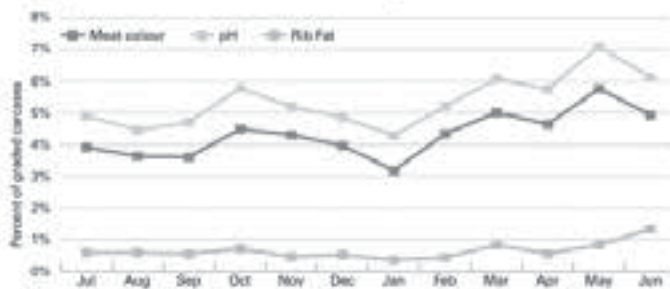

Table 10. MSA Index percentile bands for New South Wales

Band	National	NSW
1	65.74	64.98
5	63.44	62.95
10	62.37	61.00
25	60.58	60.38
50	57.61	57.54
75	55.04	55.42
90	52.52	54.00
95	50.38	53.11
99	46.60	49.80

The average MSA Index in New South Wales was 57.7% compared to the national average of 57.61.

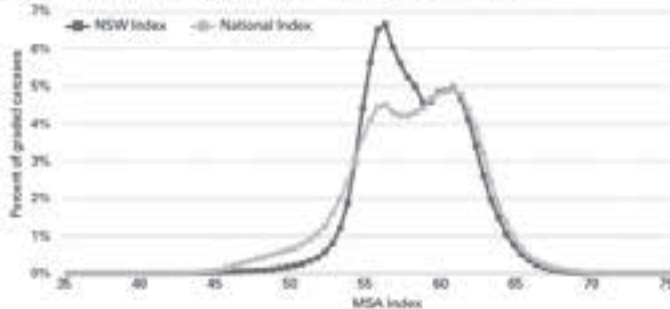

Figure 31 indicates that the MSA Index results for cattle produced in New South Wales has a similar maximum and minimum range as the national population. However New South Wales has a higher proportion of cattle within the range of 55-57. This suggests that there may be a higher percentage of animals with consistently similar carcass characteristics being supplied in New South Wales.

Figure 30. Monthly non-compliance to individual MSA specifications of cattle produced in New South Wales throughout 2014-15

pH and meat colour share a similar pattern of non-compliance. Carcasses can fail to meet MSA requirements for one or multiple reasons.

Figure 31. 2014-15 New South Wales MSA Index distribution

Over 30% of cattle produced in NSW achieved MSA Index scores between 55 and 57.

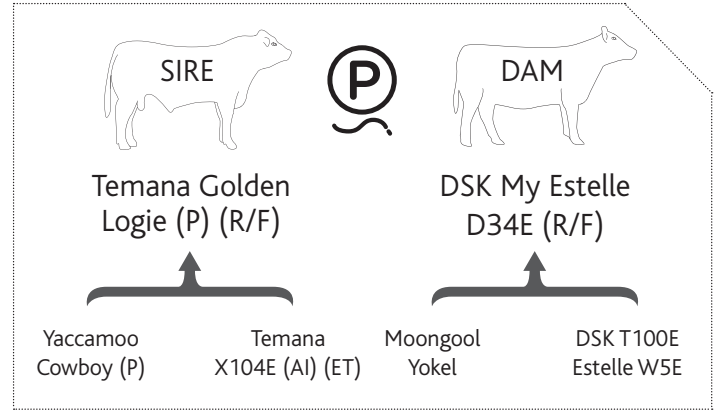

Table 11. Carcass attributes of MSA carcasses in New South Wales in 2014-15

A wonderful polled bull to start off our 2016 sale. The jewel winning Charolais bull from Royal Sydney and Brisbane shows this year. He is the first of the Temana Golden Logie sons we have to offer today. This beautifully balanced young sire shows wonderful weight for age, a great muscle and fat coverage and a nice skin and hair type. He stands on good bone, has great structural correctness and a beautiful temperament. He has a strong pedigree and his sire is a very consistent breeder who passes on wonderful traits to his progeny. We feel that this bull will leave his mark on the beef industry. A 1/8 semen share will be retained in this bull.

This upstanding red factor polled bull is the spitting image of his sire Temana Golden Logie. This sire was awarded senior champion Charolais bull at the 2016 RNA. Standing on strong bone he is deep bodied, extremely long and has a beautiful loose skin and hair type. He has a gentle disposition, soft muscle pattern and plenty of fat coverage that he will pass onto his progeny. He is backed by a very strong pedigree and his dam having had 5 calves in 5 breeding years. A 1/8 semen share will be retained in this bull.

QUEENSLAND LIVESTOCK AGENTS ASSN LTD

Standard Stud Stock - Auction Terms And Conditions Of Sale

IMPORTANT NOTICE

All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
2. The sale will be conducted on a "Sale" or "No Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "No Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
4. The auctioneer expressly reserves the right, without giving any reason therefor, to:-
 - (a) Refuse to acknowledge any bid;
 - (b) Withdraw any lot or lots before or during the sale;
 - (c) Exclude any person from the auction venue should it think fit.
5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.
7. In the event of any dispute in respect to the sale of any lot:-
 - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.
 - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
 - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
 - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
- 9(a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
 - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
 - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.
- (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.
12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.
13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
- 16(a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded. The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
- (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.
17. GUARANTEES OF FERTILITY:-
 - 17.1 BULLS. Save and except for calves at foot, all bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.
 - 17.2 FEMALES. Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf within six months of the date of sale or by the age of 30 months whichever date shall be the later.
A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.
 - 17.3 Claims under Clauses 17.1 and 17.2 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.
 - 17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.
 - 17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.
 - 17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.
- 17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.
- 17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.
- 17.6 This guarantee shall be voided by the purchaser if -
 - (a) The animal is returned to the vendor -
 - (i) in poor physical condition or with any injury;
 - (ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animals fertility or ability to breed naturally; or
 - (b) the purchaser has collected and stored semen from a bull or embryos from a female.
- 17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.
- 18(a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
- (b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
20. In these Conditions:-
 - (a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1;
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

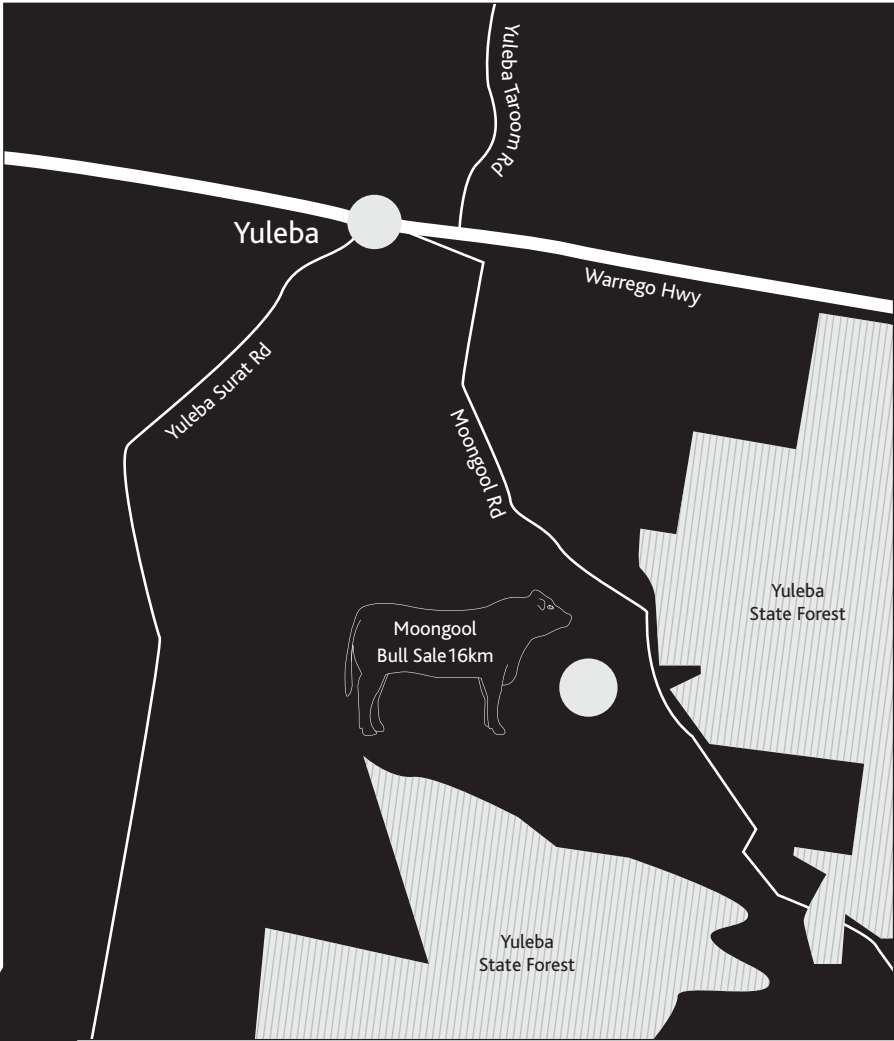

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.

All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur. The hammer price is exclusive of GST but GST will be applied to the final hammer price and included on the invoice.

Location Map

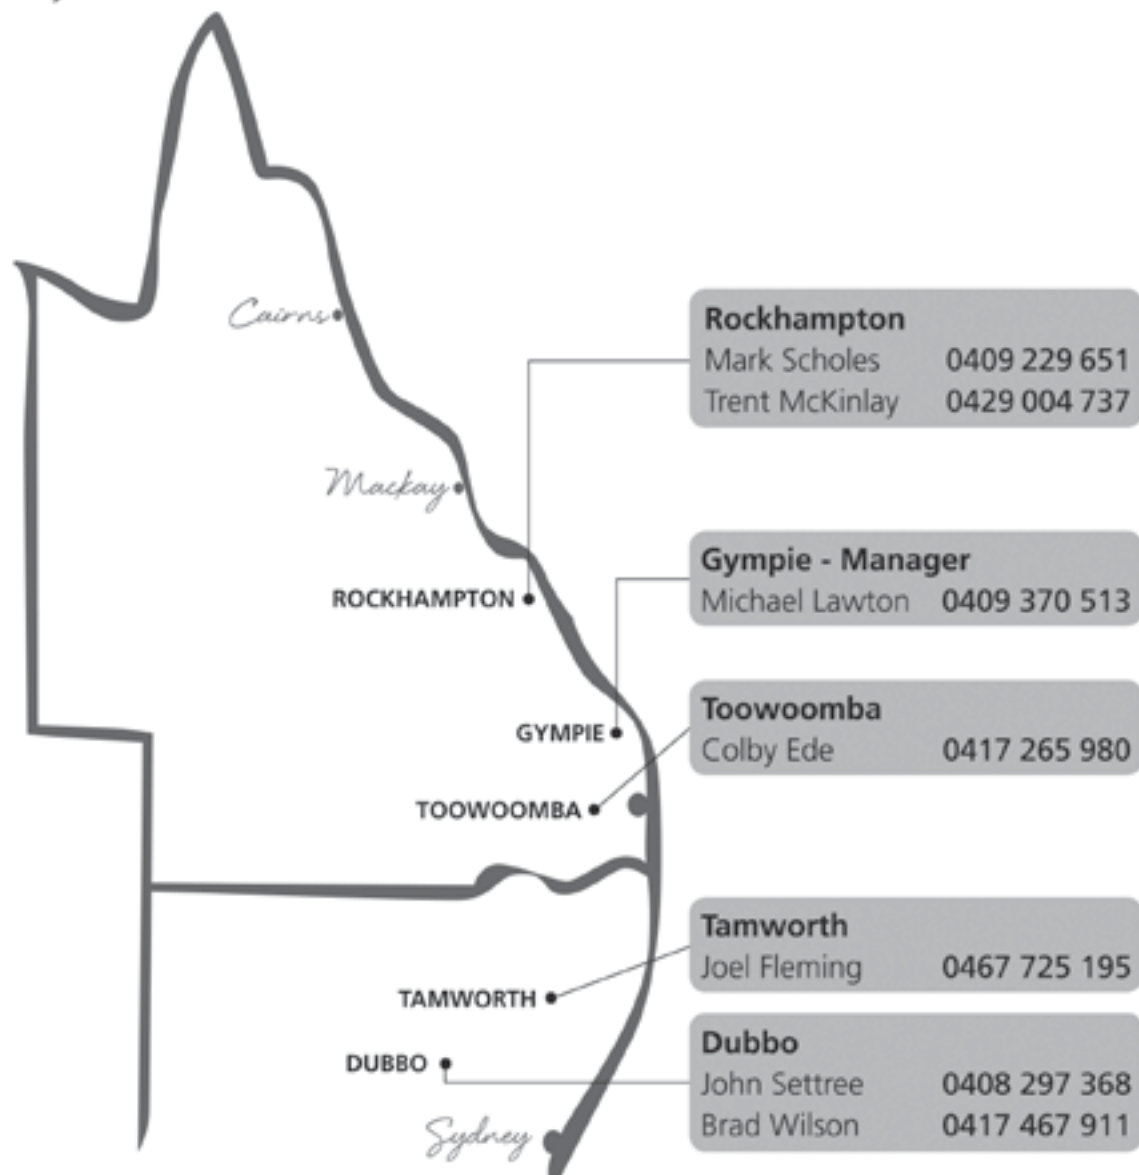

"Moongool" is situated 16km south of Yuleba, off the Warrego Highway.
