Temperament Quiet: 90% Slightly Stirry: 10%
A small number a little fidgety when isolated in the yards or crush, otherwise fine to handle as a mob in & out of the yards - mustered at Beaconsfield using motor bikes.

Assessor Comments Preg tested heifers - bearing in mind they were tested 05th May and at that time 28 were under 4 months with 38 over 4 months so add 2 months to those dates and now they are noticeably visually showing calf. Apart from 3 plainer type medium frame heifers the majority are better quality larger frame well bred Santa, Braford, D/M & their crosses - purchased as NSM heifers they have performed well averaging approx 0.7kg DWG for the growing & joining period(after curfew) Whilst the mob consists of mixed breeds they are generally good quality & would be a good addition to any herd as young breeders when calved with Angus & (potentially a few) Charbray calves at foot. A good joining window and conditions with ample bulls at Beaconsfield for the dates listed with no known access to bulls for the period from purchase to the nominated joining.

Lovely heifers to work in the yards. Heifers were in the yards for 2 days and pretested before being assessed.

Assessor Comments Buyers, for the first time Gillespie Grazing co are offering up the COMPLETE DROP of the #5 joined replacement heifers for your competition. Scanned in calf to the Gillespie Stud 'S' Santa Gertrudis bulls and weighing 475kgs all the hard work has been done! Within this mob are 12 #5heifers out of the stud by the Drensmaine Santa Bulls and 8 #6 heifers to make up a 5 deck load. They are all currently Australian Certified Organic, USDA NOP and GAP step 4, and can remain so if desired. Odd heifer has some evidence of fly bite, 1 slighty bent nose and 1 stumpy tail, not detrimental. A lot of time and effort has gone into selection and handling the Gillespie cattle resulting a reputation of great production, functionality and easy handling breeders. Do not miss this rare opportunity.

Handled quietly in yards with a odd one slightly stirry in the crush. Very good to handle outside with bikes and dogs

Assessor Comments Buyers a rare opportunity to purchase the lead run of an entire drop of 2017 heifers out of a very good herd of EU cows. Heifers normally retained as replacements and only being sold due to continuing dry conditions. Ideally suited to join to a bull of your choice in Spring or take through to premium EU markets at heavier weights. Heifers were very quiet to handle through yards with only an odd one becoming slightly agitated through the crush. Please note heifers were weighed & assessed after a rainy night in yards.

Vendor Bred Yes

Stock History Bred from a very good quality herd of Santa breeders renowned in the local area as one of the best.

Bloodlines Bulls accessed from Swan Hill and Gylanda Santa bull studs. Vendor also has some Brangus, Droughtmaster and Charolais bulls in the herd.

Grazing Conditions Grazing on improved Buffel country that has dried off over the past few months.
 Returned to: These will be handled and fed out during the day in a large holding paddock with adequate feed reserves and yarded each night onto hay racks/water.

HGP Status The owner declares that the cattle have not been treated with HGP at any period of their lives

Vet Treatments Vaccinated 02/03/2017 5 in 1 (Branding)
 Other Treatment 11/07/2017 Amitik (plunge dip)

Chemical Residue Clear - No known history.

Eligibilities Russian Eligible Saudi Eligible PCAS Eligible

J-BAS Score J-BAS score 6

Vendor Comments These have had plenty of handling over the past couple few days and are starting to settle down well. Past buyer (major feedlot) has stated these performed very well on grain with virtually no health issues whilst in the feedlot. PCAS eligible.

Temperament Quiet: 80% Slightly Stirry: 20%

Cattle generally quiet however trot about in bigger yards, a result of being mustered with a chopper. These need to be steadied through gateways etc. Nothing considered stirry. Steers are being handled daily till delivery so should settle down well.

|--------------------|---|
| Assessor Comments | Buyers, EU ACCREDITED Santa and Santa X backgrounder steers that come with a great reputation. Regularly offered on A+ and always attract plenty of repeat buyers. These steers ooze breed character and very good weight for age. They exhibit plenty of length, spring of rib, bone & muscling and are of the quality that are rarely available. Noticed odd steer with old ring worm scar, no issues. They would be ideal to put away and grow out to domestic or export feeder entry weights or take through to bullocks. Southern buyers please note these are offered GUARANTEED CLEAR of the dip and will scratch clean on farm (no risk to buyers). There are 234 of these in the line and are being offered in three lots (delivery a run of the gate). There are also 168 lighter steers also being offered in this sale. Do not miss this opportunity to purchase steers with plenty of runs on the board. Steers are also offered as PCAS eligible and relevant Non-Certified Supplier Declaration is available by request. |

Vendor Bred Yes
 Stock History Bred from a very good quality herd of Santa breeders renowned in the local area as one of the best.
 Bloodlines Bulls accessed from Swan Hill and Gyranada Santa bull studs. Vendor also has some Brangus, Droughtmaster and Charolais bulls in the herd.

Grazing Conditions Grazing on improved Buffel country that has dried off over the past few months.
 Returned to: These will be handled and fed out during the day in a large holding paddock with adequate feed reserves and yarded each night onto hay racks/water.

HGP Status The owner declares that the cattle have not been treated with HGP at any period of their lives

Vet Treatments Vaccinated 02/03/2017 5 in 1 (Branding)
 Other Treatment 11/07/2017 Amitik (plunge dip)

Chemical Residue Clear - No known history.
 Eligibilities Russian Eligible Saudi Eligible PCAS Eligible

J-BAS Score J-BAS score 6

Vendor Comments These have had plenty of handling over the past couple few days and are starting to settle down well. Past buyer (major feedlot) has stated these performed very well on grain with virtually no health issues whilst in the feedlot. PCAS eligible.

Temperament Quiet: 80% Slightly Stirry: 20%

Cattle generally quiet however trot about in bigger yards, a result of being mustered with a chopper. These need to be steadied through gateways etc. Nothing considered stirry. Steers are being handled daily till delivery so should settle down well.

|--------------------|--|
| Assessor Comments | Buyers, EU ACCREDITED Santa and Santa X backgrounder steers that come with a great reputation. Regularly offered on A+ and always attract plenty of repeat buyers. These steers ooze breed character and adequate weight for age. They exhibit plenty of length, spring of rib, bone & muscling and are of the quality that are rarely available. Noticed odd steer with old ring worm scar, no issues. They would be ideal to put away and grow out to domestic or export feeder entry weights or take through to bullocks. Southern buyers please note these are offered GUARANTEED CLEAR of the dip and will scratch clean on farm (no risk to buyers). There are 168 of these in the line and are being offered in two lots (delivery a run of the gate). There are also 234 heavier steers also being offered in this sale. Do not miss this opportunity to purchase steers with plenty of runs on the board. Steers are also offered as PCAS eligible and relevant Non-Certified Supplier Declaration is available by request. |

| Temperament | <p>Quiet: 80% Slightly Stirry: 20%</p> <p>Cattle generally quiet however trot about in bigger yards, a result of being mustered with a chopper. These need to be steadied through gateways etc. Nothing considered stirry. Steers are being handled daily till delivery so should settle down well.</p> |
| Assessor Comments | <p>Buyers, EU ACCREDITED Santa and Santa X backounder heifers that come with a great reputation. Regularly offered on A+ and always attract plenty of repeat buyers. These heifers ooze breed character and adequate weight for age. They exhibit plenty of length, spring of rib, bone & femininity and are of the quality that are rarely available. Noticed odd heifer with old ring worm scar, no issues. They would be ideal to put away and grow out to domestic feeder entry weights or grow out for future breeding purposes. Southern buyers please note these are offered GUARANTEED CLEAR of the dip and will scratch clean on farm (no risk to buyers). There are 211 of these in the line and are being offered in two lots (delivery a run of the gate). There are also 199 heavier heifers also being offered in this sale. Do not miss this opportunity to purchase heifers with plenty of runs on the board. Also offered as PCAS eligible and relevant Non-Certified Supplier Declaration is available by request.</p> |

Cows were good to handle in yards and crush, Vendor culls for temperament in breeders. These cattle have been handled by horses, bikes and dogs.

Assessor Comments

Buyers 15 EU cows that are joined to Angus and Hereford bulls, would suit to build Eu breeder numbers. Could also be calved out and fatten for a turnover job. There are 4 brindles in this mob, some cows are showing the effects of Winter and the lack of protein in the grass .Please note these cows are vendor preg tested. The vendor has another 15 cows this sale also vendor preg tested in calf , they are not Eu.

Temperament Quiet: 53% Slightly Stirry: 29% Stirry: 18%
 Most of these heifers were considered slightly stirry in the race/crush with some stirry whilst being mouthed. Most were on edge when they were being photographed. Prefer experienced people to handle these cattle. Mustered on horses.

Assessor Comments A small lot of yearling heifers that are put together cattle from various saleyards. Whilst all heifers were mouthed to be milk teeth please be aware the age is an estimate only due to being purchased. The heifers have done very well since arrival and are on bins currently putting on 1.2kgs/day. The heifers are a little bit edgy so inexperienced people should be on guard. Please note delivery is Tuesday 11th only due to periodic vendor absence from property. If liveweight option is selected the buyer needs to ensure truck is on time.

Vendor Bred No
 Stock History Vendor purchased these as young heifers from the St George region and has had them in hand for the past 15months. Currently PTIC for 6 to 8 months.
 Bloodlines Predominantly Shorthorn with a few Hereford Shorthorn Cross. The breeder of these heifers has been using 'The Grove' bloodlines for 20+ years.

Grazing Conditions Currently grazing in short native pasture paddocks.
 Returned same

HGP Status The owner declares that the cattle have not been treated with HGP at any period of their lives

Vendor Comments Regretful sale as these are a great line of young future breeders, only selling due to current season.

Assessor Comments

These are a great line of future breeders and are an excellent opportunity for someone to purchase young well bred heifers. These heifers will compliment anyones herd. They are a genuine sale due to the current conditions. From Vet's report these cattle are all PTIC. Parallel assessed by Chris Simpkins.

 Very good line of quiet weaners to handle.

Assessor Comments Here is a great line of top quality Angus cross weaner steers that average 294kg. Steers present in store condition as they really have just been following the cows. These steers have very good bone and length. This line of steers are very soft easy doing types with frame that would suit trade feeder or backgrounder. These cattle are out of good medium to large frame Santa cows by Burenda Angus stud sires. Cattle have been yard weaned from 10/07/17 onto oaten hay, top country dry lick and beachport until trucking. Please be aware cattle are getting weaned. Note very odd steer has old blight scar but not detrimental. Note vendor has other lines in same sale.

 These are extremely quiet line steers to handle.

Assessor Comments Here is a great line of Simmental cross steers that average 292kg. These present in good store condition. Steers have great weight for age with bone and muscle but still remain very soft easy doing types. The cattle are by top quality Simmental and Simbrah sires out of good medium to large frame Glen Fosslyn blood Droughtmaster cows. Steers are very quiet to handle both in and out of yards. Steers had a over night dry curfew before weighing. Steers where treated on the 4/7/17 with AD& E and B12. These steers started getting weaned on the 3rd of July and will be yard weaned and tailed out until delivery.

 Good cows to handle, handled on side by side and utes, quiet through yards

Assessor Comments A great opportunity to purchase Angus Cows with F1 Wagyu calves at foot, these cows are in good condition and doing a great job on their calves. These units could be split with the calves eligible for the lucrative F1 wagyu market, cows have been running with Angus bull. Please note 3 cows have white on udder behind the navel, 2 cows have some slight blue in the eye. One steer calf looks to have been weaned and not in as good condition as the rest.

 Good to handle in yards and race. Scales were a bit noisy with a couple of steers upset by that. Well handled cattle.

Assessor Comments Yard weaned steers with good frame, bone and conformation. Growthy composite flat back steers that will grow out to

export feeder weights or heavy MSA slaughter weights. They are most likely a bit too growthy for the domestic feeder market.

Good to handle in the paddock - accustomed to dogs, bikes and electric fences. Good to handle in yards with one cow becoming agitated in the crush at assessment.

Assessor Comments A good to very good quality line of mostly medium to large framed Angus cows with Angus calves at foot. These cows were purchased as PTIC cows ex Talwood QLD via Auctionsplus in January 2017. They were part of a one mob of vendor bred cows and these are the early calvers from that mob. The cows had a range of ages in them but all cows with no visible age ear tag or 9 years and older were mouthed at assessment with anything over 10 years old or unsound removed from this line. 24 good quality unbranded calves at foot sired by Booroomooka Angus bulls and range from 80 to 130 kg live. The calves are a neat split of 12 heifer and 12 bull calves. One cow noted with buffalo fly rub mark on brisket - healing ok. The cows are unjoined and are young enough and of good enough quality to take and join to a bull of the buyers choice. Alternatively they also suit to grow out on good feed as splitter units.

 Heifers settled very quickly at weaning, and continue to be a pleasure to handle.

Assessor Comments Heifers are well broken in, excellent to handle and are very quiet in the yards. Vendor is well known for their cattle handling skills and this is well evidenced when working this line. Vendor has only retained 5 head of exceptional heifers from this lot

for replacements, due to the current dry seasonal conditions. A 15% tail has been removed giving buyers every confidence to purchase for replacement breeders or backgrounders. Vendor is very particular when classing on fertility, constantly getting in excess of 90% in very dry seasonal conditions. Heifers are very even with a weight range of 202 kg to 290kg.

| Assessor Comments | These are an excellent line of top quality, very well handled young steers. They are very even in frame and condition. Only 7 head of the entire draft showed only slight Santa tendencies in their make-up. Steers have had their 5 in 1 booster shot, and have been yard weaned on hay and bunker fed with pellets. They have been tailed out using Horses, Dogs and bikes, and were excellent to handle. Please note vendor is offering 88 hd of their sisters this sale also. |

 Steers were good to handle during the assessment - stirred slightly in force yards and in the crush, quick to settle when released into mob - typical bos indicus behaviour.

Assessor Comments A small line of genuine Vendor bred weaner steers, that have been bred on lighter country East of Tenterfield. Steers are sired by Gunnadoo Park Brangus Bulls out of a quality crossbred cow herd consisting mainly of Brangus & Brangus Baldy Cows. At assessment the steers weighed from 237 - 302kg to average 260kg after a 4 hour curfew, with a projected delivery weight of 255kg. Please note the delivery period with the vendor transporting the steers to the Tenterfield Saleyards on Monday (17-7-17) at his own expense. A great opportunity to purchase steers that will respond immediately to improved nutrition and protein. Please note similar lots in same sale.

 Weaners were very good to handle with the vendor priding himself on the temperament of his cattle.

Assessor Comments A line of genuine Vendor bred Angus Steers, sired by Glenisa & Sara Park Angus Bulls out of an Angus cow herd. At assessment the steers weighed from 256 - 368kg to average 315kg (full weight) with a projected delivery weight of 302kg. The weaners were very good to handle during the assessment with the vendor regularly handling his cattle from a vehicle or on foot. A great opportunity to purchase a line of quiet weaned steers that will respond immediately to improved nutrition, and will grow into quality domestic or heavy weight export feeder steers. Please note 1 steer has white patches on his belly. Similar lines in same sale.

A GREAT COMBINATION HERE OF BRITISH COWS TO THRIVE AND CARRY SOFTNESS AND THE LIMOUSIN BULL TO ADD SHAPE AND TYPE TO THE PROGENY. COWS HAVE ALL BEEN MOUTHED SOUND TO RAISE AT LEAST ANOTHER CALF, ODD COW SPACEY IN FRONT TEETH ODD COW TEETH CHIPPED BUT STILL CARRYING 8 TEETH. VENDOR FERTILITY TESTS ANNUALLY BY SELLING DRYS ALWAYS, 1 COW NOTED WITH OLD PINKEYE SCARRING IN 1 EYE NOT SEEN TO BE DETRIMENTAL. 1 COW NOTED WITH BOTTLE TEATS. CALVES HAVE HAD TREATMENTS OF FLUKAZOLE C, 5IN 1 AND CYDECTIN LA ON THE 9/06/17. CALVES COULD CERTAINLY BE WEANED, AND WOULD HELP THE COWS NO END. A GREAT LINE OF 3 IN 1 UNITS. THAT HAVE BEEN PURPOSELY BRED TO GAIN MAXIMUM HYBRID VIGOUR. TOP UNITS. | | | | | | | | | | | | | | | | | | |

 One heifer jumped about in the weigh box but settled in yard. Others quiet.
 Assessor Comments Handy pen of heifers that if continued on a reasonable plane of nutrition would suit either the feeder job or be used as future breeders. One heifer had rub marks above the eyes. These heifers were all mouthed by the vendor a week prior to assessment and were 100% milk toothed. Note: this vendor has other heifers in this sale.

 2 heifers jumped about in the weigh box but settled in yard. Others quiet.

Assessor Comments Heifers that were good to handle in the yards. These cattle are still 'on the do' but are showing the affects of winter, woolly coats etc. These and other heifers were mouthed by the vendor a week prior to assessment and were 100% milk teeth.

Note: This vendor has other heifers in this sale.
