

# **Annual Production Sale**

2015

# Welcome Annual Production Sale 2015

The Barlow family extend a warm welcome to everybody to our third annual Triple B Brangus Production Sale.

This year represents a significant milestone for our family and the Triple B prefix, as we celebrate 25 years of registered breeding, along with 35 years of Brangus membership and involvement with this wonderful breed of cattle.

After 15 years of commercial breeding the Triple B stud was formed with the enrolment of approximately 100 females. Over the space of 25 years of selected breeding, our stud herd has grown to now involve 650 joined females together with 650 commercial females.

Performance recording with Breedplan began at Triple B in 1998 and we've continued our commitment to the concept to a point where we now have an entire stud herd recorded in the data base. We're proud of the fact we have achieved a 5 out of 5 star rating for completeness of information.

In 2006 we introduced US genetics into the herd through AI and 2011 with ET. After two trips to the US in 2007 and 2010, we believe we not only have an extensive but good spread and selection of US genetics interspersed throughout the herd.

It is our firm belief that a combination of both the best of the Australian and US genetics will enhance the strong and vibrant future we believe the Brangus breed has in Australia. This fact is borne out in the 2015 offering that comprises sons and daughters of colonial sires of the calibre of Couti-Outi Quart Pot and Bonox sires, 493 and 660 along with 'Elite' heifers by new US sires Dealmaker and WAT Lead Gun.

Our 2015 sale catalogue features 25 'Elite' registered heifers. These heifers represent a rare combination of some of our most proven genetic material and lines, such as Maddison, Rosette, Amanda, Ann & Miss Ava combined with new introduced sires such as, Dealmaker, WAT Lead Gun, Affirmed and the colonial bulls like Bonox 660 and Couti-Outi Quart Pot. The heifers on offer have been selected from the heart of our program, a rare collection of elite genetics and calibre are would not normally be available.

We appreciate you taking the time and effort to travel and attend our sale.

**Lindsay & Fiona Barlow**

## **Annual Production Sale**

'On Property' **11am Wednesday 30th September** 2015

# Important Sale Information

## AGENTS REBATE

The vendor agrees to allow 3% rebate to outside agents introducing approved buyers in writing 48 hours prior to the sale with the condition they accompany them on sale day and settle on their behalf within 7 days. These conditions will be strictly enforced.

## HEALTH

Triple B bulls are fully vaccinated for 7 in 1, Pestiguard, Botulism and 3-Day Sickness. Triple B Elite heifers are fully vaccinated for 7 in 1 and Pestiguard. Triple B commercial heifers are fully vaccinated for 7 in 1 and Pestiguard.

## PRE-TREATMENT

All sale lots will be pre-treated for tick and ready to be presented for tick clearance.

## INSPECTIONS

All lots will be penned for inspection from 9 am on sale day 30th September or prior to the sale by arrangement with the Vendor or their Agent.

## GUARANTEE

All Triple B bulls are guaranteed breeders and have passed a semen test and structural assessment by Dr Ced Wise. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a veterinary certificate within 12 months of the sale date.

## SUPPLEMENTARY SHEETS

All Triple B bulls will be semen tested, scrotal measured, mouthed, weighed and scanned for EMA, fat cover and IMF% prior to sale. Information will be available on sale day or prior to sale on request.

## DELIVERY

Delivery will be given at 'Araluen' following the sale. The vendor agrees to hold cattle free of charge for a period not exceeding 14 days following the sale to allow for trucking, unless prior arrangements have been made.

Free Delivery to the following major centres:

- Emerald
- Gracemere
- Taroom
- Clermont
- Nebo
- Charters Towers

Please contact Vendor or Agent for more information.

## INSURANCE

We recommend that buyers insure their purchases at the completion of the sale. Landmark Insurance representatives will be available on sale day.

## PHONE BIDDING

Unable to make it on Sale day and wish to bid?

Trent McKinley  
0429 004 737

Mark Scholes  
0409 229 651

Julian Laver  
0427 169 862

## AUCTIONS PLUS

AuctionsPlus is an alternate bidding option if you can't attend the sale in person. However, it is only available to registered users. We recommend registering online as soon as possible - at least 24 hours prior to the sale.

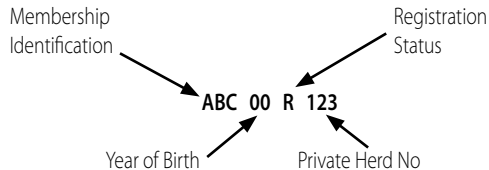

Register at [www.auctionsplus.com.au](http://www.auctionsplus.com.au)

Col Campbell 0429 068 810

## REFRESHMENTS

Morning Tea and Lunch will be available on sale day, proceeds going to Rockhampton Auxiliary Royal Flying Doctors.

# Brangus Registration Explanatory Notes

## REGISTRATION STATUS

- C – Commercial Register
- E – Enrolment Register
- F – Foundation Register
- R – Registered Brangus

## BRANGUS REGISTERS

Brangus cattle can only be bred from the Angus and Brahman breeds of cattle. The Association allows the level of Bos Indicus blood in Brangus to vary to suit breeder's different environmental requirements. Brahman Blood percentage is required to be within 25% to 75% for all registration levels with the exception of the Commercial and Enrolment levels.

## COMMERCIAL REGISTER

Any animal of any breed composition and age shall be eligible for entry into the Commercial Book. All calves recorded in the Commercial Book will be individually identified with an ear tag and/or tattoo, and brand. Animals recorded in the Commercial Book may be upgraded into the Enrolment, Calf Register or Herd Book upon satisfaction of the recording conditions as detailed for each of those Books. Upgrading of an animal will be subject the owner to payment of such upgrade fees as the Management Committee may from time to time prescribe.

## ENROLMENT REGISTER

This is the entry level for the breed. Cattle that are acceptable for this level are:

- Registered Angus cattle
- Registered Brahman cattle
- Commercial Brangus cattle that have been inspected for suitable type by an ABCA appointed inspector

The following cattle also are recorded in the Enrolment register:

- The first cross progeny of mating Angus and Brahman parents
- Cattle that fall outside of the 25% to 75% Brahman blood percentages

Progeny of Enrolment cattle are eligible to be registered as Foundation level with the exception of F1 Brahman and Angus Cattle.

## FOUNDATION REGISTER

Foundation level cattle are required to be between 25% and 75% Bos Indicus blood with the balance being Angus. All progeny of Enrolment level cattle with the required Bos Indicus content will be recorded as Foundation level. Progeny of Enrolment cattle outside this Bos Indicus percentage remain at Enrolment level.

## REGISTERED BRANGUS

Animals whose parents are at least recorded in the Foundation level and whose Bos Indicus percentage falls between 25% and 75% are eligible for the Registered level. Registered Brangus is the highest level in the Brangus Herdbook.

# EBVs Explanatory Notes

Only BRANGUS GROUP BREEDPLAN EBVs with Accuracy (Acc) can be validly compared between herds.

## ESTIMATED BREEDING VALUES (EBVs)

An Estimated Breeding Value (EBV) is an estimate of the genetic value of that particular animal for each trait measured.

## ACCURACY (Acc)

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives.

## BIRTH

**Gestation Length (days):** is an estimate of the time from conception to the birth of the calf and is based on AI records. Lower (negative) GL EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

**Birth Weight (kg):** is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth.

## GROWTH

**200-Day Growth (kg):** is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400-Day Growth (kg):** is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600-Day Growth (kg):** is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**200-Day Milk (kg):** is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200 day weights of their calves.

## FERTILITY

**Scrotal Size (cm):** is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. SS is also positively associated with female fertility.

## CARCASE

**Eye Muscle Area (cm<sup>2</sup>):** estimates genetic differences in eye muscle area at the 12/13th rib site of a 300kg dressed carcass. More positive EBVs indicate better muscling on animals.

**Rib Fat (mm):** estimates the genetic differences in fat depth at the 12/13th rib in a 300kg dressed carcass. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**Rump Fat (mm):** estimates the genetic differences in fat depth at the P8 site of a 300kg dressed carcass. More positive EBVs indicate more subcutaneous fat and earlier maturity.

Average EBVs for animals born in 2013  
analysed in the August 2015 BREEDPLAN

**Retail Beef Yield (%)**: represents total boned out meat yield as a percentage of a 300kg dressed carcass. A more positive EBV indicates higher percentage yield for the 300kg carcass size.

**Intra-muscular Fat (%)**: is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13th rib site in a 300kg carcass. Depending on market targets, larger more positive values are generally more favourable.

### SELECTION INDEXES

**Domestic Steer Index**: estimates the genetic difference between animals in net profitability per cow joined for example self replacing commercial herd (run in a temperate environment) producing steers for the domestic trade. This index assumes that steer progeny are pasture grown to feedlot entry then feedlot finished for a short (75 day) feeding period before being marketed at 490kg live weight (265kg HSCW and 10mm P8 fat depth) at 15 months of age. Daughters are retained for breeding.

**Export Steer Index**: estimates the genetic difference between animals in net profitability per cow joined for an example self replacing commercial herd (run in a tropical environment) producing steers for the export trade. This index assumes that the steer progeny are pasture grown and finished before being marketed at 620kg live weight (325kg HSCW and 16mm P8 fat depth) at 30 months of age. Daughters are retained for breeding.

**Average and above EBVs are highlighted in orange throughout the catalogue.**

Mr Houston was purchased in 2009 for \$30000, he has produced 173 progeny with 42 bulls sold to average \$4112. We believe the best is yet to come from Mr Houston as his daughters are breeding very well. Mr Houston has the top milk value and is in the top 1% for scrotal size and top 10% for 200, 400 & 600 day weight. Dam A186 has produced outstanding progeny including Triple B Global G112 that sold for \$21000 in 2013. A186 is in the top 10% for rump fat, EMA & retail beef yield percentage and top 15% for milk & rib fat. K580 is in the top 5% for milk, top 30% for export & domestic steer index and top 45% for 200 & 600 day weight.

### Online AuctionsPlus Buyers

Please refer to these details to assist you bidding on AuctionsPlus.

1. REGISTER: Do it now, it's free and receive your Usercode & Password.
2. HELP: Click on HELP, do a software check and make sure SILVERLIGHT has been installed on your computer. View FAQ and participate in the Demo Sites.
3. UPCOMING AUCTIONS: All / Cattle / Sheep / Wool.  
CATTLE - Locate the sale you want, click on catalogue / Pre-auction details.

NB - A REGISTRATION / DELIVERY INSTRUCTION SHEET when attached to the sale details on AuctionsPlus it is to be completed prior to the sale starting and emailed or faxed to Landmark as per details. At the completion of the sale you will be contacted and your Purchases & Instructions checked off.

What is a SEQUENTIAL SALE? All lots are sold at a time in catalogue order. As a registered AuctionsPlus bidder places a bid on their computer that bid is immediately relayed to the AuctionsPlus representative sitting in the crowd who raises that bid to the Auctioneer on site.

The AuctionsPlus contact and representative for this sale is Landmark AuctionsPlus coordinator Qld/NT Colin Campbell 0429 068 810.

# Stud Stock Auction Terms and Conditions of Sale

IMPORTANT NOTICE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the Purchaser provided that the Vendor reserves the right to bid either by himself or through his Agent or Auctioneer and should any dispute arise among the bidders for any lot, during or immediately after the sale of the lot, it shall be settled at the Auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the Auctioneer and no bid shall be retracted.
2. The sale will be conducted on a "Sale" or "No Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the Vendor who will immediately after the fall of the hammer declare "Sale" or "No Sale". Should the Vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the Vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
3. The details of the Purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the Auctioneer shall be equally binding on both Purchaser and Vendor.
4. The Auctioneer expressly reserves the right, without giving any reasons therefore, to:
  - (a) Refuse to acknowledge any bid;
  - (b) Withdraw any lot or lots before or during the sale;
  - (c) Exclude any person from the auction venue should it think fit.
5. Each lot in all cases shall be at the risk and expense of the Purchaser upon acceptance of his bid by the Vendor or upon acceptance of the highest bidder's offer by the Vendor whichever shall be the earlier.
6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the Vendor or by the Auctioneer acting as agent for the Vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
7. In the event of any dispute in respect to the sale of any lot:
  - (i) The Purchaser shall nevertheless be obliged to pay to the Auctioneer the full purchase price and any other monies or interest payable by the Purchaser in accordance with these terms and conditions;
  - (ii) The Vendor and the Purchaser shall resolve the dispute between themselves;
  - (iii) The Auctioneer shall have no liability or responsibility in regard to the dispute; and
  - (iv) No lot shall be returned to the Auctioneer and the Purchaser shall indemnify the Auctioneer for all costs, expenses and damages which the Auctioneer is put to or incurs by reason of the Purchaser so doing.
8. The name of the Vendor for whom the Auctioneer acts is acknowledged to have been furnished to Purchasers prior to the sale and further particulars will in all cases be furnished to a Purchaser if required. In the case of any disputes the remedy of the Purchaser shall be against the Vendor only and in no case or under any circumstances against the Auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
9. (a) PAYMENT – Unless prior credit arrangements have been made in writing with the Auctioneer the full purchase price for each lot shall be due and payable to the Auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the Vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the Purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the Purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the Auctioneer reserves the right to:-

- (i) Rescind the contract on behalf of the Vendor and repossess and resell any lot;
  - (ii) Recover from the Purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate plus two per centum. For the purposes of this condition, the expression "the AMBA Bill Rate" is the rate published by the Australian Merchant Bankers Association in good faith as at the date of the sale as its bill rate for 180 day bills of exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the Auctioneer shall determine and advise the Purchaser of the interest rate to apply for the purposes of this condition.
- (b) The Auctioneer is selling as the del credere agent of the Vendor and the full purchase price of any lot sold shall be payable by the Purchaser to the Auctioneer and be fully recoverable by the Auctioneer in its own name.
10. If the Purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former Purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
  11. Any Vendor or Purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.
  12. The Purchasers, if any more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.
  13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the Vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the Vendor or Auctioneer, provided however, that this Condition shall not in any way negate the Vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
  14. The Auctioneer may, should it think fit, make arrangements on a Purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the Auctioneer and all such service will be at the Purchaser's risk and expense.
  15. No lot will be delivered until the sales invoice has been checked and signed by the Purchaser or his duly authorised representative.
  16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement of warranty, statutory or otherwise, is hereby excluded. The Auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the description of pedigrees of any lot offered for sale and no such error, misdescription or omission shall

entitle the Purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

- (b) Each lot will be sold subject to passing all veterinary tests required by the law of the state or country to which the Purchaser intends to transport that particular lot, such tests to be undertaken at the Purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the Purchaser shall be refunded and property in the lot shall revert to or remain with the Vendor.
17. Guarantees of Fertility:—
- (1) BULLS - Save and except for calves at foot, all bulls are guaranteed breeders and to so prove by the later of:
    - (a) six months after the date of sale or
    - (b) the animal reaching the age of 24 months
  - (2) FEMALES - Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf by the later of:
    - (a) 6 months of the date of sale
    - (b) the animal reaching the age of 30 months

A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.
  - (3) Claims under Clauses 17(1) and 17(2). A claim that an animal has failed to satisfy a guarantee of fertility under Clause 17(1) or 17(2) must be made to the Vendor within the relevant guarantee period but prior to the animal entering a quarantine area other than on the Vendor's property.
    - (a) All claims must be accompanied by a certificate from a registered veterinarian surgeon in accordance with the guidelines established by the Australian Association of Cattle Veterinarians which must clearly identify the basis of the claim.
    - (b) Subject to Clause 17(9), infertility resulting from injury or disease occurring after the sale of the animal is not covered by this guarantee.
    - (c) The Vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. If the animal proves fertile within the period such status must be confirmed by a certificate issued by a registered veterinary surgeon in accordance with the guideline established by the Australian Association of Cattle Veterinarians and costs incurred must be borne by the Purchaser. If the animal is not proven fertile within the period, the costs incurred must be borne by the Vendor.
  - (4) LIABILITY OF A VENDOR - Except for costs defined elsewhere in the conditions of sale, the liability of a Vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or provide mutually agreed upon replacement animal(s).

- (5) In the event of a claim being substantiated:
  - (a) The purchase price shall be refunded within 14 days unless a mutually agreed upon replacement animal has been provided.
  - (b) The animal/s which are the subject of the claim shall automatically become the property of the Vendor and be returned to him or disposed of according to his instruction at his expense.
- (6) Subject to Clause 17(9), this guarantee is of no effect if:
  - (a) The animal is returned to the Vendor.
    - (i) In poor physical condition or with any injury;
    - (ii) Tests carried out on behalf of the Vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally; or
  - (b) The Purchaser has collected and stored semen from a bull or
  - (c) The Purchaser attempted any form of embryo collection from a female.
- (7) In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the Vendor and the Purchaser. The Auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. If an animal is alleged or proved not to be a breeder, the Purchaser must nevertheless pay the Auctioneer the full purchase price and any other monies or interest payable by the Purchaser in accordance with these Terms and Conditions.
- (8) EVIDENCE OF FERTILITY – A Certificate issued by a registered veterinary surgeon at or before the time of sale than an animal is fertile (unless it is a certificate stating in respect of a female that she is in calf at the time of sale) does not, of itself, satisfy or discharge the Vendor's obligations under the guarantee of fertility given under this Clause 17. All animals, except calves at foot, must prove their fertility within the relevant guarantee period.
- (9) RELIEF FROM GUARANTEE – If the Vendor seeks to be relieved from the obligations which would otherwise be imposed upon him by this clause by virtue of Clauses 17(3)(b) or 17(6) (a), the onus of proof is upon the Vendor to establish that:
  - (a) The animal suffered the injury or disease or is in poor physical condition due to circumstances and events occurring after the sale, and
  - (b) The injury, disease of physical condition is the sole cause of the animal's infertility or failure to prove fertility within the guarantee period.
- (10) DEFINITION – For the purpose of this Clause 17, the expression "guarantee period" means:
  - (a) in relation to bulls – the period specified in Clause 17(1) as being the period in which the bull must prove his fertility; and
  - (b) in relation to females – the period specified in Clause 17(2) as being the period in which the female must go into calf.

18. (a) Each lot shall be at the risk of the Vendor in respect of any damage or injury, whether by disease, accident or otherwise, or whether caused by the negligence of the Auctioneer for the period that the lot be in the custody of the Auctioneer, unless such lots shall have been sold in which latter case such lot shall be at the risk of the Purchaser in all such respects.
  - (b) If any Vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that Vendor shall be liable for all injury, damages, costs, losses or expenses which the Auctioneer may sustain, incur or be put to either directly or indirectly as a result of the Vendor so doing. The Auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
19. DELIVERY — Except at the discretion of the Auctioneer no lot shall be delivered to the Purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the Auctioneer pursuant to Condition 14 hereof, is first made by the Purchaser to the Auctioneer. Release of lots may be withheld by the Auctioneer until personal cheques are cleared.
20. In these Conditions:—
  - (a) References to "Auctioneer" shall be taken to mean as the context so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the Vendor to conduct the sale of the lot;
  - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1;
  - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;
  - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the Auctioneer on behalf of a Vendor.

.....

**IMPORTANT NOTICE**

The Selling Agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.

All persons who attend the Sale do so entirely at their risk and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
