

Multi Purpose Merinos

moojepin.com

14th Annual On-Property Ram sale
Katanning

Friday 30th September 2016
At 1.30pm

100 Merino Rams

Brucellosis Free Accredited – Flock Accreditation No.546

A warm welcome to you all. Thank you for attending our 14th ram sale.

What a year it has been for us!

Our Moojepin Dry Aged Mutton business is really starting to gain momentum thanks, in part, to being featured on Landline in August. We now have WA's finest quality food distributor, Peter Manifis, working with us.

Peter and I have just returned from exhibiting at the Fine Food Australia Trade Fair in Melbourne.

You might be wondering what sets us apart from other merino breeders-

On the Breeding Front

These are the most powerful tools at our disposal, in correspondence with visual assessment. Once understood (which can be difficult) they can be used to rapidly achieve breeding objectives.

Data Integrity - To ensure accurate ASBVs we have a rigorous record keeping program including full pedigrees that can be traced back 20 years

Ram selection at Moojepin is now in a position where we can now put a bigger focus on YCFW without losing sight of what we already have instilled. We are starting to get animals coming through that have "the full set" of numbers and these are the genetics we will be using to take us forward. Just remember it is impossible to reach your goal in one big step, many little steps are required for success.

Semen Sales

Moojepin is becoming increasingly recognised internationally as a serious contributor to improving Growth, Muscle and Fat in the Merino industry.

In the past 12 months 1500 doses have been exported to Argentina, 800 to New Zealand and 500 domestically.

Trials

We have sires in numerous trials across Australia and NZ who are performing extremely well, dominating early growth, fat and muscle traits which is really exciting and shows us that our genetics are performing in all types of environments.

Remember there are no shortcuts in evolution.

We do the hard stuff making the task of selecting rams to suit your breeding objective easier.

We whole heartedly believe in our product and are totally committed to improving our genetics further.

Having extreme passion and self belief about what we do and are very much looking forward to driving the merino industry, **with you** into uncharted waters.

Moojepin "Achieving the Unachievable"

Moojepin Mutton Venture

In an attempt to both validate our breeding direction and obtain a premium price for an undervalued product we launched Moojepin Merino Dry Aged Mutton in April 2015. Moojepin specialises in producing Mutton from ewes (4-8yo) that have grazed for a minimum of 1000 days on a diverse range of pastures. The extra time spent grazing on these high quality pastures delivers a nutrient dense and healthy product. Research shows that Mutton contains 30% more omega-3s than lamb (20% more than white fleshed fish) and 39% more iron than lamb (and 45% more than beef)(Williams,P 2007). We believe Dry-ageing is an essential tool in influencing the eating quality and for this reason we hang our mutton for 21 days.

We specifically targeted high end restaurants in Perth. The response has been truly amazing, with chefs in disbelief on how good the product is. They all rave about the flavour, tenderness and texture.

Highlights;

Winning the Gold medal dish at Oceanafest 2015.

Invited to exhibit at Fine Food Australia 2016 in Melbourne (largest food expo in Australia).

Being featured on Landline.

Collaborating with some of the best chefs in Australia.

- Moojepin Merino Dry Aged Mutton is a unique premium product
- It is Well Bred, Well Fed and Well Hung
- The result is an eating experience like no other
- We have great respect for our sheep offer them a long, healthy and productive life
